FIRST AID

If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian at once.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed or inhaled, causes moderate eye irritation, avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using the toilet. Wear long sleeved shirt and long pants, shoes plus socks and gloves. Remove and wash contaminated clothing before reuse. Do not use apparel for mining, handling or transporting food or water. To decrease volatilization, rinsate waste water when disposing of equipment wash water or rinsate.

APPLICATION DIRECTIONS

Apply 1 to 2 teaspoon amounts of bait per placement. For outdoor use, place bait in active rat burrows or tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area at less than 30 day intervals.

PRECAUTIONARY STATEMENTS

USE RESTRICTIONS:

• Do not apply by eye method, to any part, to any site not specified in this label.

• Any only bait in locations out of reach of children, pets, domestic animals and nontarget wildlife. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents access from children or domestic animals. If used for any other uses, the baits must be removed from the area prior to the date of application. If used in or near a grain storage facility, the baits must be removed from the area prior to the date of application.

• Do not apply this product in a way that will contact works on other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep all pets out of the treated area during application.

• This product can only be used to control Norway rats, roof rats and house mice in and within 100 feet of man-made structures controlled in the manner as to be non-restricted to commercial or industrial users and to be not used to attract wildlife to the area.

• Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles (ships, trains, aircraft), docks and port and terminal facilities and related structures around and associated with these sites. Feral and perimeter baiting, beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

• This product may be applied to active rodent burrows to control Norway rats, and roof rats within or beyond 100 feet of buildings and man-made structures, provided that limitations of these rodents have been confirmed. Bait must be placed in active rat burrows or tamper-resistant bait stations. Do not broadcast bait. Because Norway rats and roof rats may occur in areas further than 100 feet from buildings such as mole structures when the rodents have ample supplies of food and cover, efforts should be made to remove food, trash, garbage, clutter and debris, at least every 2 weeks.

• Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk in milk handling equipment or surfaces that came into direct contact with food when used in USDA inspected facilities. This product must be applied in tamper-resistant bait stations. Do not sell this product in individual containers holding less than 4 pounds of bait.

APPLICATION DIRECTIONS FOR RATS

• Application of bait per placement at all 10 feet intervals. For outdoor use, place bait in active rat burrows or tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area at less than 30 day intervals.

APPLICATION DIRECTIONS FOR MICE:

• Application of bait per placement at all 10 feet intervals. For indoor use, place bait in tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area at less than 30 day intervals.

PREVENTIVE STATEMENTS

• Do not use with or near any existing sprays.

STORAGE AND DISPOSAL

Do not store near food or food storage area or disposal.

PESTICIDE STORAGE:

Store only in original container in a cool, dry place inaccessible to children and pets. Keep container closed and away from other chemicals.

PESTICIDE DISPOSAL:

Washes resulting from the use of this product may be placed in trash or disposed of at an approved waste disposal facility.

CONTAINER HANDLING:

Nonflammable container. Do not dispose of this container. Offer for recycling if available. Dispose of empty containers by placing or in food, at an approved waste disposal facility or by incineration, if allowed by state and local authorities. By burning, this product may produce noxious smoke. Do not burn plastic containers.

DISCLAIMER:

To the extent permitted by applicable law, the seller makes no warranty, expressed or implied, concerning the use of this product other than that indicated on the label. To the extent permitted by applicable law, the buyer assumes all risks of use and handling of this material when used in accordance with the label instructions.

User Safety Requirements

To follow manufacturer’s instructions for use, wash contaminants off of eyes, wash in soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Long sleeved shirt and long pants, shoes plus socks and gloves. Remove and wash contaminated clothing before reuse. Any person who receives contaminated as at least 30 day intervals.

User Safety Recommendations

• Wash hands thoroughly with soap and water after handling, drinking, chewing gum, using tobacco or using the toilet. Remove PPE immediately if occupational or around food. Following application of this product must wear gloves.

Net Weight: 5 lbs (2.3kg)
