Sani-Cloth®
GERMICIDAL DISPOSABLE WIPE

EXTRA LARGE WIPE

Effective against:

BACTERIA • Bordetella bronchiëntis • Bordetella pertussis
• Burkholderia cepacia • Campylobacter jejuni
• Enterobacter aerogenes • Escherichia coli O157:H7
• Escherichia coli • Klebsiella pneumoniae • Listeria
monocytogenes • Proteus vulgaris • Pseudomonas aeruginosa
• Salmonella enterica • Serratia marcescens • Shigella
dysenteriae • Staphylococcus aureus • Streptococcus pyogenes
• Vibrio cholera • Yersinia enterocolitica

MULTI-DRUG RESISTANT BACTERIA • Acinetobacter baumannii, Multi-Drug Resistant • ESBL Resistant Escherichia Coli • Escherichia Coli - NDM-1 Positive (CDC 10011728) • ESBL Resistant Klebsiella Pneumoniae • Klebsiella Pneumoniae - Carbapenem Resistant • Klebsiella Pneumoniae - NDM-1 Positive (CDC 1006277) • Community Acquired Methicillin Resistant Staphylococcus aureus (CA-MRSA) NARSA NRS123 (Genotype USA 300) • Community Acquired Methicillin Resistant Staphylococcus aureus (CA-MRSA) NARSA NRS384 (Genotype USA 400) • Methicillin Resistant Staphylococcus aureus (MRSA) • Streptococcus pneumoniae • Penicillin Resistant • Vancomycin Resistant Staphylococcus aureus (VRSA) NARSA VR51 • Vancomycin Resistant Enterococcus faecalis (VRE)

VIRUSES* • *Adenovirus types 5, 8, 10, 11, 15 • *Avian Influenza H5N1 virus • *Cytomegalovirus, Strain AD-169
• *Herpes simplex virus, type 2, Strain G • *Human Coronavirus, Strain 229E • *Influenza A virus, Hong Kong Strain • *Influenza B virus, Strain B/Hong Kong/10/92 • *Respiratory syncytial virus (RSV), Strain Long • *Rotavirus, Strain WA • *H1N1 (AIDS virus), Strain H1N1

BLOODBORNE PATHOGENS • *Hepatitis B virus (HBV) - Duck HBV • *Hepatitis C virus (HCV) • *Human Immunodeficiency Virus (HIV-1) • *HIV-1 (AIDS virus), Strain H1TV-III

PATHOGENIC FUNGI • *Candida albicans
• *Mycobacterium bovis - BCG (TB)

BACTERICIDAL, TUBERCULOCIDAL, VIRUCIDAL* IN 3 MINUTES

ACTIVE INGREDIENTS
n-Alkyl (68% C10, 32% C12) dimethyl ethylbenzyl ammonium chloride ................................................. 0.14%
n-Alkyl (60% C10, 30% C12, 5% C14, 5% C16) dimethyl benzyl ammonium chloride ................................................. 0.14%

OTHER INGREDIENTS ........................................................................................................ 99.72%

TOTAL ........................................................................................................................................ 100.00%

Does not include the weight of the wipe.

KEEP OUT OF REACH OF CHILDREN

CAUTION See back panel for additional precautionary statements

CONTAINS: 65 Wipes 7.5 x 15 in (19 x 38.1 cm)
Net Wt. 1.0 lb 15.1 oz (883g)

PDI

8AP63800_2016_02_17.pdf
KILLS HIV-1 (AIDS VIRUS), HEPATITIS B VIRUS (HVB) AND HEPATITIS C VIRUS (HCV) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in three (3) minutes at room temperature [68°F-77°F]. In healthcare or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects are likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

AREAS OF USE: Hospital and Healthcare Settings: Ambulatory Surgical Centers (ASC), Clinics, Dental Offices, Dialysis Clinics, Home Health Care, Hospices, Hospitals, Laboratories, Nursing homes, Physical therapy, Physician’s offices, Radiology, Rehabilitation, Transport vehicles. Critical Care Areas: CCU, Emergency Rooms, ICU, Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU), Surgery, and Surgical Intensive Care Units (SICU). Hospital, Healthcare, and Critical Care Use Sites: May be used on hard nonporous surfaces of: bed railings; blood glucose meters; cabinets; carts; chairs; counters; dental unit instrument trays; exam tables; gurneys; isolettes; IV poles; stethoscopes; stretchers; tables; telephones; toilet seats; and hard nonporous outside surfaces of: amalgamators and dental curing lights; diagnostic equipment; patient monitoring equipment; patient support and delivery equipment.

This product is NOT to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean and decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Dispense Wipes: Remove lid and discard inner seal from canister. Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use, keep center cap of lid closed to prevent moisture loss.

To DISINFECT AND DEODORIZE: Unfold a clean wipe and thoroughly wet surface. Allow treated surface to remain wet for three (3) minutes. Let air dry. If present, remove gross filth prior to disinfecting.

ULTRASOUND TRANSDUCERS AND PROBES: For use to clean and decontaminate external surfaces of Ultrasound Transducers, scopes and probes prior to high-level disinfection (HLD).

To clean and decontaminate prior to high-level disinfection (HLD): Pre-clean gel from external surface of ultrasound transducer, scope and probe by using a clean washcloth or germicidal wipe. Then, follow device manufacturer instructions for HLD.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HEPATITIS B VIRUS AND HEPATITIS C VIRUS OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS

Personal protection: When using this product, wear disposable protective gloves, protective gowns, face masks, and eye coverings when handling HIV-1 (AIDS virus), HBV or HCV infected blood/body fluids.

Cleaning procedure: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal cloth. Open, and unfold first germicidal cloth to remove heavy soil.

Disposal of infectious materials: Dispose of used towelette in accordance with local regulations for infectious waste disposal.

Contact time: Use second germicidal cloth to thoroughly wet surface. Allow to remain wet three (3) minutes, let air dry. Although efficacy at a 30 second contact time has been shown to be adequate against HIV-1 (AIDS VIRUS), this time is not sufficient for the other non-HIV organisms listed on this label. Therefore, a 3 minute wet contact time must be used for all listed non-HIV organisms.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals. CAUTION: Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID: If in eye: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or healthcare professional for treatment advice. Have the product container or label with you when calling a poison control center or healthcare professional or going for treatment.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. Storage: Store in dry location. When not in use, keep center cap of lid closed to prevent moisture loss. Towelette disposal: Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet. Container Disposal: Nonrefillable container. Do not reuse or refill container. Offer for recycling. If recycling is not available, put in trash collection.
