Topical Solution for Dogs

FOR USE ONLY ON DOGS 12 WEEKS OLD OR OLDER

For convenient, quick-acting, long-lasting, effective control of fleas, ticks, mosquitoes, lice and mites:
- Easy and convenient application
- Stops existing infestations and prevents establishment of new infestations
- Prevents re-infestation for one month
- Remains effective even after bathing, water immersion, or exposure to rain or sunlight
- Kills newly emerged adult fleas prior to egg laying
- Kills fleas that may transmit diseases, including bartonellosis, tularemia, and tapeworm infestations
- Kills lice that may cause Flexure Dermatitis (FD) or flea-bite anemia
- Kills and repels all stages of brown dog ticks, American dog ticks, Lyme Star ticks, and deer ticks (ticks that may transmit Lyme disease, Rocky Mountain spotted fever, babesiosis, ehrlichiosis, and anaplasmosis).
- Kills and repels mosquitoes
- Repels and prevents blood-feeding by biting flies
- Kills lice and ticks in the control of mites
- Prevents and controls lice infestations

EFFITIX™ Topical Solution for Dogs contains the active ingredients Fipronil and permethrin, which control infestations caused by fleas, ticks, lice, and ticks in the control of mites; repel against biting flies and repel and kill mites.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS
- Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or eating the tablet.

HAZARDS TO DOMESTIC ANIMALS
- FOR EXTERNAL USE ON DOGS ONLY.

Do not use on dogs under 12 weeks of age. Individual sensitivities, while rare, may occur after using an AVH pesticide product. Dogs may experience some temporary irritation at the sites of product application. If signs of sensitivity occur, bathe your pet with mild soap or shampoo and rinse with large amounts of water. If signs of sensitivity occur and persist, contact a veterinarian immediately. If your dog has an unusual reaction to the AVH application, consult a veterinarian before reapplying the application. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, childbearing, aged, pregnant or nursing dogs, or animals known to be sensitive to pesticide products.

FIRST AID

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by an unbroken person.

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also contact the hotline number 1-800-328-2660 for human or veterinary health concerns, emergency medical treatment information, or pesticide incidents.
