BARBICIDE® Spacide® Complete is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing and disinfection for hospitals, nursing homes, households, homes, private residences, schools, food processing plants, food service establishments, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail business, athletic/recreation facilities, sports stadiums, amphitheaters and convention centers where housekeeping is of prime importance in controlling cross-contamination from treated surfaces.

BARBICIDE® Spacide® Complete is a one step neutral disinfectant that is effective against a broad spectrum of bacteria, is virucidal (including HIV-1, HIV-2, HBV and HCV) and inhibits the growth of mold and mildew and their odors when used as directed.

BARBICIDE® Spacide® Complete, when used as directed, is formulated to disinfect the following hard non-porous inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs and cabinets.

- Non-food contact glass, metal, stainless steel, glazed porcelain, glazed ceramic, sealed fiberglass, sealed granite, sealed marble, plastic, porcelain and vinyl.
- Tables, chairs, desks, bed frames, walls, cabinets, doorknobs and garbage cans.
- Telephones.
- Non-food contact counter tops, sinks, refrigerators exterior, coolers, freezer exterior, cooktops, appliances, non-food contact equipment, shelves, racks and carts.
- Shower stalls, shower doors and curtains, tubs and glazed tiles, toilets, urinals, porcelain tile and restroom fixtures.
- Kennels and cages.
- Windows and mirrors.
- For larger areas such as operating rooms and patient care facilities, BARBICIDE® Spacide® Complete is designed to provide both general cleaning and disinfecting.

BARBICIDE® Spacide® Complete is a rinse neutral pH disinfectant cleaner that disinfects, cleans and deodorizes in one labor-saving step.

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

See side panel for additional precautionary statements.

Alkyl (50% C10, 40% C11, 10% C12) dimethyl benzyl ammonium chloride .......... 4.339%
INERT INGREDIENTS ................................ 89.150%
Total .............................................. 100.000%

NET CONTENTS: 1 GALLON (3.785 L)
Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. BARRICIDE® Spacide® Complete is not for use on critical and semi-critical medical-devices.

**DISINFECTION** - To disinfect inanimate, hard non-porous surfaces add 1 ounce of BARRICIDE® Spacide® Complete per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For spray applications, spray 6-8 inches from surface; rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required.

**BACTERIAL STABILITY OF USE-SOLUTION** - Tests confirm that BARRICIDE® Spacide® Complete when diluted at 1% solution will remain effective against Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella enterica subs. enterica serotype choleraesuis for up to 30 days in the stored unopened container; a spray bottle at room temperature. If BARRICIDE® Spacide® Complete becomes visibly dirty or contaminated, the use-solution must be discarded and fresh use-solution prepared. Always use clean, properly labeled bottles when diluting BARRICIDE® Spacide® Complete. Bacterial-stability of the use-solution does not apply to open containers such as buckets or pails.

To DISINFECT TOILET BOWLS - Remove gross film or soff from surfaces with brush. Add 1 ounce of BARRICIDE® Spacide® Complete to the bowl water. Brush or scrub the bowl completely using a scrub brush or toilet kit making sure to get the rim. Let stand for 10 minutes and flush.

**BACTERIAL ACTIVITY** - At 1% solution per gallon dilution, BARRICIDE® Spacide® Complete demonstrates effective disinfectant activity against the organisms: Pseudomonas aeruginosa, Salmonella enterica subs. enterica serotype choleraesuis, Staphylococcus aureus, Staphylococcus aureus (clinical isolate), Bordella bronchiseptica, Clostridium perfringens, Escherichia coli and Pseudomonas aeruginosa. For good hygiene, I recommend 2% solution to be used in large quantities of water.

**MURINE ACTIVITY - BARRICIDE® Spacide® Complete**

When used on environmental, inanimate, hard, non-porous surfaces exhibits effective virucidal activity against HPAI, H9N2, Hepatitis B virus (HBV), Hepatitis C virus (HCV), Herpes Simplex Type 1 (cautious agent of fever blisters), Herpes Simplex Type 2 (genital), Influenza A/Hong Kong, Varicella Zoster (Human Coxsackia A16) and Nipah Virus (H2V2), Lassa Fever (Lassa fever), Rabies Virus (Rabies virus), SARS associated Coronavirus, Bovine Viral Diarrhea Virus (BVDV), Poxviruses, Bovine Rhinotracheitis, Filoviruses, Leptospirosis, Filoviruses, Coronaviruses, Avian Influenza A Virus, Canine Distemper Virus, Rabies Virus, Paramyxoviruses (Paro) and Porcine Respiratory & Reproductive Syndrome Virus (PRRSV).

