PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER. CORROSIVE: Causes severe eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or fumes. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, ditches, creeks, or other water unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously obtaining the sewerage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG DISINFECTANT AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispersing device containing remaining of any other product. Such use may cause a reaction resulting in fire or explosion. Avoid direct contact with skin, eyes, or clothing. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labelling. Bathers should not enter the treated pool until the chlorine level has dropped to 3 ppm or less.

(1) Adjust the water pH to 7.2 - 7.6 as determined by a test kit. Add pH UP or pH DOWN as required.

(2) If pH is newly filled or has not been previously stabilized, add STABILIZER (cementic acid) Follow the directions for use on the label.

(3) Place tablets in the skimmer basket or automatic chlorinator according to manufacturer’s recommendations for automatically chlorinator. Tablets require clean water for proper dissolution. To prevent discoloration of swimming pool, DO NOT put tablets directly into the pool.

(4) Maintain a chlorine residual of 1.0 - 1.5 ppm, as determined by a test kit.

(5) Remove tablets and be sure to lower the alkalinity and pH of pool water. Periodic additions of Alkalinity and pH UP may be required.

STORAGE AND DISPOSAL: Store in original container in ventilated storage area. Keep this product dry in a tightly closed container when not in use. Store in a cool, dry and well ventilated area away from heat or open flame. In case of decomposition, store container of explosive and flammable products. Do not store with large amounts of water to dissolve all material before discarding. Do not reuse container. Thoroughly before discarding. Sexually wrap original container in several layers of newspaper and discard in trash.

FIRST AID

If swallowed: • Call a poison control center or doctor immediately for treatment advice.

If in eyes: • Hold eye open and close slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye.

If on skin or clothing:

• Take off contaminated clothing.

• Wash skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for further treatment advice.

If inhaled:

• Move person to fresh air.

• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

• Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN

• Portable vapor damage may contraindicate the use of gastric lavage.
