PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with oxidizers, anionic soaps and detergents. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

CONTAINER DISPOSAL/PESTICIDE STORAGE: Non-refillable container. Store only in original container. Do not reuse empty container. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Proper rinse as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously and dispose of rinseate. Repeat two more times. Wrap container and put in trash or offer for recycling if available.

RESIDUE REMOVAL INSTRUCTIONS: Triple rinse container promptly after emptying.

Triple rinse as follows: Fill the container 1/4 full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

KEEP OUT OF REACH OF CHILDREN
DANGER
See side panel for additional precautionary statements.

First Aid
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable maximal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

**Signet Neutral Disinfectant**

This product is a one-step hospital-grade germicidal disinfectant cleaner designed for general cleaning, disinfecting, deodorizing, and controlling mold and mildew on hard, non-porous environmental surfaces. This product cleans quickly by removing dirt, grime, mildew, body oils, dead skin, blood, and other organic matter commonly found in hospitals and in health care facilities on medical surfaces, nursing homes, schools and colleges, medical offices, veterinary clinics, day care, hotels, motels, public areas and restrooms. It also eliminates odors leaving surfaces smelling clean and fresh. Use where odors are a problem.

This product, when used as directed, can be used on washable hard, non-porous inanimate surfaces such as: countertops, sinks, tub surfaces, shelves, bed Headboards; beds; wheelchair caps; kennel floors; shower stalls; toilet seats; glazed porcelain; glassed and ceramic kitchen and bathroom fixtures; tables; chairs; washable wall; cabinets; doorframes; trash cans; glass; laminated surfaces; metal; stainless steel; glazed porcelain; glazed ceramic; sealed granite; sealed marble; plastic such as polycarbonate; polyvinyl chloride; polyethylene or polypropylene; chrome; vinyl; assembled surfaces; painted/finished woodwork; and Formica®.

*Kills Pandemic 2009 H1N1 influenza virus.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**PREPARATION OF DISINFECTANT/FUNGICidal/VIRUCidal USE SOLUTION**

For heavily soiled areas, a preliminary cleaning is required. Add 1 ounce of this product to 1 gallon of water to disinfect hard, non-porous surfaces. Apply use solution using a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, or by immersion as so as to thoroughly wet surfaces. For spray applications, spray 6-8 inches from the surface. Do not apply spray. Rub with brush, cloth, or sponge. Change cloth, sponge or towels frequently to avoid redeposition of soil. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinse of floors is not necessary unless they are to be waxed or polished. Rinse all treated surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

**FOR USE AS A ONE-STAGE CLEANER/DISINFECTANT**

1. Pre-clean heavily soiled areas.
2. Apply 1/4 ounce per gallon of water (660 ppm active) (or equivalent use dilution) to hard, non-porous surfaces using a sponge, brush, cloth, mop, auto scrubber, or mechanical spray device, or by immersion. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.
3. Rub with brush, cloth, or sponge.
4. To disinfect, all surfaces must remain wet for 10 minutes.
5. Allow to air dry.
6. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

**FOR USE TO CLEAN AND DISINFECT SHOWER ROOMS, LOCKER ROOMS AND OTHER LARGE, OPEN AREAS WITH FLOOR DRAINS**

1. Pre-clean heavily soiled areas.
2. Apply use solution of 1/4 ounce per gallon of water to floors, walls and ceilings making sure not to over spray. To disinfect, all hard, non-porous surfaces must remain wet for 10 minutes.
3. Scrub using a deck brush or other coarse material as necessary.
4. Rinse surfaces thoroughly and let air dry.
5. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

**MOLD AND MILDEW CONTROL**

To control the growth of mold and mildew and their odors on hard, non-porous surfaces, apply use solution of 1 ounce per gallon of water (or equivalent use dilution). Apply by cloth, sponge, mop, brush, auto scrubber or mechanical spray device to thoroughly wet all treated surfaces completely. Allow surface to remain wet for 10 minutes. Allow solution to dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

This product is not to be used as a terminal sterilization/hot level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or, (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

**KILLS HIV, HBV and HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS**

In health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human Immunodeficiency Virus Type 1 (HIV-1), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**Personal Protection**

Clean up must always be done wearing protective later gloves, gowns, masks and eye protection.

**Cleaning Procedure**

Blood and other body fluids must be thoroughly cleaned and wiped down with non-porous surfaces and objects before application of this product.

**Disposal of Infectious Materials**

Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

**Contact Time**

Leave hard, non-porous surfaces wet for 10 minutes with a 1/4 fluid ounce per gallon use solution.

**See** reference sheet for a complete list of organisms and additional directions for use.

Signt Neutral Disinfectant

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions) AND NON-MEDICAL FACILITIES: At ½ fluid ounce per gallon of water use level and with a 10-minute contact time, this product is effective against the following organisms on hard, non-porous surfaces:
- Acinetobacter baumannii
- Acinetobacter Ivoell
- Bordetella bronchiseptica
- Chlamydia psittaci
- Colinobacterium freundii
- Enterobacter aerogenes
- Enterobacter cloacae
- Escherichia coli
- Haemophilus influenzae
- Legionella pneumophila
- M. avium complex
- Mycobacterium fortuitum
- Mycobacterium marinum
- Mycobacterium tuberculosis
- Pseudomonas aeruginosa
- Pseudomonas cepacia
- Salmonella enterica serotype typhi
- Salmonella typhimurium
- Serodeme marcescens
- Shigella flexneri
- Shigella sonnei
- Staphylococcus aureus
- Staphylococcus epidermidis
- Streptococcus agalactiae
- Streptococcus hygiene
cus
- Streptococcus pneumoniae
- Vibrio cholerae
- Yersinia enterocolitica

VIRUCIDAL PERFORMANCE: At ½ ounce per gallon of water use level, this product was evaluated in the presence of 400 ppm hirnder and 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous surfaces:
- Avian Influenza A H9N2 virus
- Avian Influenza A H5N1 virus
- Cytopathogenic, SARSCoV-Associated Coronavirus
- Hepatitis B Virus
- Hepatitis C Virus
- Herpes Simplex Virus Type 1
- Herpes Simplex Virus Type 2
- Human Coronavirus
- Human Immunodeficiency Virus Type 1 (HIV 1)
- Influenza A H1N1 virus
- Respiratory syncytial virus

At ½ fluid ounce per gallon and in the presence of 5% organic load, this product was proven to be effective against Duck - Hepatitis B Virus (DBV) and Bovine Viral Diarrhea Virus (BVDV) - surrogate for human Hepatitis C virus with a contact time of 10 minutes.