**Kills** Pandemic 2009 H1N1 influenza A virus (formerly called swine flu). Add 1 ounce of the product per gallon of water.

For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, mop, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid.

KILLS HW-1, HW-2, HW-7, H1N1 and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care setting facilities (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling from inanimate surface objects with blood or body fluids, and in which the surface objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV) and/or Hepatitis B Virus (HBV) and/or Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST H1N1, HW-1, HW-2, HCV and HCV on SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**PERSONAL PROTECTION** - When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES - Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

**CONTACT TIME** - Allow surface to remain wet for 10 minutes.

**DISPERSION OF INFECTION MATERIAL** - Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

**EFFICACY TESTS HAVE DEMONSTRATED THAT THIS PRODUCT IS AN EFFECTIVE BACICICIDE AND VIRUCICIDE AGAINST THE LISTED ORGANISM IN WATER UP TO 1000 HPM INHIBITION AS (HCV) IN THE PRESENCE OF ORGANIC SOIL. (3% BLOOD SPERM, THIS PRODUCT IS AN EFFECTIVE FONGICIDE AGAINST THE LISTED FUNGI IN WATER UP TO 1000 HPM INHIBITION IN THE PRESENCE OF ORGANIC SOIL) (3% BLOOD SPERM).**

**Detergents of Hard Non-Porous Surfaces in Whitewash Shells** - After using the whitewash shells, drain and refill with fresh water to just cover the inlet valve. Add 1 ounce of BARRICIDE® Spacide® Complete for each gallon of fresh water added. Start the pump to circulate the solution. Wash down the unit sides, seat of the chair, lift and any/all related equipment with a clean sweep, brush or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly cleaned, drain the solution from the unit and rinse any/all cleaned surfaces with fresh water. Repeat for heavy soiled units.

**ULTRASOUND BATH Disinfectant Directions:** Use BARRICIDE® Spacide® Complete to disinfect hard non-porous non-metallic objects compatible with ultrasonic cleaning units. Pour fresh solution at 1 ounce of BARRICIDE® Spacide® Complete per gallon of water directly into bath. Pre-clean heavily soiled objects. Place objects into unit and operate for a minimum of 10 minutes, according to the manufacturer’s directions. Remove objects and wash with sterile water or allow to air dry. Prepare fresh solution for each use.

**VETERINARY PRAC-TICE: Animal Care Laboratory/Dent/Pet Shop/Kennel Disinfection Directions:** For cleaning and disinfecting the following hard non-porous surfaces: equipment not used for animal food or water, stools, instruments, cages, kennels, stools, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all feed and remove manure from floors, walls and surfaces occupied or traversed by animals. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 1% spcide® Complete per gallon of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

**MILDEWSTAIN** - To control mold and mildew (Aspergillus niger) and the colors they cause on pre-cleaned, hard, non-porous inanimate surfaces and 1 ounce of BARRICIDE® Spacide® Complete per gallon of water. Apply solution with a cloth, mop, sponge or hand pump trigger sprayer making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth appears.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

**DANGER**

Keep out of reach of children. Poisonous. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if absorbed through skin. Harmful if swallowed. Wear goggles or face shield, rubber gloves and protective clothing. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

---

**Storage & Disposal

Do not Contaminate Water, Food, or Feed by Storage or Disposal.

**PESTICIDE STORAGE** - Store in a dry area no lower in temperature than 70°F or higher than 120°F.

**CONTAINER DISPOSAL** - Non-refillable containers. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a safe area from any, or by incineration, or if followed by state and local authorities, by burning. If burned, small size of smoke. Once rinse container properly after employing. Rinse once or more before final contents into application equipment or as mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and ease. Shake for 10 seconds. Pour residue into application equipment or a mix tank or store residue for later size or disposal. Drain for 5 seconds after the flow begins to drip. Repeat this procedure two times more.

**PESTICIDE DISPOSAL** - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, even mixture or residue is a violation of Federal Law. These wastes cannot be disposed of by use according to labeled instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
