**First Aid**

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- DO NOT induce vomiting unless told to by a poison control center or doctor.
- DO NOT give anything to an unconscious person.

**HOTLINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor for treatment.

You may also contact Monsanto Company for emergency medical treatment information: 1-314-694-4000

---

**Precautionary Statements**

**Hazard to Humans and Domestic Animals**

**CAUTION.** Harmful if swallowed.

**Personal Protective Equipment (PPE)**

All materials that are chemically resistant to this product are listed below. For more options, refer to Category A on an EPA chemical-resistance category selection chart.

**Applicators and other handlers must wear:**
- **Long-sleeved shirt and long pants**
- **Gloves**
- **Shoe plus socks**

Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**User Safety Recommendations**

Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

---

**Environmental Hazards**

This pesticide is toxic to fish. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. DO NOT contaminate water when disposing of equipment washwaters or rinsates.

DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. DO NOT discharge effluent containing this product to sewage systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or the regional office of the EPA. DO NOT contaminate water when disposing of equipment washwaters.

---

**Directions For Use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

---

**Storage and Disposal**

DO NOT contaminate water, food, or feed by storage for disposal.

**Pesticide Storage:** Store in original containers only. Keep container closed when not in use. DO NOT store near food or feed.

**Pesticide Disposal:** Wastes resulting from using this product may be disposed of on-site or as an approved waste disposal facility. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

**Container Handling: Nonrefillable Container. DO NOT reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying: then offer for recycling, if available, or reconditioning, if appropriate, or purging and dispose of in a sanitary landfill, or by incineration, or by other procedures approved by state and local authorities.**

**Triple rinse containers small enough to shake (capacity ≤ 5 gallons) as follows:** Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank, or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

---

**Pressure rinse as follows:** Empty the remaining contents into application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank, or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

---

**In Case of Emergency**

In case of large-scale spillage regarding this product, call:
- CHEMTREC 1-800-424-9300
- Monsanto Company 1-314-694-4000

In case of medical emergency regarding this product, call:
- Your local doctor for immediate treatment
- Your local poison control center (hospital)
- Monsanto Company 1-314-694-4000

Steps to be taken in case material is released or spilled:
- In case of spill on floor or paved surfaces, mop and remove to chemical waste storage area until proper disposal can be made if product cannot be used according to label.
- Dike and contain the spill with inert material (sand, earth, etc.) and transfer liquid and solid digested material to separate containers for disposal.
- Remove contaminated clothing and wash affected skin areas with soap and water.
- Wash clothing before reuse.
- Keep the spill out of all sewers and open bodies of water.
Product Information

Acceleron® DX-612 Fungicide Seed Treatment is a broad-spectrum fungicide that provides preventive seed and seedling protection from several seed and soilborne diseases. Make all applications according to the use directions in this label. Use the higher rates of Acceleron® DX-612 Fungicide Seed Treatment when disease pressure is expected to be high.

Resistance Management

Fluxapyroxad, the active ingredient of Acceleron® DX-612 Fungicide Seed Treatment, belongs to the group of resistance inhibitors classified by the U.S. EPA and Canada PMRA as a target site of action. Due to the minimal amounts of Acceleron® DX-612 Fungicide Seed Treatment applied to the seed, the potential for development of resistance is low. Seed treatments of Acceleron® DX-612 Fungicide Seed Treatment, therefore, can be followed by foliar use, and resistance management guidelines for foliar use fungicides containing fluxapyroxad as specified on the respective labels should be followed.

Application Instructions

For use at commercial treatment facilities. Not for use on farm.

Apply Acceleron® DX-612 Fungicide Seed Treatment as a water-based mixture using standard sprayer or mist-type seed treatment application equipment. The exact amount of water needed to provide the mixture or slurry rate (mL/100 kg or oz/100 lb of seed) for optimum coverage is difficult to predict because weather conditions (hot or cold), seed type and surface, and equipment used all have a bearing on coverage. Consult a seed treatment specialist regarding slurry rates recommended for the crop seed to be treated with Acceleron® DX-612 Fungicide Seed Treatment. The required amount of Acceleron® DX-612 Fungicide Seed Treatment must then be diluted with the specified amount of water that will provide uniform and complete coverage on the seed surface. Uniform application on seed and complete seed coverage are necessary for seed safety and best disease protection. Seed must be of a good quality and well cleaned prior to treatment.