*Kills Pandemic 2009 H1N1 influenza A virus.

ANIMAL PRESENCE VIRUCIDAL PERFORMANCE: At ½ ounce per gallon of water use level, this product was evaluated and found to be effective against the following viruses on hard, non-porous surfaces:
- Avian Influenza A H9N2 virus
- Avian Influenza A H5N1 virus
- Cytopathogenic, SARSCoV-Associated Coronavirus
- Canine Coronavirus
- Canine Distemper virus
- Feline Coronavirus
- Feline Panleukopenia virus
- Feline Retroviruses
- Human Coronavirus
- Human Immunodeficiency Virus Type 1 (HIV 1)
- Influenza A H1N1 virus
- Respiratory syncytial virus
- Swine Influenza A H1N1 virus
- Transmissible Gastronomitis virus
- Vascular virus

NON-FOOD CONTACT SANITIZING PERFORMANCE: At ½ ounce per gallon use level, this product is an effective one-step sanitizer and a 3-minute contact time against the following on hard, non-porous surfaces:
- Klebsiella pneumoniae
- Staphylococcus aureus

FUNGICIDAL PERFORMANCE: When used as directed at ½ fluid ounce per gallon of water and a 10-minute contact time, this product is effective against, the following on hard, non-porous surfaces:
- Aspergillus niger
- Candida albicans
- Trichophyton mentagrophytes - athlete's foot fungus

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*FOR DISINFECTING HARD, NON-POUROUS SURFACES AGAINST AVIAN INFLUENZA A VIRUS: For use in hospitals, hotels, motels, schools and other non-animal use sites, follow the PREPARATION OF DISINFECTION/VIRUCIDAL/FUNGICIDAL USE SOLUTION directions. For use in animal housing facilities, follow the SPECIAL INSTRUCTIONS FOR INACTIVATING AVIAN INFLUENZA A VIRUS in the Animal Premises section.

Prior to use, cover or remove all food and packaging material before disinfection and remove all animals and feeds from premises, animal transportation vehicles, and enclosures: cows, calves, kennels, stables, remove all litter, droppings and manure from barns, walls and surfaces of barns, pats, stalls, chutes and other surfaces of facilities and fixtures occupied or traversed by poultry or other animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water.

VETERINARY CLINICS/ANIMAL LIFE SCIENCE LABORATORY/ANIMAL CARE FACILITIES/ANIMAL RESEARCH CENTERS/ANIMAL LABORATORY/ANIMAL QUARANTINE AREAS/ANIMAL BREEDING FACILITIES/ZOOD/PET SHOP/ANIMAL HUSBANDRY KENNELS/BRIDGING AND GROOMING ESTABLISHMENTS/TACK SHOPS DISINFECTION DIRECTIONS: For cleaning and disinfecting hard, non-porous surfaces such as equipment, utensils, instruments, cages, kennels, stalls and caters, and other hard-nonporous surfaces, apply a use solution of ½ oz per gallon of water (or equivalent use dilution) so as to wet thorough. Apply by cloth, mop, brush, sponge, auto scrubber, mechanical spray device, or immersion. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Allow surfaces to remain wet for a period of 10 minutes. Immerse all halter and other types of hard, non-porous equipment used in handling and restraining animals as well as forklifts, shovels, scrapers used in removing litter and manure in the use solution. Ventilate buildings and other closed spaces. Do not house animals or equipment until treatment has been absorbed, set or dried. Thickly scurf all treated feed racks, troughs, automatic feeders, waterers and other treated equipment that dispenses feed or water with soap or detergent, and rinse with potable water before reuse. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

*SPECIAL INSTRUCTIONS FOR INACTIVATING AVIAN INFLUENZA A VIRUS: Apply the disinfecting solution of ½ oz per gallon of water (600 ppm active) (equivalent use dilution) to all hard, non-porous surfaces and allow to remain wet for a period of 10 minutes. Apply by cloth, mop, brush, sponge, auto scrubber, mechanical spray device, or immersion. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Immerse all halter and other types of hard, non-porous equipment used in handling and restraining animals as well as forklifts, shovels, and scrapers used in removing litter and manure. Ventilate buildings, horse, and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried. Thickly scurf all treated feed racks, troughs, automatic feeders, waterers, and other treated equipment with soap or detergent, and rinse with potable water before reuse. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

PREPARATION OF NON-FOOD CONTACT SANITIZER USE SOLUTION: For heavily soiled areas, a preliminary cleaning is required. Add ½ ounce of this product to 1 gallon of water (600 ppm active) (or equivalent use dilution). Apply sanitizer use solution to hard, non-porous non-food contact surfaces with a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, or by immersion so as to thoroughly wet surface to be sanitized. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Treated surfaces must remain wet for 3 minutes. Allow to air dry. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

Read the label affixed to the container for this product before applying.

Use of this product according to this label is subject to the use precautions and limitations imposed by the label affixed to the container for this product.
