™
Have the product container or label with you when calling a poison control center or doctor for treatment. You may also call 1-877-854-2494 for emergency medical treatment information.

Use detergent and hot water to wash spoons used for application into burrows. Do not use spoon for mixing, holding or transferring food or feed. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible.

NOTE TO PHYSICIAN OR VETERINARIAN

Consult the product use label and the label of any other chemicals to be used to determine the hazard from the use of this product. This product is not compatible with any of the following pesticides: Chlorpyrifos, Malathion, Carbaryl, Abamectin, Lambda-Cyhalothrin, and those compounds that contain these active ingredients either alone or in combinations. Do not place bait near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Follow-up: Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. Use detergents and hot water to wash surfaces used for application into burrows. Do not use water for mixing, holding or transferring food or feed. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible.

PRESERVATION STATEMENTS

Hazard to Humans and Domestic Animals

Harmful if swallowed or inhaled, causes moderate eye irritation, avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long sleeved shirt and long pants, shoes plus socks and gloves. Remove and wash contaminated clothing before reuse. Any person who handles carcasses or used bait following application of this product must wear gloves.

User Safety Requirements

Follow manufacturer’s instructions for storage and handling of PPE. Use such instructions for washables exist, use detergent and hot water. Keep used PPE separately from other laundry. Remove PPE immediately after handling this product.

User Safety Recommendations

• Wash hands thoroughly with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash thoroughly and change into clean clothing.

DISCLAIMER: To the extent permitted by applicable law, the seller makes no warranty, express or implied, concerning the use of this product other than as indicated on the label. To the extent permitted by applicable law, the buyer assumes all risks of use and handling of the material when such use and handling is contrary to label instructions.

MADE IN USA

The World Leader In Rodent Control Technology®

DIRECTIONS FOR USE: (Continued from other panel)

This product may be applied to active rodent burrows to control rodent colonies beyond 100 feet of buildings and man-made structures, provided that infestations of these rodents have been confirmed. Baits must be placed no less than 10 inches into active rodent burrows. Do not broadcast bait. Because rodent infestations may occur in areas farther than 100 feet from buildings and man-made structures when the rodents have ample supplies of food and cover, efforts should be made to remove food sources, garbage, cadaver, and debris.

Do not place bait near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Do not sell this product in individual containers holding less than 4 pounds of bait.

APPLICATION DIRECTIONS:

• Do not apply to any pest, or any site not specified on this label.
• Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.
• Keep all persons out of the treated area during application.

User Safety Recommendations

• Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash thoroughly and change into clean clothing.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow voles, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.
