ACTIVE INGREDIENT: Sodium Hypochlorite 0.55%
OTHER INGREDIENTS: 99.45%
TOTAL: 100.00%

INGREDIENTE ACTIVO: Hipoclorito de Sodio 0.55%
OTROS INGREDIENTES: 99.45%
TOTAL: 100.00%

20 PREMOISTENED WIPES 6.75" x 9" (17.1 cm x 22.8 cm) NET WT 6.2 OZ (175.7g)

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleansing. For surfaces that may come in contact with food, a potable water rinse is required. Avoid contact with clothes, fabric, wood, natural rubber, and painted and paper surfaces. Do not use on silver or chipped enamel. APPLY CAREFULLY—This product contains bleach. Do not use on glassware, utensils or dishes. Always refer to manufacturer’s care instructions before using on equipment or devices.

MODO DE EMPLEO: El uso de este producto de una manera diferente a la especificada en la etiqueta constituye una violación a la ley federal. No se puede limpiar ni sanear la piel. No use como toallita para limpiar a un bebé ni para limpieza personal. Para superficies que puedan entrar en contacto con los alimentos se requiere un enjuague con agua potable. No lo use en cristalería, utensilios ni platos. Antes de usarlo en aparatos o equipos, consulte siempre las instrucciones de cuidado del fabricante.

APPLICATION:
- Toalitas Germicidas con Blanqueador • Bactericidal, Virucidal; Fungicidal, Tuberculoácil, Sporicidal
- Meets OSHA Bloodborne Pathogen Guidelines
- One-Step Cleaner and Disinfectant
- Reduces the Risk of Infection and Cross-Contamination

SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO DISINFECTION AGAINST CLOSTRIDIUM DIFFICILE SPORES: Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye coverings. Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with this product. Cleaning is to include vigorous wiping and/or scrubbing until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right on horizontal surfaces, and top to bottom on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths. Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

SPECIAL INSTRUCTIONS FOR USE AGAINST HIV-1, HBV AND HCV: This product kills HIV-1, HBV and HCV on precleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV). SPECIAL INSTRUCTIONS FOR USING THIS PRODUCT TO CLEAN AND DECONTAMINATE AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surfaces to remain wet for 1 minute, let air dry. For all other organisms, see directions for contact times. Disposal of Infectious Materials: Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is directly introduced into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Liquid causes moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. For sensitive skin or prolonged use, wear gloves. FIRST AID: IF IN EYES: Hold eye open and rinse slowly and thoroughly with large amounts of water. Call a poison control center or get medical advice for treatment. IF ON CLOTHING: Remove clothing. Allow surfaces to remain wet. Do not use as a diaper wipe or for personal hydration. Wash soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV).

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Liquid causes moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. For sensitive skin or prolonged use, wear gloves. FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. QUESTIONS? Call (800) 234-7700. PHYSICAL AND CHEMICAL HAZARDS: This product contains bleach. Do not use this product with other chemicals, such as ammonia, toilet bowl cleaners, rust removers or acid, as this releases hazardous gases.

DECLARACIONES PREVENTIVAS: RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS.

PRECAUCIÓN: El líquido causa una irritación moderada a los ojos. No lo deje caer en los ojos ni en la ropa. Evite el contacto con la ropa. Use protección ocular. Lávese bien con agua y jabón después de usar y antes de comer, beber, mascar goma, usar tabaco o usar el inodoro. Para piel sensible o uso prolongado, use guantes.

PHYSICAL AND CHEMICAL HAZARDS:

Avoid contact with clothes, fabric, woods, natural rubber, and painted and paper surfaces. Do not use on silver or chipped enamel.

Kills Clostridium difficile:

Pre-clean hard, non-porous surfaces by removing gross filth. Wipe surface to be disinfected. Use enough wipes for treated surface to remain visibly wet for 3 minutes. Let air dry.

Other chemicals, such as ammonia, toilet bowl cleaners, rust removers or acid, as this releases hazardous gases.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleansing. For surfaces that may come in contact with food, a potable water rinse is required. Avoid contact with clothes, fabric, wood, natural rubber, and painted and paper surfaces. Do not use on silver or chipped enamel. APPLY CAREFULLY — This product contains bleach. Do not use on glassware, utensils or dishes. Always refer to manufacturer’s care instructions before using on an equipment or device. This product is not to be used as a terminal sterilant/high-level disinfection on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or that contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

If swallowed,喊call a doctor. If in eyes, rinse with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**MODE DE EMPLEO:** El uso de este producto de una manera diferente a la especificada en la etiqueta constituye una violación a la ley federal. No es para limpiar ni sanear la piel. No use como toallita para limpiar a un bebé ni para limpieza personal. Para superficies que puedan entrar en contacto con los alimentos se requiere un enjuague con agua potable. No lo use en cristalería, utensilios ni platos. Antes de usarlo en aparatos o equipos, consulte siempre las instrucciones de cuidado del fabricante.

**DISINFECTION / PARA DESINFECCIÓN**

**TO CLEAN AND DISINFECT AND DEODORIZE HARD, NONPOROUS SURFACES:** Wipe hard, nonporous surface to be disinfected. Use enough wipes for treated surface to remain visibly wet for the contact time listed on label. Let air dry. Gross filth must be removed prior to disinfecting. If streaking is observed, wipe with a clean, damp cloth or paper towel after appropriate contact time has elapsed. Killing *Clostridium difficile:* Precede hard, nonporous surfaces by removing gross filth. Wipe surface to be disinfected. Use enough wipes for treated surfaces to remain visibly wet for 3 minutes. Let air dry.

**PARA LIMPIAR, DESINFECCIÓN Y DESODORIZAR SUPERFICIES DURAS Y SIN POROS:** Limpie la superficie dura y sin poros que va a desinfectar. Use suficientes toallas para que la superficie tratada permanezca visiblemente mojada durante el tiempo de contacto que se lista en la etiqueta. Deje secar al aire. El exceso de mugre se debe quitar antes de desinfectar. Si se observan rayas, limpie con un paño o con una toalla de papel limpia y húmeda después de que el tiempo de contacto adecuado se haya terminado. Para eliminar *Clostridium difficile:* Haga una limpieza previa de las superficies duras y sin poros quitando el exceso de mugre. Limpie la superficie que va a desinfectar. Use suficientes toallas para que la superficie tratada permanezca visiblemente mojada durante 3 minutos. Deje secar al aire.

**SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO DISINFECTING AGAINST CLOSTRIDIUM DIFFICILE SPORES:** Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye coverings. Contact Time:

Cleaning Procedure:

FOR USING THIS PRODUCT TO CLEAN AND DECONTAMINATE AGAINST HIV-1, HBV AND HCV previously soiled with blood/body fluids in health care settings or other settings in which there is a risk of transmission of HIV-1, HBV or HCV:

1. Remove gross filth.
2. Pour a small amount of bleach on the soiled area.
3. Let air dry. Gross filth must be removed prior to disinfecting. If streaking is observed, wipe area with a solution of 10% bleach.

Infectious Materials Disposal:

It is a violation of Federal law to use this product in a manner inconsistent with its listing on the label. Let air dry. Gross filth must be removed prior to disinfecting. If streaking is observed, wipe area with a solution of 10% bleach.
