DANGER

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND HANDLING
AQUCAR GA 50 MUP Water Treatment Microbiocide is incompatible with many commonly used materials of construction such as steel, galvanized iron, aluminum, tin, and zinc. AQUCAR GA 50 MUP Water Treatment Microbiocide is stable and handled in dried or powdered form. Do not store in contact with water. Storage in a dark place at room temperature is recommended. Keep away from excessive heat and cold. Maximum storage time is 18 months after date of manufacture. This product freezes at about 4°F (-20°C). Thawing the contents does not impair its effectiveness; however, the product will not be stable beyond the date of manufacture. Storage in the sun will accelerate the rate of decomposition. Do not mix with other chemicals unless specifically recommended for the purpose. Do not use on live plants.

FIRST AID
If swallowed: • Call a poison control center or a doctor immediately for treatment advice. • DO NOT INDUCE VOMITING. • Do not give anything to drink.

If in eyes: • Wash immediately and continuously with flowing water for at least 30 minutes. • Remove contact lenses after the first 5 minutes and continue washing. Obtain prompt medical consultation, preferably from an opthalmologist. • Call a poison control center or a doctor immediately for treatment advice.

If on skin or clothing: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15–20 minutes. • Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Aspiration may cause lung damage. Probable mucosal damage may contaminate the use of gastric lavage.

Have the MSDS and, if available, the product container or label with you when calling a poison control center or a doctor, or going for treatment.
