ENVIRONMENTAL HAZARDS
This product has low solubility in water. At the limits of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

If material is spilled: Contain and sweep up material of spill for disposal or use per label instructions. Wash cleanup equipment to prevent contamination elsewhere. Excess quantities above normal application rates could result in damage to plants subject to spill. Water in remainder, disc under, cover with layer of soil, or leave exposed to sunlight, as deemed appropriate to the situation.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in original container away from other fertilizer, feed, or food stuffs and separated from other pesticides.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordinances.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is a selective preemergence herbicide that provides residual control of many grass and broadleaf weeds in:

- established turf grasses (excluding golf course putting greens) and lawns
- landscape ornamentals (including established perennials & wildflower plantings)
- Covers up to 16,390 square feet

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye injury (irritation). Hazardful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water for treatment.

FIRST AID

In eyes:
- Hold eye open and rinse slowly and gently with water for 15 – 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment.

If on skin or clothing:
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment.

If inhaled:
- More severe symptoms:
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

</table>

For use on established annual bluegrasses and perennial ryegrasses, this product may be applied at rates of 0.025 to 0.05 lbs/A to control annual bluegrass, annual ryegrass, or bentgrass. Rates of this product for the control of annual bluegrass, annual ryegrass, or bentgrass are shown in the following table. Do not apply this product to newly transplanted ornamentals as a broadcast, over the top, or directed application. Irrigation or rainfall soon after application will wash residues of plant foliage and activate this product in the soil.

**Use Precautions**

The following precautions apply to the use of this product in turf grasses and lawns. Application of this product may thin emerging annual bluegrasses and newly overseeded grasses.

Do not apply to overseeded turf within 60 days after seeding or until the second mowing, whichever is longer. In order to desiccate seeds, it is likely if this product is applied before seeding secondary roots are in the second inch of soil, not thatch plus soil. Do not cut (harvest) treated soil before 120 days after application. Do not apply to newly set sod until the following year. Application of this turf to stressed by drought, low fertility, or pest damage may result in turf injury.

Disturbing the herbicide barrier with cultural practices such as disking may result in reduced weed control. This product may not be applied to putting greens or areas where dichondra, colonial bentgrass, velvet bentgrasses, or annual bluegrass (Poa annua) are desirable species.

**Rates of Application**

The product may be applied as a single application or in sequential applications to control weeds germinating throughout the year. All applications must be made prior to germination of the target weed. This product will not control established weeds.

Maximum use rate selection should be based on turf species. The length of time of residual weed control provided by this product is related to the rate applied.

**Maximum Annual Rates**

This product is recommended for use on the turf grass species listed in the following table. Do not exceed the maximum yearly rate as given in the following table:

<table>
<thead>
<tr>
<th>Product</th>
<th>Rate (lb/A)</th>
<th>Months Before Overseeding</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

**Use Rates**

Apply this product at 175 to 400 lbs/A in fall and/or spring. Use higher rates of application for longer control periods. Sequential or single applications are allowed so long as the total amount of product applied does not exceed the maximum annual application rate of 400 lbs/A.

**Application Timing and Information**

The product as a preemergence herbicide and will not control emerged weeds. Most effective weed control in ornamentals will be obtained when this product is applied at least by 0.5 inches of rainfall or irrigation, or shallower (1 to 2 inches) mechanical incorporation, prior to weed seed germination and within 14 days following application.

Best weed control is obtained when this product is applied to soil free of clods, weeds, and debris such as leaves. Prior to application of this product, control existing vegetation by hand weeding, cultivation, or the use of an appropriate postemergence herbicide.

**Established Landscape Ornamentals**

This product may be applied to established ornamentals as a broadcast, over the top, or directed application. Irrigation or rainfall soon after application will wash residues of plant foliage and activate this product in the soil.

**Newly Transplanted Landscape Ornamentals**

This product may be applied to newly transplanted ornamentals as a broadcast, over the top, or directed application. Delay application to allow soil to settle around new transplants and water thoroughly before applying this product. Apply this product after cuttings form roots and become established. Apply before budding/fratting or after bud/flowers have taken to avoid any inhibition of the tissue union.

**Tolerant Ornamental Species**

This product will not harm most trees, shrubs, vines and flowers. Best results will be obtained when this product is uniformly applied to the soil surface, avoid applying to ornamental shoots which may defoliate this product to get uniform distribution on the soil surface. This product may be applied over the top of species. When plants are under stress (such as heat, drought, or frost damage) some cultivars of plants may be sensitive to this product.

Do not use on container grown plants.

**Conditions of Sale and Limitation of Warranty and Liability**

Before buying or using this product, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranties and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate risks inherently associated with the use of this product. Crops or other plantings, effectiveness, or other unanticipated consequences may result from such risks as weather or crop conditions, misuse with other chemicals not specifically identified in this product label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the particular uses set forth in the Directions for Use when the product is used in strict accordance with such Directions for Use under normal conditions of use. EXCEPT AS WARRANTED IN THIS LABEL AND TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THIS PRODUCT IS SOLD "AS IS" AND LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ELIGIBILITY OF THIS PRODUCT FOR ANY PARTICULAR TRADE USAGE.

None of these limitations are intended to limit applicable rights under the Uniform Commercial Code. In the unlikely event that Buyer or User believes that Loveland Products, Inc. has breached a warranty contained in this label and to the extent required by applicable law, Buyer or User shall send written notice of its claim to the following address: Loveland Products, Inc., Attention: Law Department, P.O. Box 1286, Greeley, CO 80632-1286.

LIMITED LIABILITY. To the extent consistent with applicable law, the Buyers or Users exclusive remedy for any injury, loss, or damage resulting from the handling or use of this product, including but not limited to claims of breach of warranty or contract, negligence, strict liability, or other torts, shall be limited to one of the following: (a) the actual loss for which the Seller shall be liable to the Buyer or User of this product for any consequential, special, or indirect damages, or damages in the nature of a penalty.
