Easy to use!
Attach hose and spray!
Kills on Contact!

PRODUCT FACTS

Kills
- Over 250 types of insects—excluding Pharoah and Carpenter Ants, Aphids, Beetles (including Japanese and Cucumber beetles), Caterpillars (including Armyworms, Cabbage Looper, Corn Earworm, Cutworm, Diamondback Moth, Hornworm, Imported Cabbageworm, Lesser Peachtree Borer, Oriental Fruit Moth, Peach Twig Borer, Tomato Fruitworm, Tomato Pinworm), Leaftoppers, Mites & other listed insects

Where To Use
- Vegetables, Fruits, Nut and Fruit Trees, Herbs, Spices, Roses, Flowers, Shrubs, Evergreen and Shade Trees

Amount To Use
- 32 fl. oz covers over 5,237 sq. ft.

When To Use
- At the first signs of insect infestation.
- Can be used up to day before harvest.
- Kills eggs during dormant stage.

FOR OUTDOOR RESIDENTIAL USE ONLY

EPA Reg. No. 1021-1798-71004
EPA Est. 67572-GA-1, 67572-GA-2a

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Do not give any liquid to the person.
• Do not induce vomiting unless told to do so by a poison control center or doctor
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

Have this product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-800-420-9347.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin or clothing. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling. Avoid contamination of food and feedstuffs. Remove pets and birds and cover fish aquariums before spraying.

USER SAFETY PRECAUTIONS

Wash hands thoroughly after handling and before eating or smoking. Do not allow spray to drift to non-target plants or water supplies. Wash all fruits and vegetables before eating. Avoid contamination of food and feedstuffs.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate. Do not discharge effluent containing this product into lakes, streams ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment because of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

General Use Restrictions

Do not make applications during rain.
Aerial applications are prohibited.
Do not water the treated area to the point of run-off.
Do not reapply within 3 days except under extreme pest pressure.
In case of extreme pest pressure, do not reapply within 24 hours.
Do not apply more than 1 time per day.
Do not apply when bees are active in the area.
Do not apply if rain is expected within 24 hours.
Do not apply if wind causes drift.
This product is not for use on plants being grown for sale or other commercial use.
Do not harvest until spray has dried.
Do not apply more than 10 times per season.

SHAKE WELL BEFORE USING.

The product may be used outdoors as a contact spray for flying and crawling pests commonly found in and around the garden and landscaping. This product contains Pyrethrum, derived from a Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrum also will "flush" hiding insects, which then allows you to spray them for immediate contact kill. This product may be used throughout the growing season; or as a pre-harvest treatment. It is acceptable for use up to the day of harvest on edible plants. This product must come in contact with insects in order to kill them. Coverage of the target insect is vital to achieving good performance.

Read all directions completely before use. For best results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard.

GENERAL:

WHEN TO APPLY: Use at first signs of insect infestation, preferably before damage and feeding occurs. Do not wait until plants are heavily infested. Spray may be applied up to and including day of harvest.

For Best Results: Apply in the twilight hours of the evening or just before sunrise to avoid possible harm to honeybees. Honey bees normally forage during the daylight hours, when the temperatures reach or exceed 55 degrees F.

WHERE TO USE: On Vegetables, Fruit and Nut Trees, Fruits, Nuts, Roses, Flowers, Ornamentals, Herbs, Spices, Shrubs, Bushes, Evergreens, Shade Trees. Do not use on lawns or large trees. For trees taller than 10 feet, consider hiring a licensed professional.

GardenTech® WorryFree® Brand Ready-To-Spray provides rapid kill of insects without objectionable residues
### Hose End Sprayer Instructions

**How To Use:**

1. Wearing household latex or rubber gloves, shake bottle before using.
2. Attach garden hose to spray nozzle.
3. Turn on water supply.
4. Push safety tab and turn control knob to “Water” position.
5. Point nozzle toward plants and turn water control knob to “On”. Product will automatically mix with water.
6. Hold spray nozzle about 12” from the plants.
7. Apply when air is calm to avoid drift and contact with eyes and skin.
8. Start spraying at the farthest corner of the treatment area and work backward to avoid contact with wet surfaces.
10. Allow spray to dry in treated areas before reentering.

Caution should be taken to avoid spraying when wind conditions could create a mist to blow back to applicator. Do not apply this product in or around bodies of water. Spray the surface areas and contact as many insects as possible.

**FLIES, GNATS, SMALL FLYING MOTHS, Midge, Small flying insects and other flying insects:** Hold container 18-24 inches from shrubs, bushes, grassy areas and other areas infested with these pests. Spray with a slow sweeping motion while moving away from the treated area. To reduce annoyance from these pests, treat open porches and patios in a similar manner. Kills and repels flies, midges, gnats and when used intermittently during outdoor activities, will keep the surround areas free from these pests. Allow spray to dissipate before occupying the treated area.

**ANTS** (including Black Carpenter Ants): Spray ant trails, anthills and other areas of entry and infestation. Spray on ants where possible.

**SPIDERS:** Spray directly on spiders and webs.

**SOWBUGS, MILLIPEDES, BEETLES, EARWIGS, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated stink Bugs, Stink Bugs, Pillbugs, Scorpions, Cockroaches, Crickets, Waterbugs, Palmetto Bugs:** Spray surfaces thoroughly and into hiding places such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds and other areas where these pests tend to congregate.

ORNAMENTAL TREES, SHRUBS AND FLOWERS
(Roses, Flowers, Other Herbaceous Plants), Woody Plants and Shrubs

USE DIRECTIONS AND LIMITATIONS: TREES AND ORNAMENTALS
• For trees taller than 10 feet, consider hiring a licensed professional
• Do not apply more than one (1) time per day.
• Do not wet plants to point of runoff or drip

For treating ornamental trees, shrubs and flowers, apply at a rate covering 6-8.5 square feet per second.

Measure area before applying and calculate the total area in square footage. Multiply length x width measured in feet to arrive at square feet of area to be treated.

Example: Your ornamental flower garden with shrubs measures 60 feet in length and 4 feet in width. Calculate square footage by multiplying 1 x w; or, in this example, 60 feet by 4 feet to equal 240 square feet.

Divide 240 square feet by 6 square feet per second to arrive at 40 seconds. Spray to cover the treatment area for 40 seconds.

Rule of Thumb when using this product for Ornamental Trees, Shrubs, and Flowers:
You will need to cover 196 square feet or more with spray per 30 seconds. (8 square feet per 15 seconds)

This product covers 3,122 up to 5,240 square feet Ornamental, Flowering and Foliage Plants

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage
Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling
Nonrefillable container. Do not reuse or refill this container.

If empty:
Place in trash or offer for recycling if available.

If partly filled:
Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
