Disposal: Set the trap in a cool, dry place inaccessible to children and pets. Keep containers closed and away from drains.

Pesticide Storage: Follow any instructions on the label for proper storage of the product.

STORAGE AND DISPOSAL

KILLS HOUSE MICE

DISPOSABLE MOUSE POISON BAIT STATIONS

Use indoors only.

This bait station is resistant to tampering by children.

2 READY-TO-USE BAIT STATIONS

ITEM #932

DIRECTIONS FOR USE CONTINUED

SELECTION OF TREATMENT AREAS: Determines areas where house mice will most likely find and consume the bait. Generally, these are along walls, by grained openings, in corners and concealed places, between floors and walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: The active ingredients in this product are different from anticoagulant rodenticides. Individual house mice cease feeding after consuming a toxic dose.

House Mice: Place a single unit at each placement location. Space placements at 8 to 12 foot intervals. Replace units if contents are consumed or contaminated, or if units are severely damaged. If units are untouched after three days, move to new locations consistent with label text. Continue baiting until all signs of house mouse activity have ceased.

FOLLOW UP: Replace contaminated or spoiled bait immediately. Using waterproof gloves, collect and dispose of all dead, exposed animals and leftover bait properly. To prevent reinfection, limit sources of food, water, and harborage for house mice as much as possible. If reinfection does occur, repeat treatment.
New 11-21-2011

Precautionary Statements

Hazard to Humans and Domestic Animals

Caution: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves. Wash hands immediately after such activities.

First Aid

Have product container or label with you when calling a Poison Control Center or doctor for treatment. You may also contact the Hotline Number at 1-800-346-4735 for health hazards, emergency medical treatment information or pesticide incidents.

If swallowed

- Call a Poison Control Center, doctor, or HOTLINE NUMBER 1-800-346-4735 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

If in Eyes

- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor for treatment advice.

If on Skin or Clothing

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a Poison Control Center, doctor or HOTLINE NUMBER 1-800-346-4735 immediately for treatment advice.

Treatment for Pet Poisoning

If an animal eats this bait, call a veterinarian at once.

Note to Physician or Veterinarian

Contains the nerve poison bronchodilator. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremor, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Subclinical symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an anticonvulsant and corticosteroid.

Environmental Hazards

This product is extremely toxic to mammals and birds. Dogs and staving mammals and birds might be poisoned if they feed upon animals that have eaten this bait.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read this label! Read the entire label and follow all use directions and use precautions. Use this product only for sites, pests, and application methods described on this label.

Important: Do not expose children, pets, or other non-target animals to rodenticides.

To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Dispose of product container and unused, spilled and un consumed bait as specified on this label.

Use Restrictions: This product may only be used to control House Mice inside homes and residential buildings. This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements printed in this label. Do not use this product outdoors or in areas accessible to children, consistent with all use restrictions and other requirements printed in this label. Do not place this product in an area where there is a possibility of contaminating food or surfaces that come in contact with food. Do not place near or inside ventilation duct openings. Do not break station and/or deliberately remove bait from it. Directions for use continued on side panels.
