DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE SWIMMING POOLS.

Why You Should Use This Product: When used as directed, this product is effective as a swimming pool water sanitizer. These chlorine tablets or sticks are formulated to protect against chlorine loss in direct sunlight. They are designed to dissolve slowly providing a steady source of available chlorine (up to 1 week) for complete swimming enjoyment in your pool.

For clear crystal pool water, follow our 4 step pool care program:

WATER BALANCE: To provide optimum product performance, swimmer comfort and clear crystal water, always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using an HTP® test kit or test strips that measure all of the above ranges.

OPENING YOUR POOL: Balance pool water, shock treat, and stabilize your pool using an HTP® Stabilizer. Follow stabilizer label directions. Then follow "Routine Chlorination" steps below.

Routine CHLORINATION: This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

Add four one-half ounce tablets per 10,000 gallons of pool water every other day, or as often as needed to maintain a chlorine residual of 1-4 ppm. This dosage may vary depending upon pool use, water temperature and other conditions.

SHOCK TREATMENT / SUPERCHLORINATION: Every 7 days or as necessary to prevent pool problems, shock treat/superchlorate the pool. Additional shock treatments may be required to correct problems which are caused by visible algae, high bathing loads, heavy winds and rainstorms. Additional shock treatments may also be required to prevent problems such as unbalanced chlorines and eye irritation.

Check available chlorine using an HTP® test kit or test strips. Re-enter into treated swimming pool is prohibited at available chlorine levels above 4 ppm due to risk of bodily harm.

HOW TO CALCULATE POOL CAPACITY

SHAPE OF POOL:

Gal. of Water (Dimensions in feet)

Rectangular: Average depth x length x width

Cylindrical: Diameter x diameter x average depth

Oval: Full width x Full length x average depth

Irregular:

Consult pool builder

PRECAUTIONARY STATEMENTS:

Hazard to humans and domestic animals: Danger. Corrodes, Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed, irritating to nose and throat.

Open in a well ventilated area. Avoid breathing dust and fumes. Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:

DANGER: Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flammable material (like a lighted cigarette). If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Added only into water.

• Do not allow to become wet or damp before use.

• Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

• Keep all foreign matter, including other water treatment products, away from this product.

• Do not mix with other products or dissolve before use.

• Do not use this product in a floater or feeder that has been used with any other product. If used with a skimmer, make sure skimmer is completely free of residue from other water treating products before putting this product in a skimmer.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Never empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available, if not, discard in trash. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING:

In case of contamination or decomposition, do not re-use container. Isolate in open well-ventilated area. Flood with large volume of water. Cool unopened container in vicinity by water spray.
