**Aerosol Contact Insecticide**

**FOR USE IN:**
- Restaurants
- Schools
- Hotels
- Supermarkets

---

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Use restrictions:**
- **For Indoor Use Only**
- **Except when applying to clothing,** do not allow adults, children or pets to enter until sprays have dried.
- **Except when applying to clothing** do not apply this product in a way that will contact other persons, either directly or through drift.
- **Only those protected by the area in the area during applications,** do not remain in the treated area. Keep area immediately and remain outside the treated area until aerosols and vapors have dispersed.
- **Remove pets, birds, and cover any water inhabited by fish (such as aquariums and ornamental fish ponds) before application.** Turn off aquarium filtering systems before spraying and wait approximately 15 minutes after application before turning the filter back on.
- Do not apply directly into sewers or drains, or to any area like a gutter where it may contaminate water supplies. Water bodies, or aquatic habitats can occur. Do not allow the product to enter any drain during or after application.
- Do not wet articles to point of runoff or drip. Do not use treated article until spray has dried.
- When used in dry boxes or facilities: Close all milk bottles lids to prevent contamination from dead or falling insects. Remove or cover milk bottom before application. Wash teats of animals before milking.
- Do not mix with any other material or spray product unless directed by the manufacturer.
- Do not use in misted release systems or in outdoor misting systems.
- Do not use near fish tanks or other aquatic habitats.
- **Not for use in animal release systems or in outdoor misting systems.**
- Do not use on or near food and drinking water before application. Remove or cover food, utensils, food processing equipment, and food contact surfaces, or wash the First before use.
- Do not make spray applications when facility is in operation.
- Prior to space spray applications, cover or remove food.
- Prior to space spray applications, cover food processing surfaces or clean after treatment and before use.
- Do not use aerosol can near electrical appliances.

**SHAKE BEFORE USING AND AT INTERVALS DURING PROLONGED USE,**

**HOLD container upright with nozzle away from you.**

**Press valve down and spray as directed.**

**To avoid possible staining of fabrics or surfaces, do not spray at close range.**

**Flies, Mosquitoes, Gnats, Wasps and Flying Moths (Insecticides):** Close all doors and windows and spray room at the rate of 1 second per 100 cubic feet. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep power in constant motion. Keep room closed for 10 to 15 minutes after treatment.

**Roaches, Waterbugs, Silverfish, Crickets, Spiders, Centipedes, and Sowbugs:** Spray into hiding places such as crevices and cracks. Below sinks, closets, and under boards and floors around drains and plumbing, and in areas with spray wherever possible.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible.

**Indian Meal Moths and Angoumois Grain Moths:** Close doors and windows. Direct spray into all parts of room especially around food container products, cabinets and pantry areas. Spray 7 to 10 seconds for each 100 cubic feet of space. Keep area closed for 15 minutes following treatment.

**Leaves:** Spray plants, batters, mattresses, furniture, floors, carpeting, and laundry. First spray an inconspicuous area to test for possible staining or discoloration. Inspect after drying, then proceed to spray entire area to be treated. Hold can upright with nozzle away from you. Press button and spray surface to be treated from a distance of 10 inches. Spray each square foot for 3 seconds, directing spray into all infested surfaces until moist.

**Bedding:** Make sure bed is spread out and then apply. Spray in corners of fitted sheets and blankets as well as inside and outside of pillow cases. In the case of pet animals and head lice, close attention should be given to the skin, gums, hair, and collars, and necks. After treatment, treatment and all pets must be either laundered in hot water or only cleaned as required. For mattresses, furniture, and carpeting, direct spray into all folds, tucks, seams, and crevices of infested areas until moist.

**Bedrooms:** Spray mattresses, particularly around tufts and seams. Then spray areas and spray into all joints. Treat baseboards, moldings, and frames.

**Notice:** The consumer is responsible for safety and use not in accordance with directions.

---

**FIRST AID:**

**IF SWALLOWED:** Immediate call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

**NOTICE:** Number the product container label with the following information when calling a poison control center or doctor. For further information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-205-8265.

**TO PHYSICIAN:**

Contains petroleum distillate — vomiting may cause aspiration pneumonia.

---

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** If swallowed, avoid contact with skin or clothing. Wear long-sleeved shirt, long pants, and socks.

**PERSONAL PROTECTIVE EQUIPMENT (PPE) Applicators and other handlers must wear:**
- Long-sleeved shirt
- Long pants
- Closed shoes with socks

**User Safety Requirements:**

- Follow label instructions for cleaning/maintaining PPE. If there are no such instructions for washable PPE, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

**User Safety Recommendations:**

- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove PPE immediately after handling product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**PHYSICAL OR CHEMICAL HAZARDS:**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

---

**STORAGE AND DISPOSAL:**

- Do not contaminate water, food or feed by storage or disposal.
- Pesticide Storage: Store in a cool, dry area away from heat or open flame. Do not transport or store below 32°F. Protect from freezing. Pesticide Disposal and Container Handling: Do not Puncture or Incinerate. If empty: Place in trash or offer for recycling if available. This container may be recycled in aerosol recycling centers. This product is not available in only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.
- If partly filled: Call your local solid waste agency for disposal instructions.
