For harvest aid/desiccation in crops of oilseed canola (rapeseed) subgroup 20A

This supplemental label expires May 20, 2014.

**Active Ingredient:**
saflufenacil: N’-[2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-4-(trifluoromethyl)-3,6-dihydro-1(2H)-pyrimidinyl]benzoyl]-N-isopropyl-N-methylsulfamide.......................................................................................................................... 29.74%

**Other Ingredients:**........................................................................................................................................... 70.26%

**Total:** ............................................................................................................................................................... 100.00%

Contains 2.85 pounds active ingredient saflufenacil per gallon formulated as a water-based suspension concentrate.

**EPA Reg. No. 7969-278**

**Directions For Use**

Refer to the Sharpens™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpens container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**Use Information**

Sharpens may be used for harvest aid/desiccation in crops of the oilseed canola (rapeseed) subgroup 20A including borage, crambe, cuphea, Echium, flax, gold-of-pleasure (Camelina), hare’s ear mustard, Juncea, lesquerella, lunaria, meadowfoam, milkweed, mustard seed, oil radish, poppy seed, rapeseed (canola), sesame, and sweet rocket.

**Application Information**

**Application Rates and Timings**

Uniformly apply Sharpens at 1.0 to 2.0 fl ozs/A as a broadcast spray over the top of crops of the oilseed canola (rapeseed) subgroup 20A that have reached physiological maturity (70% to 80% bolls turn to brown for flax; seeds in the middle pods have started to turn in color for canola (rapeseed), Juncea, and mustard; or according to Extension Service recommendations in the use area for other crops). Allow up to 7 days for optimum desiccation effect depending on environmental conditions.

Thorough spray coverage and a methylated seed oil (MSO) plus ammonium-based adjuvant system (refer to Additives section on the product container label for details) is required for optimum desiccation activity. Ground application is recommended at a minimum spray volume of 10 gallons per acre. Aerial application is recommended at a minimum spray volume of 5 gallons per acre.

A single application or sequential applications may be made, but the maximum cumulative amount of Sharpens applied must not exceed 2.0 fl ozs/A per cropping season from desiccation uses.

**Crop-specific Restrictions and Limitations**

- **DO NOT** apply Sharpens on crops of the oilseed canola (rapeseed) subgroup 20A grown for seed production.
- Seed from crops of the oilseed canola (rapeseed) subgroup 20A can be harvested 3 or more days after application.
- Refer to **Table 4** on the product container label for rotational crop intervals.

**Tank Mixtures**

Apply Sharpens with a labeled rate of glyphosate (e.g. Roundup® herbicide) for additional preharvest weed control. Read and follow the applicable restrictions and limitations and directions for use on the glyphosate product label, and to confirm whether glyphosate is labeled for the specific crop to be desiccated. The most restrictive labeling applies to tank mixes.
The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
