EFFITIX™

Topical Solution for Dogs

FOR USE ONLY ON DOGS 12 WEEKS OLD OR OLDER

For convenient, quick-acting, long-lasting, effective control of fleas, ticks, mosquitos, lice and mites:

• Easy and convenient application
• Stops existing infestations and prevents establishment of new infestations
• Prevents re-infestation for one month
• Remains effective even after bathing, water immersion, or exposure to rain or sunlight
• Kills newly emerged adult fleas prior to egg laying
• Kills fleas that may transmit diseases, including bartonellosis, tularemia, and tapeworm infestations
• Kills ticks that may cause flea allergy dermatitis (FAD) or flea-bite anemia
• Kills and repels all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks (ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, bartonellosis, ehrlichias, and anaplasmosis)
• Kills and repels mosquitoes
• Repels and prevents blood-feeding by biting flies
• Kills lice and aids in the control of mites
• Prevents and controls lice infestations

EFFITIX™ Topical Solution for Dogs contains the active ingredients fipronil and permethrin, which control infestations caused by fleas, ticks, lice, and mites in the control of mites; repel against biting flies and repel and kill mosquitoes.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Harmful if swallowed. Causes eye irritation. Avoid contact with eyes, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS

FOR EXTERNAL USE ON DOGS ONLY.

Do not use on dogs under 12 weeks of age. Individual sensitivities, while rare, may occur after using ANY pestidide product. Dogs may experience some temporary irritation at the site of product application. If signs of sensitivity occur, rinse the spot with mild soap or shampoo and rinse with large amounts of water. If signs of sensitivity occur and persist, contact a veterinarian immediately. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, dulled, oily, pregnant or nursing dogs, or animals known to be sensitive to pestidide products.

FIRST AID

IF SWALLOWED:

• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything to an unconscious person.

IF IN EYES:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also contact the hotline number 1-800-338-3669 for human or veterinary health concerns, emergency medical treatment information or pesticide incidents.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. FOR EXTERNAL USE ON DOGS ONLY. DO NOT USE ON CATS OR RABBITS. DO NOT USE ON OTHER ANIMALS.

DO NOT USE ON CATS.

FOR EXTERNAL USE ONLY. Do not use on dogs under 12 weeks of age. Do not apply between dogs. Do not apply multiple tubes on one dog. While your dog is barking you are applying the right dose formulated for the weight of your dog. Overdosing your dog can result in serious illness. Do not bathe your dog within the 24 hours after the product has been applied. If your dog is exhibiting signs of itching or being treated for skin problems, talk to your veterinarian before applying any topical flea and tick control product. Do not apply more than once per month (every 30 days).

For use in DOGS (12 weeks old or older). To read and lift thin, detach, and remove plugs: slide in the control of miles; to read and prevent biting by biting flies. Apply monthly according to directions.

APPLICATION DIRECTIONS

1. Remove the outer cap from the application. Hold applicator upright and remove cap.
2. Insert applicator between the blades of the comb just above the dog's back.
3. Part the hair with the comb until the skin is visible. Place applicator tip directly against exposed skin.

For small dogs 12 weeks old or older and up to 22.9 lbs: Deposit entire contents of applicator onto dog's skin, at a single site, between the shoulder blades as shown in diagram 3a.

For medium dogs 23 to 44.8 lbs or large dogs 45 to 88.9 lbs: Apply the product evenly to three spots on the dog's back, starting between the shoulder blades and continuing on to the second and third spots as shown in diagram 3b, squeezing the applicator until empty.

For extra large dogs 89 to 132 lbs: Apply the product evenly to four spots on the dog's back, starting between the shoulder blades and continuing up to the second, third, and fourth spots as shown in diagram 3c, squeezing the applicator until empty.

Ensure that EFFITIX™ Topical Solution for Dogs is applied superficially on dog’s hair.

FREQUENCY OF APPLICATION

Research has shown that fleas, ticks, biting, and chewing lice, and mite infestations can be controlled with monthly applications of EFFITIX™ Topical Solution for Dogs. Biting lice and mites are repelled by EFFITIX™ Topical Solution for Dogs.

Fleas: EFFITIX™ Topical Solution for Dogs can start killing adult fleas within 6 hours and lasts for up to three months. Apply monthly if your dog has fleas that may cause flea allergy dermatitis (FAD), or if re-infestation is likely.

Tick: EFFITIX™ Topical Solution for Dogs can kill ticks for at least 1 month. Apply monthly where tick control is consistently needed.

Lice: EFFITIX™ Topical Solution for Dogs can kill, biting and chewing lice for a month on contact. Apply monthly where lice control is consistently needed.

Mites: When applied monthly, EFFITIX™ Topical Solution for Dogs aids in the control of mites.

Biting Flies and Miconopias: When applied monthly, EFFITIX™ Topical Solution for Dogs kills and repels biting flies and miconopias for up to 4 weeks (one month). Miconopias for up to 4 weeks (one month).

Nits: Up at least 30 days before re-application of EFFITIX™ Topical Solution for Dogs. Avoid contact with treated area until dry.
