70 PREMOISTENED WIPES  6.75" x 9" (17.1 cm x 22.8 cm) NET WT 1 LB 10 OZ (737 g)
**Special Instructions for Use Against HIV-1, HBV and HCV:**

**Application with this product. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed.**

**Protection:**

- Gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.
- Personal protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye covering. Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before selecting and using any surface disinfectant on plastic surfaces.

**Wear appropriate barrier protection such as gloves, gowns, masks and eye covering. Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before selecting and using any surface disinfectant on plastic surfaces.**

**PRECAUTIONS:**

- This product contains bleach. Do not use this product with other chemicals, solvents or cleaning agents.
- Use this product according to the directions below:
  - **Liquid**: Use with caution. Do not inhale fumes. Use in a well-ventilated area. Use with gloves and protective clothing. Do not mix with other cleaning agents. Do not use on painted surfaces or on fabrics, wood, natural rubber, and painted and paper surfaces. Do not use on silver or chrome plating. APPLY CAREFULLY — This product contains bleach. Do not use on or near children, pets or plants.
  - **Powdered**: Use in a well-ventilated area. Do not inhale fumes. Use with protective clothing. Do not mix with other cleaning agents. Do not use on painted surfaces or on fabrics, wood, natural rubber, and painted and paper surfaces. Do not use on silver or chrome plating. APPLY CAREFULLY — This product contains bleach. Do not use on or near children, pets or plants.

**Directions for Use:**

- **Wipe away excess spillage before cleaning:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**Storage and Disposal:**

- Store this product in a cool, dry area. Avoid deterioration. Dispose of wipe in trash after use. Do not flush. Nonflammable container. Do not repackage or refill container. Do not store near heat or flames.

**COMPATIBILITY:**

- Check cloroxhealthcare.com/compatibility.

**ORGANISME:**

- **Bacteria:**
  - Klebsiella pneumoniae
  - Pseudomonas aeruginosa
  - Staphylococcus aureus
  - Enterococcus faecium
  - **Viruses:**
  - **Human Immunodeficiency Virus (HIV-1)**
  - **Human Hepatitis A Virus**
  - **Human Hepatitis B Virus**
  - **Human Hepatitis C Virus**
  - **Influenza A Virus**
  - **Influenza B Virus**
  - **Poliovirus**
  - **Rhinovirus**
  - **Coronavirus**
  - **Norovirus**
  - **MERS-CoV**
  - **HIV Type 1**
  - **HIV Type 2**
  - **HIV Type 3**
  - **HIV Type 4**
  - **HIV Type 5**
  - **HIV Type 6**
  - **HIV Type 7**
  - **HIV Type 8**
  - **HIV Type 9**
  - **HIV Type 10**

**Compatible with a wide variety of surfaces:**

- **Bacteria:**
  - **Viruses:**
  - **Fungi:**
  - **Enzymes:**
  - **Surfaces:**

**Emergency Information:**

**FIRST AID:**

- **Eyes:**
  - If suction is used, rinse especially well in water for at least 15 minutes. Then call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**STORAGE AND DISPOSAL:**

- Store this product in a cool, dry area. Avoid deterioration. Dispose of wipe in trash after use. Do not flush. Nonflammable container. Do not repackage or refill container. Do not store near heat or flames.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleaning. For surfaces that may come in contact with food, a potable water rinse is required. Avoid contact with clothes, fabric, wood, natural rubber, and painted or paper surfaces. Do not use on silver or chrome surfaces. Always refer to manufacturer's care instructions before using on equipment or devices. Do not use on glassware, utensils, or dishes. Always refer to manufacturer's care instructions before using on equipment or devices. If not used as directed, this product may be harmful to the user and may cause health problems if used on skin. If used on skin, wash the area with water and soap. Provide proper disposal of the solution. If accidentally swallowed, call a Poison Control Center or a doctor. If eye contact occurs, flush with water. Do not use as a diaper wipe or for personal cleaning. For surfaces that may come in contact with food, a potable water rinse is required. Avoid contact with clothes, fabric, wood, natural rubber, and painted or paper surfaces.

