Disinfecting/Deodorizing/Cleaning Wipes

FOR USE ON ENVIRONMENTAL SURFACES

ACTIVE INGREDIENTS:
- Vinidex (60% C14, 30% C16, 5% C12, 3% C18, 0.12%)
- Directly and Ammonium Chloride
- Ethanol (30% C12, 32% C14, 0.12%)
- Directly and Ammonium Oxide
- Isopropyl Alcohol
- Isopropyl Alcohol

OTHER INGREDIENTS: 58.18% (+) Does not include weight of dry wipe

TOTAL: 100.00%

KEEP OUT OF REACH OF CHILDREN

WARNING

DO NOT USE AS A BABY WIPES

See back panel for additional precautionary statements.

A non-woven disposable cloth containing a stable, low pH formulated disinfectant and deodorant for use on hard, non-porous surfaces where control of cross-contamination is required.

NET CONTENTS: 160 Pre-saturated Wipes (6x6.75 in)

NET WEIGHT: 1 lb, 10 oz.

23° Disinfecting/Deodorizing/Cleaning Wipes are effective against the following pathogens in 2 minutes at 20°C/68°F, on hard, non-porous surfaces when used as directed:

- Staphylococcus aureus
- Pseudomonas aeruginosa
- Salmonella enterica
- Mycobacterium tuberculosis
- Escherichia coli 0157:H7
- Human Hepatitis A virus
- Human Hepatitis B virus
- Human Hepatitis C virus

23° Disinfecting/Deodorizing/Cleaning Wipes are effective against the following pathogens in 5 minutes at 20°C/68°F, on hard, non-porous surfaces when used as directed:

Trichophyton mentagrophytes (Athlete’s foot fungus)

Areas of Use:
- Hospital
- Intensive care units
- Ambulances
- Newborn nursery
- Orthopedics
- Patient rooms
- Medical offices
- Dental offices
- Veterinary facilities
- Janitorial

Other medical facilities: emergency medical services, surgery, emergency rooms, anesthesia, recovery, respiratory therapy, X-ray, health care, laboratories, clinics, sickrooms, bathrooms, kitchens, other similar areas, musk closets

PREPARATION OF DISPENSER: Remove cover from canister and discard covering seal. From center of wipes roll, pull up a wipe corner, twist into a point and thread through the tear throat in the underside of the lid cover. Pull wipe through about one (1) inch. Replace the lid cover on container, assuring a secure fit. Pull outlet only and snap at a 90° angle. Remaining wipes feed automatically for next use. Always resell hinged cap after each use to ensure moisture retention.

DIRECTIONS FOR USE: It is a violation of U.S. Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. This product is not for use on the inhalation therapy and/or pulmonary diagnostic equipment.

DISINFECTION: Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe, keep wet for 2 minutes (5 minutes if fungus is suspected), and allow to air dry. Use as many wipes as needed for the treated surface to remain wet for the entire contact time. For use as a general disinfectant wipe on hard, non-porous, inanimate surfaces such as:

- Stainless steel
- Exam tables
- Chart racks
- Razor blades
- Wheelchairs
- Waste baskets
- Sinks
- Light fixtures
- Etc.

Equipment and surfaces operating room hard surfaces

Etc.

You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on contact surfaces, must be followed by a potable water rinse.

Reorder No. [3738-967]

04/0/11
DEODORIZING: Wipe hard, non-porous surface thoroughly to eliminate odors from bathrooms, areas, odors, urine, burns, smoke, mildew and mold, decay, stale air, tobacco, sickrooms and musty closets.  

CLEANING: To clean surfaces, wipe thoroughly with a fresh wipe, which may be used to deodorize at the same time as cleaning. When used to clean a hard non-porous surface prior to disinfection, a second wipe must be used for disinfection.

THE ACTIVITY OF "Z™ DISINFECTING/DEODORIZING/CLEANING WIPES AGAINST THE HIV-1 (AIDS VIRUS):"  
"Z™" Disinfecting/Deodorizing/Cleaning Wipes completely inactivate the HIV-1 (AIDS virus) on hard, non-porous surfaces when used at a contact time of 1 minute at room temperature (CIP 20°C).  
"Z™" Disinfecting/Deodorizing/Cleaning Wipes kill HIV-1 on pre-cleaned environmental surfaces or objects soiled with blood/other body fluids, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces or objects with blood or body fluids, and in which the surface/object is likely to be soiled with blood or other body fluids, and can be associated with the potential for transmission of human immunodeficiency virus (HIV-1) (associated with AIDS).  

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HUV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:  
Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable gloves, masks, and eye protection. Cleaning Procedure: Blood and other body fluids must be thoroughly cleansed from surfaces and objects before application of "Z™ Disinfecting/Deodorizing/Cleaning Wipes.

Contact Time: HIV-1 virus is inactivated in 1 minute. However, other pathogens require 5 minutes exposure for complete kill. See disinfection directions.

Disposal of Interim Materials: Materials that may contain blood or other body fluids should be placed in a sealed container and disposed of according to federal, state and local regulations for infectious waste disposal.

160 PRE-SATURATED WIPES (6 x 6.75"
1 lb. 10 oz.

Made in USA [3738-967]

STORAGE AND DISPOSAL:
Store in cool area. Keep away from heat or open flame. Do not reuse wipes. Dispose of used wipe in trash. Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available.

PRECAUTIONARY STATEMENTS:
Hazards to Humans and Domestic Animals
WARNING: Causes substantial, but temporary eye injury. Do not get in eyes or on clothing. Wear (specific appropriate protective eyewear such as goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wear disposable latex gloves, gowns, masks and eye coverings, when handling HIV-1 infected blood or body fluids. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

FIRST AID: Hold eye open and rinse slowly and gently with water for at least 15 - 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. If on skin: Take off contaminated clothing. Rinse skin with soap and water. If on clothing: Take off contaminated clothing. Rinse clothing before use. Wash clothes separately to avoid transfer of contamination. If on clothing: Take off contaminated clothing. Rinse clothing before use. Wash contaminated clothing before reuse. WASH THOROUGHLY AFTER HANDLING WIPES.