The purchaser of Acceleron® DX-612 Fungicide Seed Treatment is responsible for ensuring that all seed treated with this product are adequately dried with a suitable color to prevent accidental use as food for man or feed for animals. Refer to 21CFR, Part 225. Use an EPA-approved dye or colorant that imparts an unnatural color to the seed. Any dye or colorant added to treated seed must be cleared for use under 40CFR, Part 180.900, “Exemptions from the requirement of a tolerance”, Federal regulations have established official tolerances or exemptions from tolerances for residues on food and forage crops that must not be exceeded when the product dye or colorant) is used at specified rates.

Consult the seed treatment specialist for calibration and operation procedures of the seed treatment equipment being used. Mechanical agitation is required for proper mixing of Acceleron® DX-612 Fungicide Seed Treatment. Prepare no more mixture of Acceleron® DX-612 Fungicide Seed Treatment than is needed for immediate treating. Add 3/4 of the required volume of water to the mix tank. With agitation running, add the required amount of Acceleron® DX-612 Fungicide Seed Treatment in the tank, along with other seed treatment components. Add the remaining 1/4 amount of the required volume of water. Use the mixing sequence that follows. Agitate thoroughly before and during application.

Acceleron® DX-612 Fungicide Seed Treatment With Tank Mix Partners

Acceleron® DX-612 Fungicide Seed Treatment mixes easily with water and other water based seed treatments. When using Acceleron® DX-612 Fungicide Seed Treatment in a tank mixture with seed treatment products, observe all directions for use, crops/sites, use rates, dilution ratios, precautions, and limitations that appear on the tank mix partner label. Label dosage or application rate must not be exceeded, and the most restrictive label precautions and limitations must be followed. Acceleron® DX-612 Fungicide Seed Treatment must not be mixed with any product that prohibits such mixing. All applications must be made according to the use directions.

When mixing Acceleron® DX-612 Fungicide Seed Treatment with seed treatment products, test the compatibility prior to use by conducting a jar test as follows:

1. Mix all intended seed treatments with the appropriate amount of water in a clear glass container.
2. Mix well and allow to sit for 1 hour.
3. Remix and observe for incompatibility.

Physical compatibility is only part of compatibility. Testing also needs to be done with the seed to make sure the combination of products does not have detrimental effects on the seed.

Tank Mixing Instructions

1. Add 3/4 of the required amount of water to the mix tank and turn on the agitation. Mechanical agitation is preferred.
2. Use the following mixing sequence: dye or colorant, wettable powders, soluble powders, flowable formulations, emulsifiable concentrates, and remaining 1/4 of the required water. The 1/4 of the required water as the last item for addition to the premix tank can be used as rinseate for the chemical container or to adjust the total slurry to compensate for water displacement by powdered products.

SEED LABELING NOTE: Federal law requires that bags of treated seed shall be labeled with the following statement: “This seed has been treated Acceleron® DX-612 Fungicide Seed Treatment containing fluxapyroxad. DO NOT use for food, feed or food purposes. Store away from food and feedstuffs.”

The seed label should also include the following statement: “Excess treated seed may be used for ethanol production only if (1) by-products are not used for livestock feed and (2) no measurable residues of pesticide remain in ethanol by-products that are used in agronomic practice.”
**Product Information:**

**Product Name:** ACCELERON DX-612

**Description:** Fungicide Seed Treatment

**Active Ingredients:**
- Fludioxonil
- Methoxyfenozide

**Other Ingredients:**

**EPA Registration Information:**
- EPA Reg. No.: 7869-308-024
- EPA Est. No.: 51036-GA-001

**Labeling:**

**Warning Statements:**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION/PRECAUCION**

**Precautionary Statements:**

- **First Aid:** For accidental exposure, consult a physician.
- **Precautionary Statements:** Keep out of the reach of children.

