Agion® Silver Copper Type AC

A preservative and bacteriostatic agent for use in the manufacture of polymer, plastic, latex products. For commercial and industrial use only.

Active Ingredient:
Silver 3.5 %
Copper 6.1 %
Other Ingredients 90.4 %
Total 100.0 %

KEEP OUT OF REACH OF CHILDREN

CAUTION
SEE INSERT LABEL FOR PRECAUTIONARY STATEMENTS

Manufactured for: Sciessent LLC
60 Audubon Rd
Wakefield, MA 01880

EPA Registration No. 71227-7-88165
EPA Establishment No. 88165-MA-001

Net Wt. XXXX Lot No. XXXXXXXXX

NSF®
Standard 51 Listed
Nonfood Compounds Program Listed PX
Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For all uses listed*:

* Do not incorporate this product into any food contact polymer unless the subject food contact polymer is approved and listed in 21 CFR, Parts 174 through 186 (inclusive), or in the United States Food and Drug Administration’s “Food Contact Substance Notification System.” Any incorporation of this product into an approved and listed food contact polymer must comply with the specific use conditions listed in 21 CFR, Parts 174 through 186 (inclusive), or in the United States Food and Drug Administration’s “Food Contact Substance Notification System,” for such food contact polymer. Any incorporation of this product into any food contact substance (including but not limited to non-polymer substances) other than an approved and listed food contact polymer is prohibited.

* For applications involving direct or indirect food or human drinking water contact, Agion® Silver Copper Antimicrobial Type AC must be used with an FDA approved polymer or coating. Non-food and non-drinking water contact applications can use either FDA or non-FDA approved coatings.

* This product may be used for the following human drinking water contact uses:
  - water filter components and housing units
  - water bottle dispensers and components
  - water dispensers
  - ice machine trays
  - ice machine bins
  - ice machine water hoses
  - ice dispensers and other ice machine components
  - water bottles
  - cups
  - water storage vessels

* This product may be incorporated into food and water bowls, dishes and other containers used by domestic animals. Do not use for any food or drinking water applications involving non-domestic animals.

* Agion® Silver Copper Antimicrobial Type AC. is an antimicrobial additive to be used by compounding into many polymeric materials. It is designed to be incorporated during the manufacturing process to impart antimicrobial activity to the manufactured products. Agion® Silver Copper Antimicrobial Type AC suppresses the growth of algae, mold, mildew, fungi and bacteria which cause unpleasant odors, discoloration, staining, deterioration or corrosion only. No finished product incorporating Agion® Silver Copper Antimicrobial Type AC may make any public health claims relating to antimicrobial activity without first obtaining an EPA registration for the finished product which permits such claims. When incorporated into treated articles, this product does not protect users of any such treated article or others against food borne or disease causing bacteria, viruses, germs or other disease causing organisms.
Types of Finished Products

Plastics - including films, sheets, slabs, and molded plastic parts

The additive may be incorporated into the finished product at up to 5.0% by weight or at least 0.3% for bulk plastics. Contact Sciecessent LLC to determine the appropriate amount of Agion® Silver Copper Antimicrobial Type AC for individual finished products.

Food contact* and non-food contact uses (in all food contact cases, when the article itself is a FDA-approved polymer):
Packaging
gaskets
general purpose containers
food and drink containers
food trays and covers
sponges
tubing
brush bristles (including personal care grooming items, toothbrushes), and cosmetic brushes
liners
non-woven fabrics,
plastic sheeting for construction and agricultural applications
appliances and equipment
kitchen and food processing utensils and supplies
cutting boards
countertops
sinks
tiles
dishes, cups, bottles
conveyor belts
food processing equipment (including slicers, formers, juicers, washers, canners, freezers, refrigerators, shelving, cookers, grinders, choppers, peelers and countertops)
beverage processing equipment (including mixers, transfer equipment, pumps, bottlers, canners, dispensers and fermenters)
building materials and components (including walls, hardware, floors, ceilings and components thereof for kitchen, commercial and industrial applications)

Non-food contact uses only:

Automobile Parts
Mats
Waste containers
Mops
Plumbing supplies and fixtures
Siding for housing
Flooring
Insulation for wire and cable
Indoor and outdoor furniture
Spas, bathtubs, showers, filters and components thereof
Office equipment and supplies (including binders, filing and storage systems, pens, pencils, markers, printers, facsimile machines, desk accessories, computers, keyboards, mice

Shower curtains
Protective Covers
Brush handles
Vacuum cleaner bags
Drain pan liners
Kitchen and bathroom hardware
Floor coverings
Insulators
Plastic building materials
Garbage bags and garbage cans
Telephones, mobile devices, head phones, head sets and accessories
Cameras and imaging equipment
scanners, and printers).
Medical devices, equipment and supplies

**Fibers — including cotton, rayon and synthetically derived fibers**

The additive may be incorporated into the finished product at up to 5.0% by weight or at least 0.5% for fibers. Contact Sciesent LLC to determine the appropriate amount of Agion® Silver Copper Antimicrobial Type AC for individual finished products.

