APPLICATION INSTRUCTIONS
1. Apply early in the morning under sunny, calm conditions.
2. Measure the pH of water before adding pond boss Algaesolv™. If pH is below 7.0, adjust the water pH by between 7.0 and 8.0.
3. Add one - two teaspoons per 50 gallons of pond/fountain water. Distribute recommended dose as evenly as possible to several areas around the pond/fountain so product evenly disperses throughout the pond/fountain. pond boss Algaesolv™ may also be mixed in a bucket of pond/fountain water and evenly distributed around the pond or fountain.
4. Do not shut off pumps or aerate device/; application must be continuous during treatment for 48 hours.
5. Repeat dose every 3 days until algae is under control. Once algae is controlled, apply dose once a week.

Removing excessive algae growth from pond/fountain will reduce the amount of decaying organic matter in the pond.
