DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is a disinfectant that is part of an advanced pool care system that uses the FROG Leap Anti-Bac Mineral Pac (EPA Reg. No. 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool, by simply adjusting the control dial on the chlorine delivery system. You never have to touch the chlorinating tablets.

USE DIRECTIONS:

1. Adjust pH level to 7.2 – 7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer’s Label Directions.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take FROG Leap Infuzer cap off. Remove pac colored caps. Hold pac by holding the colored caps to the pac and put the pac into the FROG Leap Infuzer. Rotate the pac clockwise until it stops. DO NOT FORCE. Replace Infuzer cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the FROG Leap Anti-Bac Mineral Pac. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you do not have to readjust the setting under normal conditions. If conditions change (i.e. weather, rain, pool use, bather load, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Super chlorinate if needed. Do not shock treatment to the skimmer. Turn control dial to Minimum or Setting 0 before super chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE.

NOTE: Some setting may occur during shipment. DO NOT REMOVE LABEL #20-43-1438. NPTN hotline number for public information: 1-800-858-7378.

4.813” x 10.313” Round Corner with .125” Corner Radius

Use with the FROG Leap™ Mineral Sanitizing System

Torpedo Pac®
Use with the FROG Leap™ Mineral Sanitizing System

• Destroys bacteria continuously for weeks.
• Controls the rate of chlorine delivery.
• Never touch the chlorinating tablets.

Replace every 6 months or once a season!

90-Day Algae Protection Guarantee!

ALL-OUT™ + FROG Leap Mineral System consists of the FROG minerals silver chloride and carbonate used with .05 ppm chlorine. The FROG Leap Anti-Bac Mineral Pac must be used in conjunction with the FROG Leap Torpedo Pac (EPA Reg. No. 53735-2), an EPA registered chlorine pool product or a chlorine delivery device.

• Destroys bacteria continuously for weeks.
• Controls the rate of chlorine delivery.
• Never touch the chlorinating tablets.

• Destroys bacteria continuously for weeks.
• Controls the rate of chlorine delivery.
• Never touch the chlorinating tablets.
The warranty will be void if this pac is not used with the appropriate FROG Leap® Infuzer®. Fire or explosion may result if this pac is used with an incorrect chemical feeder.

STORAGE AND DISPOSAL:
- Keep Out of Reach of Children
- Danger: Corrosive. Strong oxidizing agent. Non-refillable container. Do not attempt to refill empty pac. Place only prefilled container, causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe spray mists or dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Follow directions for use carefully.

FIRST AID:
- If on Skin or Clothing: Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.
- If Inhaled: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
- If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Do not induce vomiting. Follow directions for use carefully.
- If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have person sit upright if possible. Do not force them to swallow anything that will not go down easily. If patient is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

NOTE:
Some settling may occur during shipment. DO NOT REMOVE LABEL #20-43-1448.

WEB DIRECTION
