SANI-SPA
CHLORINATING GRANULES

Maintains clean, clear sanitized water

ACTIVE INGREDIENT:
Sodium Dichloro-s-Triazinetrione Dihydrate ..........99%
OTHER INGREDIENTS: ...........................................1%
TOTAL: .............................................................100%
Available Chlorine ...........................................56%

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your spa. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Read all precautionary statements and first aid statements before use.

See back panel precautionary statements.

FIRST AID
IF IN EYES: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-854-8911.

Net Wt: 1.75 LBS. (790 g)
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Re-entry into treated spas/hot tubs is prohibited above levels of 5 parts per million (ppm) free residual chlorine.

Read all precautionary statements before use.

FOR REGULAR DOSAGE

1. Chlorinate: Add ½ ounce of this product per 500 gallons of water to the water prior to entering the spa. Wait 5 minutes and then check the chlorine residual. The residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2 to 3 ppm range, the spa or hot tub may be entered.

2. Maintain: This product should be added daily or as necessary to maintain a 2 to 3 ppm residual chlorine reading. Frequent checks should be made of residual chlorine using a reliable test kit. This product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before testing. Note: Heavy bather usage or the use of oils or lotion may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks of chlorine residual.

3. Check pH: The pH should be monitored with a reliable test kit and maintained in the 7.2 to 7.8 range for clean, sparkling water. The pH can be decreased by adding a suitable agent such as Rendezvous® pH Down sodium bisulfite or increased by adding a suitable agent such as Rendezvous® pH Up sodium carbonate.

4. Superchlorination: It is good practice to superchlorinate every 2 to 4 weeks to control odors and algae. To superchlorinate, add 1 oz. of this product for every 500 gallons of water. Resume program when chlorine residual reads 2 to 3 ppm.

HOW TO CALCULATE SPA CAPACITY

<table>
<thead>
<tr>
<th>Shape of Spa or Hot Tub</th>
<th>Gallons of Water (Dimensions in ft.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rectangular</td>
<td>Average depth x average width x 7.5</td>
</tr>
<tr>
<td>Circular</td>
<td>Diameter x diameter x average depth x 5.9</td>
</tr>
<tr>
<td>Oval with straight lines</td>
<td>Width x length x average depth x 6.7</td>
</tr>
<tr>
<td>Irregular</td>
<td>Consult spa or hot tub manufacturer</td>
</tr>
</tbody>
</table>

Why You Should Use This Product:

This product protects spa water against chlorine loss while optimizing spa usage and comfort. This product is a convenient and easy way to control the growth of algae, kill bacteria, and destroy organic material.

Additional shock to keep water clean and clear is recommended after

• High number of bathers
• Increased water temperature
• Increased frequency of spa usage

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER. Corrosive. Causes severe damage or skin burns. May be fatal if inhaled. Harmful if swallowed, or absorbed through skin. Irritating to nose and throat.

Open in a well-ventilated area. Avoid breathing dust and fumes.

Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.

Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARD:

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

• Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

• Keep all foreign matter, including other water treatment products, away from this product.

• Use only clean dry utensils to dispense this product.

• Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

• Avoid spilling this product.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

• Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.

• Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

IN CASE OF EMERGENCY

CALL: 1-800-654-6911

STOP! Do Not Mix with other products or solutions before use.

Read precautions first and statements on label.
