MODIFIED SEED OIL CONCENTRATE & SURFACTANT IN NITROGEN SOLUTION

PRINCIPAL FUNCTIONING AGENTS:
Methyl Soyate, Ammonium Nitrate, Urea and other components ........................................... 83.4%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT ............................................................... 16.6%

Contains 19.45% Surfactant

KEEP OUT OF REACH OF CHILDREN
WARNING

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes skin irritation. Do not get on skin or on clothing. Wear long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes. Wear protective eyewear (goggles, face shield, safety glasses). Harmful if swallowed. Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if inhaled. Avoid breathing spray mist.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.
GENERAL INFORMATION

SUPER KIX™ utilizes patented technology with a unique blend of methylated seed oil, UAN solution and a non-ionic surfactant that enhances the retention and penetration of herbicides on weed surfaces, as well as, improves wetting and stability in spray tank mixtures. Herbicides powered by Kixor® technology, such as Sharpen®, Verdict™, Optill™ and Treevix™, along with other herbicides like Post®, Post Plus® and BASE CAMP® Amine 4, will benefit from the addition of SUPER KIX to the tank. SUPER KIX contains surfactant and is therefore suitable for use with most types of glyphosate, especially glyphosate formulations with a reduced surfactant load. It is also compatible with fully loaded glyphosate formulations. Tank mixes in unusually hard water will likely benefit from the addition of either a liquid AMS, such as BRONC® or dry AMS to prevent mineral deactivation of glyphosate or phenoxy chemistries.

DIRECTIONS FOR USE

Shake well before using. Unless otherwise instructed by the herbicide label, add SUPER KIX™ to the tank last.

When attempting to mix SUPER KIX with pesticide combinations that are unfamiliar to you, conduct a jar test to check for incompatibility.

**Step One:** Measure 1 pint of water into a clear quart jar. Use the same water (or other diluent) that you will use when making up the larger mixture.

**Step Two:** Add products in the following order. Stir each time a product has been added.

1. **Compatibility agents and activators.** Add 1 teaspoon for each pint per 100 gallons of final spray mixture.
2. **Wettable Powders and Dry Flowables.** Add 1 tablespoon for each pound per 100 gallons of final spray mixture.
3. **Water soluble concentrates or solutions.** Add 1 teaspoon for each pint per 100 gallons of final spray mixture.
4. **Emulsifiable concentrates.** Add 1 teaspoon for each pint per 100 gallons of final spray mixture.
5. **Soluble powders.** Add 1 teaspoon for each pint per 100 gallons of final spray mixture.
6. **Remaining adjuvants and surfactants.** Add 1 teaspoon for each pint per 100 gallons of final spray mixture.

**Step Three:** After mixing, let the solution stand for 15 minutes. Stir well and observe the results. Feel the sides of the jar to determine if the mixture is giving off heat. If so, the mixture may be undergoing a chemical reaction and the pesticides should not be combined. Let the mixture stand for about 15 minutes and feel again for unusual heat.

If scum forms on the surface, if the mixture clumps, or if any solids settle to the bottom (except for wettable powders), the mixture probably is not compatible. Finally, if no signs of incompatibility appear, test the mixture on a small area of the surface where it is to be applied.

Do not store below 40° F. This product will freeze. Protect from freezing.

USE RATES

Use 40 fluid ounces per acre of SUPER KIX adjuvant for spray volumes at, or below, 12.5 gallons per acre.

For all spray volumes above 12.5 gallons per acre, use a 2.5% v/v solution of SUPER KIX.

For tank mixes that include glyphosate, add 2.5 gallons of BRONC or 8.5 lbs. of AMS per 100 gallons of spray mix. The BRONC or AMS should be the first ingredient added to the spray water in the tank.

RESTRICTIONS

NOT for Aquatic use
STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the contents of this container. Do not store near heat or open flame. Do not store with oxidizing agents.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved water disposal facility. Do not contaminate water sources by run-off from cleaning of equipment, disposal of equipment wash water or spray waste.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, STAY OUT OF SMOKE.

Conditions of Sale and Limitation of Warranty and Liability:

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of the product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of many different factors including, without limitation, manner of use or application, weather, combination with other products, or crop conditions. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Manufacturer and Seller harmless from any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label. EXCEPT FOR THIS WARRANTY, THE PRODUCT IS FURNISHED “AS-IS”, AND NEITHER SELLER NOR MANUFACTURER MAKES ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE SELECTION, PURCHASE OR USE OF THIS PRODUCT; SELLER AND MANUFACTURER SPECIFICALLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Buyer and User accept all risks arising from any use of this product, including without limitation, uses contrary to label instructions, or under conditions not reasonably foreseeable to (or beyond the control of) Seller or Manufacturer.

To the extent permitted by law, neither Manufacturer nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER, FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OF HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT, OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

These Conditions of Sale and Limitation of Warranty and Liability shall be interpreted in accordance with the laws of the State of California, excluding its conflicts of laws rules, and may not be amended by any oral or written agreement.
