Exposure to temperatures above 130°F may cause bursting. Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. Do not contaminate water when disposing of equipment wash water or rinse. Do not apply directly to or near water. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. See Directions for Use for additional precautions and restrictions.

STORAGE & DISPOSAL: STORAGE: Do not store near heat or open flame. Store in a cool area away from children. DISPOSAL: Do Not Puncture or Incinerate IF EMPTY: Offer for recycling, if available. IF PARTIALLY FILLED: Call your local solid waste agency for disposal instructions.

ACTIVE INGREDIENTS:
Pyrethrins .................................................. 0.50%
*Piperonyl Butoxide .................................. 4.00%
INERT INGREDIENTS: ................................. 95.50%
TOTAL .............................................. 100.00%
*(6-vinylkainyl)2(6-propylpiperonyl) ether and related compounds.

KEEP OUT OF REACH OF CHILDREN
CAUTION
See Back Panel for Additional Precautionary Statements.

NET WT. 18.5 oz. (1 lb 2.5 oz.) (524.4 g)

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS & USE RESTRICTIONS
- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- Do not remain in treated area immediately and remain outside the treated area until area is dispersed. Do not apply more than 1 time daily.
- Close milk bulk tank ligthks to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

Hold container upright with nozzle away from you. Press valve down and spray as directed. To avoid possible staining of fabrics, do not spray at close range.

FOR USE ON ANIMALS: Do not spray on sick animals. Do not spray directly towards animal's eyes. Do not treat dogs or cats. Deer, Cattle: thorougly spray entire animal from approximate 2 feet distance. Spot treat withers, shoulders and back where saliva accumulates from head rushing. Thorougly wash teats before milking, Beef Cattle: Thorougly spray entire animal from approximate 2 feet distance. Repeat application daily, Horse, Foals, Pony: Lightly mist over the back of horses and ponies from a distance of 2 feet. Repeat application daily, Hogs and Swine: Spray directly over the back of hogs for 1-2 seconds per hog. Repeat applications daily. Use in Milking Parlors, Milk Rooms, Barns, Horse Barns, Stables, Hog Houses, and Poultry Houses to kill or repel the listed insects. When using this product in an enclosed area, remove animals before spraying. Cover all feed, and water troughs. Close all windows and doors. Do not remain in the treated area. After 15 minutes, ventilate treated areas. Repeat application daily. Use in Milking Parlors and Milk Rooms: In Milking Parlors and Milk Rooms, cover all milking utensils and milk to prevent contamination from spray and dead or falling insects: Apply as a space spray upward, spraying for 1-3 seconds per 1,000 cubic feet of space. Beef Cattle Barn and Hog Barns: Spray at a rate of 1-2 seconds per 1,000 cubic feet of space. Stanchion Barn Use: Walk behind animals and direct spray over backs, allowing 1 second per animal. Poultry Houses: spray in the air only in empty poultry houses (if birds are not present). Apply as a space upward at a rate of 1-2 seconds per 1,000 cubic feet. To Kill Mud Daubers: Apply mist directly on insects and their nests from approximately 2 feet. Contacted insects will fly away from the spray. Applications should be made in late evening, when insects are at rest. Spray into hiding and breeding places contacting as many insects as possible. To kill flies in pot kennels and cages: Do not use this product to treat Dogs or Cats. Remove animals before spraying. Change filter and pet bedding before treating. Close all doors and windows. Hang aerosol 36 inches above floor and direct spray towards floor and lower walls for 10 seconds per 100 square feet. Make sure that all floor areas are treated. Keep treated area closed for 15 minutes, then open and ventilate and allow surfaces to thoroughly dry before reoccupying. Repeat after 7 days. To kill flies, gnats, and mosquitoes outdoors: Spray while walking the length of the target area of 25 foot intervals while spraying downwind. This container treats up to one acre. Repeat treatment in 7 days.

OUTDOOR GROUND APPLICATION: Kills and Repels Flies, Gnats, and Mosquitoes, including the Culex species which may carry the West Nile Virus, in open areas near buildings and in campgrounds. Best results are obtained with wind speed is five (5) MPH or less. Apply at a rate of 50-500 seconds per acre. Spray in wide swaths across area to be treated. Allow spray drift to penetrate dense foliage. Repeat treatment as necessary.

CONTAINS NO CFCS OR OTHER OZONE DEPLETING SUBSTANCES. FEDERAL REGULATIONS PROHIBIT CFCS PROPPELLANTS IN AEROSOLS.