**DISINFECTANT / PARA DESINFECTAR**

**TO CLEAN AND DISINFECT AND DECONJUGATE HARD, NONPOROUS SURFACES:** Wipe surfaces to be disinfected. Use enough wipes for treated surface to remain visibly wet for the contact time listed below. Let air dry. Disinfectant film must be removed prior to disinfecting. If streaking is observed, wipe with a clean, damp cloth or paper towel. Wipe treated surfaces with a clean, damp cloth or paper towel. Let air dry.

**FOR LIMPIAR, DESINFECTAR Y DESCONECTAR SUPERFICIES DURAS Y SIN PORES:** Limpie la superficie que se va a desinfectar. Use suficientes toallas para que la superficie esté completamente mojada por el tiempo de contacto que se indica a continuación. Deseche las toallas de papel al aire. El exceso de líquido debe quedar al aire. Limpie la superficie que se va a desinfectar. Use suficientes toallas para que la superficie esté completamente mojada por el tiempo de contacto que se indica a continuación. Deseche las toallas de papel al aire.

**PATHOGEN/PATOGENO** | CONTACT TIME/TIEMPO DE CONTACTO | PATHOGEN/PATOGENO | CONTACT TIME/TIEMPO DE CONTACTO
--- | --- | --- | ---
Clorofila/Clorofila | 3 minutos/3 minutos | H3N2/Parotígeno | 1 minuto/1 minuto
Bacteria/Bacteria | 30 segundos/30 segundos | 229/229 | 1 minuto/1 minuto

**Special Instructions for Cleaning Prior to Disinfection Against Clorofila difficile spores:** Personal Protection: Wear appropriate barrier protection such as gloves, masks, and eye covering. Cleaning Procedure: Clean surfaces to be disinfected. For surfaces to be disinfected, use a clean, damp cloth or paper towel. Let air dry. Disinfectant film must be removed prior to disinfecting. If streaking is observed, wipe with a clean, damp cloth or paper towel. Wipe treated surfaces with a clean, damp cloth or paper towel. Let air dry.

**Special Instructions for Use Against HIV-1, HBV and HCV:** This product kills HIV-1, HBV and HCV on contaminated surfaces and objects. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids.

**Special Instructions for Using This Product to Clean and Disinfect Against HIV-1, HBV and HCV:** This product kills HIV-1, HBV and HCV on contaminated surfaces and objects. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids.

**Special Instructions for Use Against MRSA:** This product kills MRSA on contaminated surfaces and objects. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids.

**Special Instructions for Use Against VRE:** This product kills VRE on contaminated surfaces and objects. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids.

**Special Instructions for Use Against H. pylori:** This product kills H. pylori on contaminated surfaces and objects. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids. It can also be used for disinfection of surfaces and objects that come in contact with blood, body fluids, and other body fluids.
PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Wash all exposed moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with clothing. Wash protective eyewear with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. For severe eye irritation, wash with water for 15 minutes. Remove contact lenses. Isolate from other materials. Wash hands after handling and before eating, drinking, chewing gum, or using tobacco.

SPECIFIC INGREDIENTS:
- Hydrogen peroxide
- Salt (NaCl)
- Sodium hydroxide (NaOH)
- Sodium carbonate (Na2CO3)
- Sodium chloride (NaCl)
- Ethanol (C2H5OH)
- Water (H2O)

COMPATIBILITY: Check cloroxcohealthcare.com/compatibility.

MEDICAL USE:
- Skin cream
- Sterile cream
- Sterile gauze
- Antiseptic pads
- Wound dressings
- Dressing material
- Sterile gauze
- Gauze bandages
- Swabs
- Sterile pads
- Sterile wipes
- Sterile towels
- Sterile sponges
- Sterile gloves

STORAGE AND DISPOSAL:
Store this product in a cool, dry area. Do not store near products that contain alcohol. Do not mix with other products. Do not reuse or refill except as directed in this container.

