DUAL MAGNUM® (S-METOLACHLOR) IS A STATE RESTRICTED USE PESTICIDE FOR THE PROTECTION OF GROUNDWATER AND IS TO BE DISTRIBUTED ONLY BY LICENSED PESTICIDE DEALERS. ONLY CERTIFIED APPLICATORS OR PERSONS UNDER THE DIRECT SUPERVISION OF A CERTIFIED APPLICATOR MAY USE OR APPLY DUAL MAGNUM (S-METOLACHLOR).

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

Dual Magnum®

EPA Reg. No. 100-816
EPA SLN No. WA-120001

This label for Dual Magnum expires and must not be distributed or used in accordance with this SLN registration after December 31, 2016.

For Control of Yellow Nutsedge, Powell Amaranth, and Hairy Nightshade in Garden Beet and Swiss Chard Grown for Seed. This is a non-food use.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This labeling must be in the possession of the user at the time of herbicide application.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

GENERAL INFORMATION

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

Attention: Dual Magnum will not control emerged weeds. Control emerged weeds with an appropriate registered foliar herbicide or by mechanical or physical means.
Garden Beet

Application Rate, Frequency, and Timing

Make a single soil broadcast application of Dual Magnum at 0.67 pint/acre (0.64 lbs ai/acre) to the soil surface after planting, but before the weeds or crop emerge (pre-emerge). If the crop is irrigated, use 0.5 inches of water shortly after planting to incorporate the herbicide. Excessive irrigation may increase the risk of crop injury. Do not mechanically incorporate Dual Magnum. Do not use Dual Magnum if the planting operation creates a furrow or trough over the seed-row into which rain or irrigation water will collect and thus concentrate the herbicide over the row.

Application Volume

Apply in a minimum of 15 gals of water per acre as the carrier volume.

Restrictions:

1. Do not apply more than 0.67 pt/ of Dual Magnum per acre per year.
2. Observe a Restricted Entry Interval (REI) of 24 hours.

SWISS CHARD

Application Rate, Frequency, and Timing

Apply a single broadcast soil application of Dual Magnum at 0.5 to 1.0 pt./A to the soil surface after planting, but before weeds or crop emerge (i.e., preemergence). Use lower rates on relatively coarse-textured soils and higher rates on fine-textured soils. A band application may also be used, applying proportionally less spray mixture on the area actually treated. Do not use on course textured soils with less than 1.5% organic matter. Do not use on soils with greater than 10% organic matter.

Application Volume

Apply in a minimum of 15 gals of water per acre as the carrier volume.

Precautions:

1. In general, the risk of crop injury is greater on lighter textured soils and with higher application rates.
2. The use of a spray adjuvant, or the addition of another registered herbicides, nitrogen or fertilizer solutions as a tank mixture with Dual Magnum, will increase the risk of crop injury.

Restrictions:

1. Do not apply more than 1.0 pt/A of Dual Magnum per year.
2. Observe a Restricted Entry Interval (REI) of 24 hours.

WSDA Restrictions / Precautions for Crops Grown for Seed

1. All garden beet and Swiss chard seed screenings shall be disposed of in such a way that they cannot be distributed or used for human food or animal feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the director immediately upon request.
Conditioner disposal records shall consist of documentation of on-farm disposal, disposal at a controlled
dumpsite, incinerator, composter or other equivalent disposal site and shall include the lot numbers,
amount of material disposed of, the grower(s), and the date of disposal.

2. No portion of the garden beet and Swiss chard seed plant, including but not limited to green chop, hay,
pellets, meal, whole seed, cracked seed, roots, bulbs, leaves, sprouts and seed screenings may be used
or distributed for food or feed purposes.

3. Garden beet and Swiss chard seed shall bear a tag or container label which forbids use of the seed for
human consumption or animal feed.

4. Garden beet and Swiss chard seed may not be distributed for human consumption or animal feed.

**WSDA Container Disposal Guidance:** Pesticide containers must be properly cleaned prior to disposal.
The best time to clean empty pesticide containers is during mixing and loading, because residue can be
difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide
rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the
best method of container disposal. Information regarding the recycling of empty and cleaned plastic
pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at
http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx. Cleaned containers may also be disposed of
in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in
Washington.

**Chemigation:** For use under this SLN label do not apply this product through any type of irrigation
system for the crops on this Special Local Needs label.

