CITRACE HOSPITAL GERMICIDE

DESTROYS ODORS: This effective product eliminates odors at their source by killing germs that cause odor. Does not just mask odors. May be used to eliminate odors retained in fabrics, draperies, or upholstered furniture. KILLS GERMS: Disinfects by killing microorganisms on hard, non-porous environmental surfaces such as stainless steel, chrome, plastic, glazed porcelain, and mirrors. Controls mold and mildew. Meets OSHA bloodborne pathogen standards. *Sanitizes by killing 99.9% of Staphylococcus aureus and Klebsiella pneumoniae on hard, non-porous surfaces. CONTROLS MOLD AND MILDEW: This product controls mold and mildew on fabrics such as carpets, mattresses, pillows, and upholstery. Use Sites: homes, hospitals, clinics, schools, long-term care facilities, physician offices, dental offices, patient rooms and waiting areas, emergency rooms, outpatient facilities, exam rooms, laboratories, operating, radiology, physical therapy, central supply, and bathrooms. Applications: non-critical medical equipment including supply carts, empty waste cans and laundry hampers, bathroom basins, bed frames and springs, wheelchairs, walkers, and high-touch surfaces such as telephones, TV remotes, countertops, light switches, and door knobs.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Do Not Spray in Eyes. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call the National Poison Control Center at 800-222-1222 or a doctor for treatment advice. Have the product with you when calling a poison control center or doctor or going for treatment.

PHYSICAL OR CHEMICAL HAZARDS
FLAMMABLE: Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. Storage: Do not use or store near heat or open flame. Store out of reach of children. Disposal: This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label. DO NOT PTNCUE: If recycling is not available, wrap the container and discard in the trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical or semi-critical medical device surfaces. To Disinfect: Shake well. Hold can upright 6" - 8" from surface. Spray non-porous surface until thoroughly wet. Let stand for 5 minutes. Allow to air dry or wipe dry. Gross soil must be removed prior to disinfecting.

Kills HIV-1 (AIDS Virus) and HBV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) and Hepatitis B Virus (HBV). Special Instructions for Cleaning and Decontamination Against HIV-1 (AIDS Virus) and HBV on Surfaces/Objects Soiled with Blood/Body Fluids: Personal Protection: When handling items soiled with blood/body fluids, appropriate personal protective equipment such as disposable plastic gloves, gowns, masks, or eye coverings should be considered. Cleaning Procedure: Blood/body fluids must be thoroughly cleaned from surfaces and objects prior to disinfecting. Contact Time: This product kills HIV-1 (AIDS Virus) and HBV in 1 minute. Contact time required to kill other organisms is 5 minutes. Disposal of Infectious Materials: Blood/body fluids and cleaning materials must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

To Sanitize: Shake well. Hold can upright 6" - 8" from surface. Spray surface until thoroughly wet. Let stand for 30 seconds. Allow to air dry or wipe dry. Gross soil must be removed prior to sanitizing.

To Control Mold and Mildew and Deodorize on Fabric: Shake well. Hold can upright 6" - 8" from surface. Spray surface until thoroughly wet and repeat monthly to prevent regrowth.

To Clean/Deodorize: Shake well. Spray lightly and immediately wipe dry with cloth or paper towel. Effective as a light duty cleaning agent to remove fingerprints and hand smudges.

Independent lab tests have demonstrated that this product is an effective bactericide, virucide, and fungicide in the presence of organic soil (5% blood serum).

Kills bacteria, viruses, and fungi on hard, non-porous surfaces

In 1 MINUTE:
- **HIV-1** (AIDS Virus)
- **Hepatitis B Virus** (HBV)

In 5 MINUTES:
- **Bacteria:**
  - Acinetobacter baumannii
  - Enterobacter aerogenes
  - Enterococcus faecalis, Vancomycin resistant (VRE)
  - Escherichia coli ESBL
  - Klebsiella pneumoniae
  - Pseudomonas aeruginosa
  - Salmonella enterica
  - Staphylococcus aureus
  - Staphylococcus aureus, Methicillin resistant (CA-MRSA) (USA 300)
  - Staphylococcus aureus, Methicillin resistant (CA-MRSA) (USA 400)
  - Staphylococcus aureus, Methicillin resistant (MRSA)
  - Staphylococcus aureus, Vancomycin resistant (VRSA)
  - Streptococcus pneumoniae, Penicillin resistant (PRSP)
  - Streptococcus pyogenes
- **Viruses:**
  - Adenovirus
  - Avian Influenza A strain H5N1
  - Canine Parvovirus
  - Coxsackie Virus
  - Hepatitis A Virus
  - Herpes Simplex Virus (HSV-1)
  - Influenza A Virus
  - Poliovirus
  - Respiratory Syncytial Virus (RSV)
  - Rhinovirus
  - Rotavirus
  - Vaccinia Virus
- **Fungi:**
  - Trichophyton mentagrophytes (Athlete's Foot Fungus)
