ALGAECIDE
For Control of Algae & Algal Slime Growth in Swimming Pools

PRECAUTIONARY STATEMENTS
Hazard to Human and Domestic Animals (Danger). Keep out of reach of children. Causes irreversible eye damage and skin irritation. Harmful if swallowed or inhaled. Do not get into eyes, on skin or clothing. Wear appropriate protective clothing (goggles, rubber gloves or face shield), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, smoking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD
This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS
Do not use or store near heat or open flame or in case. Do not mix with soap, inorganic detergents or oxidizers.

This product is compatible with most chemicals normally used in swimming pool maintenance. However, in its concentrated form, this chemical may react in contact with high concentrations of chlorines or any other outdoor. DO NOT MIX THIS PRODUCT AND CHLORINE OR ANY OTHER BLEACHER TOGETHER BEFORE ADDING TO THE POOL. These chemicals must be handled separately.

This product was formulated to complement most swimming pool sanitizers. This product is not a stand-alone product, it should be used with either halogen-based or non-halogen-based pool sanitizers.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Please read entire label and use strictly in accordance with precautionary statements and directions. Do not use water containing iodides from use of this product to irrigate crops for food or feed. This product requires no special equipment for applying swimming pool water. The correct dosage may be added directly to the pool. If any product was added to the pool water, the water must be treated with water treatment chemicals.

INITIAL APPLICATION FOR SWIMMING POOLS
1. Backwash the filter thoroughly. 2. Vacuum algae and debris thoroughly. 3. Add the desired dose of this product per 15,000 gallons of water in the pool. 4. Wait 24 hours before using the pool. 5. Remove debris from the pool before using the pool. 6. After 24 hours, check the pool for algae. If algae are present, repeat the above steps.

MAINTENANCE APPLICATION: Add one quart of this product per 50,000 gallons of water every 3-5 days as needed. BOOSTER APPLICATION: Add one quart of this product per 50,000 gallons of water every 6-8 days as needed.

INSTRUCTIONS FOR USE WITH HALOGEN BASED POOL SANITIZERS
This product is formulated to complement most swimming pool sanitizers. When using other products, see directions for use. For use with these products, follow directions for use of these products. This product is effective against the growth of algae. This product is efficient in non-sterilized when used as directed. This product may not be used with other algal fighting chemicals. Always follow the manufacturer's instructions. Check pH between 7.2-7.8. Adjust pH to 7.2-7.6. Add this product directly into pool for catching around entire outside perimeter of pool. Allow the filter to run for at least 6 hours after adding algaecide. During this period, do not allow swimmers in the water.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal. Store in original container in areas inaccessible to small children. Keep out of reach. Do not use for recycling if available or spread and discard in trash or recycle.
