DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This product is part of an advanced pool care system that uses the FROG Leap Anti-Bacterial Mineral Pac (EPA Reg. No. 35375-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable packets let you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the FROG Leap Inflator. You never have to touch the chlorinating tablets.

USE DIRECTIONS:
1. Adjust pH level to 7.2 – 7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer’s Label Directions.
3. Stabilize the pool with cyanurate acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take FROG Leap Inflator cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into FROG Leap Anti-Bacterial Mineral Pac. The end of the pac must align with the key located inside the FROG Leap Inflator at the bottom. Do NOT FORCE. Replace Inflator cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the FROG Leap Anti-Bacterial Mineral Pac. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual and increase/decrease one setting per day until you achieve at least 0.5 ppm. Pool should not be entered until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you should not have to re-adjust the setting under normal conditions. Should conditions change (i.e. weather, rain, pool use, leaching, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Superchlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting 0 before super-chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.

7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE.

NOTE: Some settling may occur during shipment, DO NOT REMOVE LABEL. 290-45, 1430, NPTN product number for public information: 1-800-456-7378.

FIRST AID: If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses (if present), after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Note to Physician: Precaution mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if aspirated through skin. May be fatal if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive. Strong oxidizing agent. Do not refill empty pac. Use only clean dry utensils. Mix only into water. Contains contamination with moist, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flammable or burning material such as lighted cigarettes. Do not use this product in any chlorinating device which has been used with any inorganic or unstable chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. STORAGE AND DISPOSAL: Do not contaminate food or feed with this product.

PRODUCT STORAGE: Store pac in original container in a cold, dry, well-ventilated area away from heat or open flame. In case of decomposition, dispose container and liquid area with large amounts of water to dissolve all material before discarding this pac.

CONTAINER DISPOSAL: Non-recyclable container. Do not reuse or refill this container. Offer for recycling if available.6. Thoroughly before recycling or discarding in trash. IMPORTANT: The container will be used if the pac is not used with the app inside. FROG Leap or Pool Frog Mineral System. Fire or explosion may result if this pac is used incorrectly.
