# PRECAUTIONARY STATEMENTS:
## HAZARDS TO HUMANS AND DOMESTIC ANIMALS

### DANGER

CORROSIVE, CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and gloves. Do not breathe vapor or spray mist. Wash thoroughly with soap and water after handling, and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicants and other handlers must wear:

- Coveralls over long-sleeved shirt and long pants,
- Chemical resistant footgear and socks,
- Chemical resistant gloves that are waterproof such as barrier laminate or any of the following gloves at a 14 mils thickness: butyl nitrile, neoprene rubber, polyvinyl chloride or Viton
- Protective eyewear: Goggles or face shield
- Dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C) or a NIOSH approved respirator with any N, R, P, or HE filter.

### ENVIRONMENTAL HAZARDS:

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment washwaters or rinsate. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Observe the most restrictive of the labeling limitations and precautions of all products used in mixtures. Treated lumber must be stored under cover, or indoors, or at least 100 feet from any ponds, lakes, streams, wetland, or river to prevent possible runoff of the product into the waterway. Treated lumber stored outdoors within 100 feet of a pond, lake, stream, or river must be either covered with plastic or surrounded by berm to prevent surface water runoff into the nearby waterway. If a berm is used around the site, it must consist of impermeable material (clay, asphalt, concrete) and be of sufficient height to prevent runoff during heavy rainfall events.

In case of spill or leak, wear appropriate protective equipment and clothing during clean-up. Use dry absorbent material to contain the spill, then place in a suitable container for disposal in accordance with state and local regulations. Avoid contamination of soil, and prevent spill residue from running into storm drains.

### FIRST AID

**IF SWALLOWED:**

- Call a Poison Control Center or doctor immediately for treatment advice,
- Do not induce vomiting unless told to do so by poison control center or doctor,
- Do not give anything by mouth to an unconscious person,

**IF INHALED:**

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable by mouth-to-mouth, if possible,
- Call a Poison Control Center or doctor for further treatment advice.

**IF ON SKIN OR CLOTHING:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a Poison Control Center or doctor for treatment advice.

**IF IN EYES:**

- Hold eye and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor for treatment advice.

### KEEP OUT OF REACH OF CHILDREN

**DANGER**

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons.

Not for food grade/food contact paper or paper board.

**For Industrial and Commercial Use**

AntiBlu® XP-Quattro may be applied to wood and wood products by immersion or spray methods according to the dilutions provided below. Dilution levels may vary widely and will depend on application methods, wood species, seasonal changes in exposure conditions, length of protection desired, and wood storage and transport conditions.

**For spray applications:** Mix one gallon of AntiBlu® XP-Quattro to 5-25 gallons of water.

**For immersion applications:** Mix one gallon of AntiBlu® XP-Quattro to 25-150 gallons of water.

For best results, apply AntiBlu® XP-Quattro to recently felled and fresh sawn or peeled wood ensuring total coverage. Allow treated wood to drain in a contained area before storage, and ensure that freshly treated wood is not allowed to remain unprotected in heavy rains.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment.

**Pesticide Storage:** Open dumping is prohibited. Keep container closed when not in use. Store in a dry, well ventilated area away from food or feed.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous, Improper disposal of excess pesticide, spray mixtures, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** (Containers >5 gallons or 50 lbs net weight)

Nonrefillable container: Do not refill or reuse container. Triple rinse as follows: Fill container ½ full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

(Containers <5 gallons) (Nonrefillable container. Do not refill or reuse this container. Triple rinse as follows: Fill container ½ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Drain for 10 seconds after the flow begins to drip. Empty the rinsate into the application equipment or mix tank or store rinsate for later use or disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.)
