DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is a disinfectant that is part of an advanced pool care system that uses the FROG Leap Anti-Bac Mineral Pac (EPA Reg. No. 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool, by simply adjusting the control dial on the chlorine delivery system. You never have to touch the chlorinating tablets.

USE DIRECTIONS:

1. Adjust pH level to 7.2-7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take FROG Leap Infuzer cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into FROG Leap Anti-Bac Mineral Pac. The end of the pac must align with the key located inside the FROG Leap Infuzer at the bottom. DO NOT FORCE. Replace Infuzer cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the FROG Leap Anti-Bac Mineral Pac. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you do not have to re-adjust the setting under normal conditions. If conditions change (i.e. weather, rain, pool use, bather load, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Super chlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting 0 before super chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE. NOTE: Some setting may occur during shipment. DO NOT REMOVE LABEL #20-43-1439. NPTN hotline number for public information: 1-800-858-7378.

STORAGE AND DISPOSAL:

Do not contaminate food or feed with this product. Product Storage: Store in original container in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container and flood area with large amounts of water to dissolve all material before discarding this pac. Pesticide Disposal: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not re-use or refill this pac. Shake the pac over the pool and away from your face to ensure it is empty before offering for recycling if available or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. IMPORTANT: The warranty will be void if this pac is not used with the appropriate FROG Leap or POOL FROG Mineral System. Fire or explosion may result if this pac is used with an incorrect chemical feeder.
• Destroys bacteria continuously for weeks.
• Controls the rate of chlorine delivery.
• Never touch the chlorinating tablets.

90-Day Algae Protection Guarantee!

ALL-OUT™

FROG Leap Mineral System consists of the FROG minerals silver chloride and carbonate used with .05 ppm chlorine. The FROG Leap Anti-Bac Mineral Pac must be used in conjunction with the FROG Leap Torpedo Pac (EPA Reg. No. 53735-2), an EPA registered chlorine pool product or a chlorine delivery device.

Replace every 6 months or once a season!
THE EASIER ALTERNATIVE TO BULK CHLORINE

The No-Hassle Way to a Clean Pool

PRE-FILLED WITH CHLORINE

- Pre-filled
- Lightweight
- Easy to Use
- Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

What Makes This Pool Care System Better than the Rest?

1. Convenient
   Pre-filled pac/chamber: eliminates steps to chlorine for greater safety and convenience.
2. Long Lasting
   Trapped air in pac/chamber keeps chlorine dry to last a week longer with less consumed per season.
3. Reliable
   Water cycles through only a small amount of chlorine for more uniform and reliable output.

STORE IN A COOL, DRY PLACE
IN CASE OF EMERGENCY CALL CHEMTREC AT 1-800-424-9300.

Reduced Odors and No Touching or Measuring Chlorine.

Note to Physician

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.
• Call poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.
• Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
• Probable mucosal damage may contraindicate the use of gastric lavage.
