DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. After filling or at the start of each season, the pool water should be adjusted for pH (7.2-7.6) using pH control agents (pH Plus, pH Minus & Alkalinity Up) as directed. Initially, two (8 oz) cups of Lithium Premium Shock per 5,000 gallons of pool water is added to develop the proper chlorine level of 1-2 ppm. To prevent chlorine decomposition and provide a balanced, economical pool sanitation program, Stabilizer is added according to label instructions. Further Sanitizer addition should be made to continue chlorine level activity at 1-2 ppm as required.

HOW TO MAINTAIN THE PROPER CHLORINE RESIDUAL
The available chlorine content of the swimming pool should be maintained between 1.0-1.5 ppm. Under normal conditions, this can be maintained by daily addition of 2.7 oz. (1/3 cup) of Lithium Premium Shock for each 5,000 gallons of pool water. Severe conditions such as high temperatures, excessive use by many people will require higher daily dosage than the smaller dose in the spring and fall when there isn’t any bathing activity. The pool water should be superchlorinated once a week or better. Five times the normal addition, or a minimum of one cup (8oz.) per 5,000 gallons of pool water should be added in the evening when the pool is not in use for a minimum of 12 hours. If the chlorine residual is above 2.0 ppm, usage of the pool should not be permitted until it is decreased. Reentry into treated pools is prohibited above levels of 3 ppm of chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage, disposal or cleaning of equipment. PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. PESTICIDE DISPOSAL: In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. CONTAINER DISPOSAL: Do not reuse empty container but place in trash collection.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
DANGERS: CORROSIVE Causes irreversible eye damage. Do not get in eyes or clothing. Wear safety glasses or goggles and protective gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.
ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Use clean dry utensils. Mixing this product with chemicals (e.g., ammonia, acids, detergents, etc.) or organic matter (e.g., urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. YOU MAY ALSO CONTACT 1-800-428-9336 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