110 Premoistened Wipes
12" x 12" (30.5 cm x 30.5 cm)
NET WT 6 LB 2 OZ (2.78 kg)
Special Instructions for Cleaning Prior to Disinfection Against Clorox© Activated Alumina Spores: Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye covering. Cleaning Procedure: Residual material must be thoroughly cleaned from surfaces/objects by distillation with the product. Cleaning is to include vigorous wiping and/or scrubbing until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient areas are to be cleaned in an appropriate manner, such as from right to left or left to right on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned first. Do not re-soil clothes. Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious material disposal.

Special Instructions for Use Against HIV-1, HBV and HCV: This product kills HIV-1, HBV and HCV when exposed to surfaces/objects previously swabbed with blood/body fluids or healthcare settings or on other settings in which there is an expected likelihood of swallowing of inanimate surfaces with blood or body fluids, and in which the surfaces/objects likely be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) associated with AIDS, Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV). Special Instructions for Using This Product to Clean and Decontaminate Against HIV-1, HBV and HCV on Surfaces/Objects Soiled with Blood/Body Fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye covering. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surfaces to remain wet for 1 minute, let air dry. For all other organisms, see directions for contact times. Disposal of Infectious: Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal. This product is not to be used as a terminal sterilant/height level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to precipitate or decant a saline containing a specified concentration of disinfectant or disinfectant solutions at a level of 0.1% or below.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. CAUTION: Liquid causes moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. QUESTIONS? Call (800) 234-7700. For SDS information, please go to www.cloroxhealthcare.com. A list of this product’s ingredients is available at www.IngredientsInside.com.

Storage and Disposal: Dispose of in trash after use. Do not flush. Recycle empty plastic or discard in trash. CONTAINS NO PHOSPHORES.

Almacenamiento y Eliminación: tire la toallita a la basura después del uso. No la deshaga por el inodoro.

Las instrucciones y la información de precaución se pueden encontrar en español en el panel posterior.
**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleaning.**

For surfaces that may come in contact with food, a potable water usage is required. Avoid contact with clothes, fabric, wool, natural rubber, and painted or paper surfaces. Do not use on silver or chrome-plated items. **APPLY CAREFULLY** — this product contains bleach. Do not use on glass, aluminum, or dishes. Always refer to manufacturer’s care instructions before using on equipment or devices.

**MODE OF EMPLOY:** Use of this product produces a harmless element to the environment. It is not a liquid, neither is it a solid. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body. It is introduced directly into the human body, either into or onto contact with the bloodstream, or normally sterile areas of the body.

**DISINFECTION / FOR INDUSTRIAL USE:**

To clean and disinfect and deodorize stubborn, nonporous surfaces: Wipe surfaces to be disinfected. Use enough wipes to ensure that the surface is visibly clean for the contact time listed below. Let dry. Do not rub. **Wipe must be removed prior to disinfecting.** If streaking is observed, wipe with a clean, damp cloth or paper towel after appropriate contact time has elapsed. **Use surface disinfectant for treated surface to remain visibly wet for 3 minutes.**

**PREGNANCY:** Use with caution. This product contains benzalkonium chloride (alkylpolyoxyethylene) and may cause irritation to the skin and eyes. Notify physician immediately if irritation persists.

**FIRST AID: IF IN EYES:** Wash immediately with plenty of water. If irritation persists, consult a physician.

**PRECAUTIONS:**

Cleaning Procedure: All surfaces must be thoroughly cleaned prior to disinfecting. Surfaces must be wiped with a clean, damp cloth or paper towel to remove excess moisture. Use only a new wipe for each surface.

**STORAGE AND DISPOSAL:**

Nonrefillable container. Do not reuse or refill empty container. Recycle empty container or discard in trash. Do not flush. Not for disposal in community waste.

**QUESTIONS OR COMMENTS?** Contact www.cloroxhealthcare.com or call (800) 234-7700.
