Kills *C. difficile*® spores in 3 minutes

**ACTIVE INGREDIENT:**
Sodium Hypochlorite ........... 0.55%  
OTHER INGREDIENTS: ........... 99.45%  
TOTAL: ................................ 100.00%

**DIRECTIONS FOR USE:**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleansing. For surfaces that may come in contact with food, a potable water rinse is required. Avoid contact with clothes, fabric, wood, natural rubber, and painted and paper surfaces. Do not use on silver or chipped enamel. APPLY CAREFULLY — This product contains bleach. Do not use on glassware, utensils or dishes. Always refer to manufacturer’s care instructions before using on equipment or devices.

**BLEACH GERMICIDAL WIPES**  
- Bactericidal, Virucidal, Fungicidal, Tuberculocidal, Sporicidal  
- Meets OSHA Bloodborne Pathogens Standard  
- Ready-to-Use One-Step Cleaner and Disinfectant

**100 PREMOISTENED WIPES**  
6.75” x 9” (17.1 cm x 22.8 cm)  
NET WT 2 LB 5.1 OZ (1.05 kg)
ORGANISMS:

Bacteria:
- Acinetobacter baumannii
- Bacillus anthracis
- Campylobacter jejuni
- Clostridium difficile
- Clostridium perfringens
- Corynebacterium diphtheriae
- E. coli (Shiga toxin producing)
- Escherichia coli
- Enterococcus faecalis
- Enterococcus hirae
- Haemophilus influenzae
- Klebsiella pneumoniae
- Listeria monocytogenes
- Pseudomonas fluorescens
- Pseudomonas aeruginosa
- Pseudomonas stutzeri
- Salmonella enterica
- Staphylococcus aureus
- Staphylococcus epidermidis
- Streptococcus agalactiae
- Streptococcus pyogenes
- V. cholerae
- Yersinia pestis

Viruses:
- Adenovirus
- H1N1
- Human Coronavirus 229E
- Human Coronavirus OC43
- Human Coronavirus NL63
- Human H1N1 Virus
- Human H5N1 Virus
- Human H7N9 Virus
- Human Hepatitis A Virus
- Human Hepatitis B Virus
- Human Hepatitis C Virus
- Influenza A (H1N1)
- Influenza A (H3N2)
- Influenza B Virus
- Measles Virus
- Norovirus
- Parainfluenza
- Parvovirus
- Poliovirus
- Rotavirus
- Stomatovirus
- Human T Cell Lymphotropic Virus
- Varicella Zoster Virus

Fungi:
- Aspergillus
- Candida albicans
- Candida glabrata

Parasites:
- Chagas disease
- Cryptosporidium
d- Enterobius vermicularis
- Giardia lamblia
- Leishmania
- Taenia solium

Protozoa:
- Cryptosporidium
- Entamoeba histolytica

Protozoan Sporozoites:
- Plasmodium falciparum
- Plasmodium vivax
- Trypanosoma cruzi
- Toxoplasma gondii

Plants and Algae:
- Clostridium botulinum

Other Organisms:
- Legionella pneumophila
- Staphylococcus aureus
- Staphylococcus epidermidis

DISENTERY PATHOGENS:
- Shigella dysenteriae

FOOD POISONING ORGANISMS:
- Salmonella enterica
- Staphylococcus aureus

DISINFECTANT

For surface disinfection, use a single pass of a clean damp cloth or disposable wipe. All disinfection procedures should be performed at room temperature. Sufficient force must be used to remove gross filth. Wipes surface to be disinfected. Use enough wipes for treated surface to remain visibly wet for 3 minutes. Let air dry. Do not flush. Discard pouch in trash. CONTAINS NO PHOSPHORUS.

Methods of Use:

1. All surfaces: Use a single pass of a clean damp cloth or disposable wipe. Frequent touchpoints are to be cleaned last. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not rinse soiled clothes. Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal. For allergic reactions, stop use and consult a physician.

STERILIZING AGENTS

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is introduced directly into the human body, either in or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclude or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Liquid causes moderate eye irritation. Do not get in eyes or on clothing. Avoid contact with clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. For sensitive skin or prolonged use, wear gloves. FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. QUESTIONS? Call (800) 234-7700.

STORAGE AND DISPOSAL: Dispose of wipes in trash after use. Do not flush. Discard pouch in trash.
