For Indoor and Outdoor Norway Rat, Roof Rat and House Mice Control

Ready To Use

With Zinc Phosphide

PELLETED BAIT

KILLS RATS & MICE

ACTIVE INGREDIENT:
Zinc Phosphide (CAS #1314-84-7) 2%
OTHER INGREDIENTS: 98%
TOTAL 100%

Net Weight: 5 lbs (2.3 kg)

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panels for First Aid and additional precautionary statements.
**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-888-334-6569 for emergency medical treatment information.

If you experience signs and symptoms such as nausea, headache, pain, tightness in chest, or weakness, see a physician immediately. For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

**IF SWALLOWED**

- Call a poison control center or doctor immediately for treatment advice.
- Do not drink water.
- Do not administer anything by mouth or induce vomiting unless told to do so by the poison control center or doctor.

**IF ON SKIN OR CLOTHING**

- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

**IF INHALED**

- Move person to fresh air.
- If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once.

**NOTICE TO PHYSICIAN OR VETERINARIAN**

Contains the phosphine-producing active ingredient, Zinc Phosphide. Pesticidal mucosal damage can contaminate the use of gastric lavage. For animals ingesting bait and showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acid. The stomach and intestinal tract can be lavaged, beginning posteriorly and anteriorly in suitable animals.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labelings. READ THIS LABEL. Read the entire label and follow all use directions, restrictions and precautions.

**USE RESTRICTIONS**

- Do not apply to crop or, to any part, or to any site not specified on the label.
- Only apply bait to locations out of reach of children, pets, domestic animals and nontarget wildlife. Targeted-bait stations must be used if children, pets, non-targeted mammals, or birds may access the bait. These stations must be resistant to destruction by dogs and by birds, including or in or near the areas under 1 foot in size, and must be used in a manner that prevents such children from reaching the bait containers and obtaining the bait. It can be shaken from bait stations when they are in place. Units must be secured in otherwise immobilized. Even stronger bait stations are needed in areas open to field rodent and small animals, or in areas prone to vandalism.
- Bait stations are mandatory for outdoor, above-ground use.
- Do not apply this product to areas where feral cats will be located in their environment. A cat that will be directly or indirectly fed. Only protected handlers may be in the area during application. Keep out of the treated area during application. In areas prone to vandalism.
- This product may only be used for the control of Norway rats, roof rats, and the house mouse in and around homes, industrial, agricultural and commercial buildings, and similar man-made structures. This product may also be applied inside of transport vehicles (sheds, trains, and aircraft).
- Do not place bait near or inside ventilation ducts or lights.

**KILLS RATS & MICE**

**PELLETED BAIT**

**ACTIVE INGREDIENT:**

Zinc Phosphide (CAS #1314-84-7) .......................... 2%

**OTHER INGREDIENTS:** .......................... 88%

**KEEP OUT OF REACH OF CHILDREN CAUTION**

See separate page for First Aid and additional precautionary statements.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to birds, fish and other wildlife. Dogs, cats, and other animals might be poisoned if they feed on animals that have eaten this bait. Do not contaminate water when disposing of equipment used in or near water or moisture.

**STORAGE AND DISPOSAL**

Do not contaminate water, food; or feed by storage or disposal.

**STORAGE:**

Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemistries.

**PESTICIDE DISPOSAL:**

Waste resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

**CONTAINER HANDLING:**

Non-hazardous container. Do not reuse or refill the container. Offer for recycling if available. Dispose of empty container by placing it out of reach of children, in an approved waste disposal facility or in a burning incinerator if allowed by state and local authorities. By burning, if burned, stay out of smoke. Call your Local/State Agency for inquiries on proper disposal.

**DISCLAIMER:**
The extent permitted by applicable law, the seller makes no warranty, expressed or implied, concerning the use of the product other than indicated on the label. To the extent permitted by applicable law, the buyer assumes all risks of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**USE RESTRICTIONS (Continued from other panel)**

- Do not place in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.
- When used in USDA-approved facilities, this product must be applied to tamper-resistant bait stations.
- Do not apply to places where rats and mice will most likely feed and consume the bait. Generally these areas are walking walls, grooved openings, or in and beside basements, in corners and concealed places, between floors and walls, or in locations where rats and mice or their signs have been observed.

**APPLICATION DIRECTIONS FOR RATS:**

- Apply 1 to 2 baits per station in tamper-resistant bait stations. Place in tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area less than 10 days intervals.

**APPLICATION DIRECTIONS FOR MICE:**

Apply 1 to 3 baits per station in tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area less than 10 days intervals.

**FOLLOW-UP:**

Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. Use detergent and hot water to wash seeds used for application into basements and basements. Do not use seeds for planting. Holding or transferring food or feed material of non-pesticide, water, and non-foods as much as possible.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Harmful if inhaled, absorbed through the skin, or inhaled. Do not breathe dust. Avoid contact with eyes, skin, or clothing. Any person who releases carcasses or unused bait following application of the product must wear gloves. Personal Protective Equipment (PPE)

**User Safety Requirements**

Provide manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washable, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling the product.

**User Safety Recommendations**

- Wash hands thoroughly with soap and warm water before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