**SYNGENTA’S SPECIAL CONDITIONS, RISKS OF USE AND DISCLAIMER FOR USE OF DUAL
MAGNUM ON CROPS ON THIS 24C LABEL**

**IMPORTANT- READ BEFORE USE**

**THESE CONDITIONS RISKS OF USE AND DISCLAIMER ARE REQUIRED BY SYNGENTA CROP
PROTECTION LLC AND NOT SPECIFIED BY U.S. EPA OR WASHINGTON STATE DEPARTMENT OF
AGRICULTURE**

This information is provided for general information only. The information provided on these
specimen labels may not reflect the current information, including precautions and instructions
for use, that you are required to follow in Washington State.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, SYNGENTA CROP PROTECTION, LLC.
INTENDS THAT THE PRODUCT THAT IS THE SUBJECT OF THIS SECTION 24C LABEL BE
PURCHASED ONLY BY END USERS WHO AGREE BY ELECTRONIC SIGNATURE ON SYNGENTA
CROP PROTECTION’S INTERNET SITE TO THE TERMS AND CONDITIONS REQUIRED BY
SYNGENTA CROP PROTECTION, LLC. INCLUDING A WAIVER AND RELEASE FROM ALL
LIABILITY AND INDEMNIFICATION BY THE USER AND/OR GROWER OF SYNGENTA AND OTHERS
FOR FAILURE TO PERFORM AND FOR CROP INJURY, CROP YIELD REDUCTION, AND/OR CROP
LOSS FROM USE OF DUAL MAGNUM ON CROPS ON THIS 24(C) LABEL.
IF SUCH TERMS AND CONDITIONS ARE UNACCEPTABLE, RETURN THE DUAL Magnum AT ONCE UNOPENED OR USE THE DUAL MAGNUM FOR A DIFFERENT APPROVED USE IN ACCORDANCE WITH THE LABEL AFFIXED TO THE PRODUCT CONTAINER.

USE OF DUAL MAGNUM (THE “PRODUCT”) ON CROPS LISTED (THE “CROP”) FOR THIS SPECIAL LOCAL NEED MAY RESULT IN CROP INJURY, CROP YIELD REDUCTION AND/OR CROP LOSS AS FURTHER DISCUSSED BELOW. READ AND UNDERSTAND THESE CONDITIONS AND RISKS OF USE FOR SPECIAL LOCAL NEED BEFORE USING THE PRODUCT ON THE CROP. SYNGENTA RECOMMENDS THAT THE USER TEST THIS PRODUCT TO DETERMINE ITS SUITABILITY FOR SUCH INTENDED USE.

Syngenta Crop Protection, LLC. makes the Product available for use in the manner described in this Supplemental Labeling on the basis that, in the sole opinion of the user, the benefits and utility derived from the use of the Product on the Crop outweigh the potential risk of Crop injury, Crop yield reduction or Crop loss. The decision to use this Product in the manner described in this Supplemental Labeling must be made by each individual user on the basis of anticipated benefits versus (i) the potential risk of Crop injury, Crop yield reduction and Crop loss, (ii) the severity of the target pest infestation, (iii) the cost and availability of alternative pest controls and (iv) any other relevant factors. Syngenta recommends that the user test this Product to determine its suitability for such intended use.

By purchasing the Product for use, or using the Product in the manner described in this Supplemental Labeling, you acknowledge and accept that, to the extent consistent with applicable law:

1) you assume all risk of Crop injury, Crop yield reduction and Crop loss;

2) Syngenta Crop Protection, LLC. do not make, and do not authorize any agent or representative to make, any representations or recommendations regarding the use of this Product on the Crop other than the statements on this Supplemental labeling;

3) Syngenta Crop Protection, LLC. do not make, and do not authorize any agent or representative to make, any warranties, express or implied, with respect to the use of the Product on the Crop and disclaim all warranties, expressed or implied, including any implied warranty of merchantability;

4) Syngenta Crop Protection, LLC. disclaim all liability for any damages, losses, expenses, claims or causes of actions arising out of or relating to Crop injury, Crop yield reduction and/or Crop loss;

5) these conditions and Risks of Use for Special Local Need supersede any contrary representations or recommendations by Syngenta Crop Protection, LLC. or their respective agents or representatives, and any provisions in or on any Product literature or labeling including any provisions on the label affixed to the Product container.

If these Conditions and Risks of Use for Special Local Need are not acceptable, the unopened Product may be returned to the seller for a refund or used for a different labeled use in accordance with the label affixed to the Product container.