**Directions for Use:**

- **Storage and Disposal:** Keep container closed when not in use.
- **Recycling:** This product is recyclable.

**Handling and Storage:**

- **Physical Properties:**
  - Color: Brown
  - Odor: None
  - Specific Gravity: 1.3

**Compatibility:**

- **Compatibility with Water:** Good
- **Compatibility with Soil:** Good

**Environmental Hazards:**

- **Solubility:** Insoluble in water
- **Biodegradability:** Naturally biodegradable

**Chemical Properties:**

- **Flammability:** Not flammable
- **Reactivity:** Stable

**Precautions for Safe Handling:**

- **Handling:** Wear protective clothing when handling this product.
- **Storage:** Store in a cool, dry place.

**Transport:**

- **Danger:** Keep out of reach of children.
- **Precaution:** Do not transport near water bodies.

**Emergency Response:**

- **Emergency Contact:** Call 1-314-694-4000 for emergency assistance.

**Product Information:**

- **Net Contents:** 1.5 gallons
- **Packaged For:** Monsanto Company
- **Date Code:** 06/2013

**Regulatory Information:**

- **Registration Date:** 06/28/1985
- **EPA Registration Number:** 7869-308-024
- **EPA Est. No.:** 51036-GA-001

Fungicide Seed Treatment

Active Ingredient:
fludioxonil*; 1H-Furyzo-4-carboxamido, 3-(5-fluoromethyl)-1-methyl
-N-(3 ',4',5-trifluor)[1,1'-biphenyl]-2-yl........................................ 28.70%
Other Ingredients: ................................................................. 71.30%
Total: ............................................................................. 100.00%
*Equivalent to 2.72 pounds of active ingredient per gallon

KEEP OUT OF REACH OF CHILDREN
CAUTION/PRECAUCIÓN
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Precautionary Statements

Hazard to Humans and Domestic Animals
Caution: Harmful if swallowed.

Personal Protective Equipment (PPE): Some materials that are chemically resistant to this product are listed below. For more options, refer to Category A on an EPA chemical-resistance category selection chart.

Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Shoes plus socks
Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID
IF SWALLOWED
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• DO NOT induce vomiting unless told to by a poison control center or doctor.
• DO NOT give anything to an unconscious person.

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor for treatment advice.
You may also contact Monsanto Company for emergency medical treatment information: 1-314-694-4000

User Safety Recommendations

Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on cleaning clothes.
• Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards
This pesticide is toxic to fish. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. DO NOT contaminate water when disposing of equipment washwaters or rinseate.

DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. DO NOT discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or the regional office of the EPA. DO NOT contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

Storage and Disposal

DO NOT contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in original containers only. Keep container closed when not in use. DO NOT store near food or feed.

Pesticide Disposal: Wastes resulting from using this product may be disposed of on-site or at an approved waste disposal facility. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable Container. DO NOT reuse or refill this container. Clean rinse containers (except aluminum) thoroughly by rinsing with water to remove all traces of pesticide. Rinse container and place in a covered, noncombustible receptacle. Keep out of the reach of children. EXPLORE REUSE OPTIONS. They also have value for other uses. For reuse, instructions may be required. Old container or packaging must not be used to handle or store another product.

In Case of Emergency

In case of large-scale spillage regarding this product, call:
• CHEMTREC 1-800-424-9300
• Monsanto Company 1-314-694-4000

In case of medical emergency regarding this product, call:
• Your local doctor for immediate treatment
• Your local poison control center (hospital)
• Monsanto Company 1-314-694-4000

Steps to be taken in case material is released or spilled:
• In case of spill on floor or paved surfa, mop and remove to chemical waste storage area until proper disposal can be made. If product cannot be used according to label.
• Discontinue and contain the spill with inert material (sand, earth, etc.) and transfer liquid and solid dating material to separate containers for disposal.
• Remove contaminated clothing and wash affected skin areas with soap and water.
• Wash clothing before reuse.
• Keep the spill out of all sewers and open bodies of water.