**Food contact** and **non-food contact uses (in all food contact cases, when the article itself is a FDA-approved polymer, or as a FDA-approved polymer coating on an article):**

- Synthetic and Natural Fibers
- napkins, tablecloths and wiping cloths
- bags
- brush bristles (including personal care grooming items, toothbrushes and cosmetic brushes)
- filters
- clothing apparel (including uniforms, outerwear, gloves, aprons, coats and shoes)
- sponges
- packaging (including bags, sacks, wraps, cushion and absorbent materials, and containers)
- conveyor belts
- kitchen, commercial and industrial wipes and fabrics

**Non-food contact uses only:**

- Synthetic and Natural Fibers
- Paper for gypsum board.
- Paper, paperboard, composite building materials

**Interior furnishings** -
- mattress cover pads and filling
- pillow covers
- sheets
- blankets
- fiberfill for quilts and pillows
- curtains
- draperies
- carpet and carpet underlay
- rugs
- upholstery
- mops
- towels
- wall covering fabrics
- cushion pads
- sleeping bags

**Apparel** —
- umbrellas
- outerwear
- sportswear
- sleepwear
- stockings
- socks and hosiery
- caps

*Transportation* —
- automotive and truck upholstery
- carpeting
- rear decks
- trunk liners
- convertible tops
- interior liners

**Industrial and Other Household Items** —
- artificial leather
- filters
- book covers
- mops
- cloth for sails
- ropes
- tents and other outdoor equipment
- tarps
- awnings
- drain pan liners

undergarments
inner liners for jackets
trim for outerwear and garments
medical devices, equipment and supplies

**Coatings, Films and Laminates**

The additive may be incorporated into the finished product at up to 5.0% by weight, or at least 0.5% for coatings. Contact Sciessent LLC to determine the appropriate amount of Agion® Silver Copper Antimicrobial Type AC for individual finished products. Types of coatings include water-borne, solvent-borne, 100% solids, radiation cure, liquid and powder emulsion, starch, cellulosic, lacquer, thermoset, thermoplastic, thermal spray coatings including pre-dispersions and components thereof.

**Food contact** and non-food contact uses (in all food contact cases, when the article itself is a FDA-approved polymer, or as a FDA-approved polymer coating, film or laminate on an article):

- packaging
- paper products (including wipes and tissues)
- natural and synthetic fibers and fabrics
- sinks
- countertops
- cutting boards
- dishes
- cookware
- general purpose containers
- kitchen, commercial and industrial utensils and supplies
- collection and storage equipment (including conveyor belts, piping systems, silos, tanks and process vessels)
- appliances and food processing equipment (including slicers, formers, juicers, washers, canners, freezers, refrigerators, shelving, cookers, grinders, choppers, peelers and countertops)
- beverage processing equipment (including mixers, transfer equipment, pumps, bottlers, canners and fermenters and dispensers)
- building materials and components (including walls, hardware, floors, ceilings and components thereof for kitchen, commercial and industrial applications)

**Non-food contact uses only:**

Building Materials (including gypsum board, insulation, cellulose or fiberglass ceiling tile, and polymer flooring.)

Heating, Ventilation and Air Conditioning equipment and related materials (including insulation, ducts, heat exchangers, drain pans, air filters, air purifiers, diffusers, and parts and components thereof)¹

Industrial equipment

Furniture

Automotive and vehicular parts

Packaging

Siding

Roofing

Shingles

¹ For HVAC and related uses, refer to Agion® Silver Copper Antimicrobial Type AC Technical Bulletin No. 1 – Technical Bulletin for Agion® Silver Copper Antimicrobial Type AC – Polymeric Coating for Heating, Ventilation and Air Conditioning Applications.
Industrial equipment
Medical devices, equipment and supplies

**Adhesives and Sealants**

The additive may be incorporated into the finished product at up to 5.0% by weight, or at least 0.5% for adhesives and sealants. Contact Sciessent LLC to determine the appropriate amount of Agion® Silver Copper Antimicrobial Type AC for individual finished products.

**Food contact** and non-food contact uses (in all food contact cases, when the article itself is a FDA-approved polymer incorporated into FDA-approved adhesives or sealants):
- plumbing adhesives
- pipe sealants and insulating materials
- grout and joint compound for; countertops, building materials and components, and food and beverage related equipment

**Non-food contact uses only:**

Adhesives, joint compound and grout for gypsum board, ceramic tile, wood, paper, cardboard, rubber and plastic.
Medical devices, equipment and supplies

**Miscellaneous Applications**

The additive may be incorporated into the finished product at up to 5.0% by weight. Contact Sciessent LLC to determine the appropriate amount of Agion® Silver Copper Antimicrobial Type AC for individual finished products.

**Food contact** and non-food contact uses (in all food contact cases, when the article itself is a FDA-approved polymer or coating.

- Interior paints and coatings
- Stucco
- Plaster
- Leather
Medical devices, equipment and supplies
**PRECAUTIONARY STATEMENTS**

**Hazards to Humans: Caution.** Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

<table>
<thead>
<tr>
<th>FIRST AID</th>
</tr>
</thead>
</table>
| **If on skin or clothing** | • Take off contaminated clothing.  
  • Rinse skin immediately with plenty of water of 15 – 20 minutes.  
  • Call a poison control center or doctor for treatment advice. |
| **If in eyes** | • Hold eye open and rinse slowly and gently with water for 15 – 20 minutes.  
  • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
  • Call a poison control center or doctor for treatment advice. |
| **If inhaled** | • Move person to fresh air.  
  • If person if not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.  
  • Call a poison control center or doctor for further treatment advice. |
| **If swallowed** | • Call poison control center or doctor immediately for treatment advice.  
  • Have person sip a glass of water if able to swallow.  
  • Do not induce vomiting unless told to do so by the poison control center or doctor.  
  • Do not give anything by mouth to an unconscious person. |

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**Storage and Disposal**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Do not store in areas accessible to children. Keep product dry and containers covered during storage; store below 130°F.

**Container Disposal:** Nonrefillable container. Do not reuse or refill inner plastic bag or outer steel can. **Inner Plastic Bag:** Completely empty plastic bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke. **Outer Steel Can:** Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

**Pesticide Disposal:** Wastes from the use of this product may be disposed of on site or at an approved waste disposal facility.
