STORAGE and DISPOSAL: Pesticide Storage: Store in a cool area away from children and animals. Liquid Tube Dispensers: Do not reuse tube. Place in trash or offer for recycling if available. If petently filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

DO NOT USE ON DOGS LESS THAN 6 MONTHS OLD. For external use only. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wash affected areas with soap and water. To avoid irritation, use the tube once then discard. After use, wash the tube with soap and water and rinse in cold water. If prolonged exposure or irritation occurs, discontinue use and consult a veterinarian immediately.

Some pets may experience blisters or temporary skin irritation. If irritation develops, discontinue use. If irritation persists or becomes more severe, consult veterinarian immediately and report incident to company at 1-800-234-2326.

FIRST AID: If in eyes: Rinse eyes open and often slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

How to store the product container and label with you when calling a poison control center or doctor for treatment advice.

You may also contact 1-800-234-2326 for emergency medical treatment information.

WARRANTY AND CONDITIONS OF SALE: Seller warrants that the products conform to the chemical specifications expressed on the label. To the extent consistent with applicable law, neither the seller nor the manufacturer makes any other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, neither the seller nor the manufacturer is liable for consequential damages.

For emergency or product information, call 1-800-234-2326 or contact your veterinarian if your pet is experiencing an adverse reaction.

ADAMS® Tick Spot-On® For Dogs

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS. DO NOT USE ON OTHER ANIMALS!

DO NOT USE ON CATS

Keep cats away from treated dogs for 24 hours. If applied or ingested, contact your veterinarian immediately.

FOR MEDIUM DOGS (22-50 lb) To apply this product, use one disposable liquid tube for each application with the applicator device.

1. OPEN Use longer screw to lift cover.

2. LOAD To load, place tube with tube side up into the applicator. Ensure that tube fits securely in the applicator.

3. APPLY Close the blue cover and the tube will snap open.

4. APPLY The dog should be standing for easy application. Apply to hair, just pull hair and get mist to dog's skin. Place mist along the spine or back line once at each of three evenly spaced spots between the shoulder to the base of the tail. Do not apply on any waxy or oily surface or at any one spot that could cause some of the solution to run off the site of the injection. Do not spread this product by hand over the dog. Although the dogs skin and hair coat will uniformly distribute the active ingredients over the entire dog, brushing the dog 12-24 hours after treatment will help to distribute the material over the skin.

5. DISPOSE Dispose of empty tube, open cover, and drop empty tube into trash or offer for recycling if available. Close applicator device and store in original package.

6. USE RESTRICTIONS: Do not apply product for 30 days unless re-treatment is required, but not sooner than 6 days after the initial treatment. Do not treat more than once per month.

Note: Each package contains sufficient tubes for 3 applications.
