QUICK SAN 10

ACTIVE INGREDIENTS:
- Octyl Decyl Dimethyl Ammonium Chloride ........................................... 3.0%
- Didecyldimethyl ammonium chloride .................................................. 1.5%
- Dioctyl dimethyl ammonium chloride .................................................. 1.5%
- Alkyl (C14 50%, C12 40%, C16 10%) dimethyl benzyl ammonium chloride ................................................................. 4.0%
- INERT INGREDIENTS: ................................................................................ 90.0%
- TOTAL ........................................................................................................ 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER PELIGRO

See right panel for additional precautionary statements.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame. Do not mix with oxidizers, anionic soaps and detergents.

ENVIRONMENTAL HAZARD

Quick San 10 is toxic to fish.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

CONTAINER DISPOSAL/PESTICIDE STORAGE/RESIDUE REMOVAL: Non-refillable container. Store only in original container. Do not reuse empty container. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Triple rinse as follows: Fill container ⅓ full with water and reclose the container. Agitate vigorously and dispose of rinseate. Repeat two more times. Wrap container and put in trash or offer for recycling if available.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOOD CONTACT SANITIZING DIRECTIONS
Before use as a sanitizer, food products and packaging materials must be removed from the room or carefully protected. Prior to application, remove greas food particles and soil by a prewash or pre-scrub and when necessary, prewash. Then thoroughly wash or flush objects with a good detergent or compatible cleaner, followed by a potable water rinse before application of the sanitizing solution.

FOOD CONTACT SANITIZING PERFORMANCE: At 1 ounce per 4 gallons of water (or equivalent use dilution) (200 ppm active), this product eliminates 99.99% of the following bacteria in 1 minute. In 500 ppm hard water according to the A.O.C.C. General and Detergent Sanitizing Action of Disinfectants test: Campylobacter jejuni, Clostridium perfringens-variegaticum Escherichia coli, Escherichia coli 0157H7, Escherichia coli O111:H8, Enterococcus faecalis Vancymycin resistant, Enterobacter sakazakii, Listeria monocytogenes, Klebsiella pneumoniae, Salmonella enterica, Shigella dysenteriae, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus Methicillin Resistant, Staphylococcus pyogenes, Yersinia enterocolitica.

DIRECTIONS FOR FOOD CONTACT SURFACES IN PUBLIC EATING PLACES AND FOOD PROCESSING EQUIPMENT AND UTENSILS, AND FOOD CONTACT ARTICLES REGULATED BY 40CFR 180.440(a): 1. Sanitize pre-cleaned, hard, non-porous inanimate articles using solution of 0.19 to 0.21 ounces of this product per gallon of water (150-400 ppm active). Articles that can be immersed in solution must remain in solution for 1 minute. Articles too large for immersion must be thoroughly washed for 1 minute by rinsing, spraying or scrubbing. 2. Place sanitized utensils on a rack or drain board and then air dry. 3. NO POTABLE WATER RINSE IS ALLOWED.

Before using this product, food products and packaging materials must be removed from the room or carefully protected.

PREPARATION OF DISINFECTANT/VIROCIDE® USE SOLUTION: For heavily soiled areas, a preliminary cleaning is required. Mix 3 ounces of this product with 5 gallons of water (450 ppm active) to disinfect hard, non-porous, inanimate surfaces. Apply use solution using a brush, cloth, mop, sponge, and/or sprayer. Mechanical spray devices are not recommended for application to the food-contact surfaces for spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth or sponge. Change cloth, sponge or towels frequently to avoid redeposition of soil. Treated surfaces must remain wet for 10 minutes. Allow to air-dry. Rinse all treated surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly diluted.

DISINFECTING PERFORMANCE IN INSTITUTIONS Hospitals, Nursing Homes, and Other Health Care Institutions and NON-MEDICAL FACILITIES Schools, Restaurants, Food Services, Food Processing Plants and Other Non-Medical Facilities: At 3 ounces of this product per 5 gallons of water use level (450 ppm active) and with a 10-minute contact time, this product is bactericidal according to the A.O.C.C. Use Dilution Test method on hard, non-porous, inanimate surfaces in the presence of 5% organic serum against: Campylobacter jejuni, Coccidiodomycetes msanamigebes, Escherichia coli 0157:H7, Enterococcus faecalis Vancymycin resistant (VRE), Klebsiella pneumoniae, Listeria monocytogenes, Pseudomonas aeruginosa, Salmonella enterica, Salmonella typhi, Shigella sonnei, Staphylococcus aureus Methicillin Resistant, Staphylococcus aureus, Streptococcus exfoliativus. This product is not for use on Medical Devices surfaces.

INSTITUTIONAL DISINFECTANT DIRECTIONS Hospitals, Dental Offices, Nursing Homes and Other Health Care Institutions: For heavily soiled areas, a preliminary cleaning is required. For disinfecting hard, non-porous inanimate surfaces such as floors, walls, counter tops, bathroom areas, lavatories, tables, chairs, and garbage pails, add 3 ounces of this product to 5 gallons of water (450 ppm active) or equivalent use dilution to disinfect hard, non-porous inanimate surfaces. Apply use solution to surfaces, thoroughly wetting surfaces with a brush, cloth, mop, sponge, and/or sprayer. Mechanical spray devices are not recommended for application to the food-contact surfaces for spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponges. Treated surfaces must remain wet for 10 minutes. Allow to air-dry. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly diluted.

VIROCIDE® PERFORMANCE: At 3 ounces per 5 gallons of water use level (450 ppm active), this product was evaluated with a 10-minute contact time in the presence of blood serum and found to be effective against the following viruses on hard, non-porous inanimate surfaces: Avian Influenza A H9N2 virus, Hepatitis A virus, Hepatitis B virus, Hepatitis C virus, Herpes Simplex Type 1 virus, Herpes Simplex Type 2 virus, Human Coronavirus, Influenza A H1N1 virus, Influenza A H1N1 virus, Influenza A/Hong Kong virus, Influenza A/Hong Kong virus, Influenza A/2005 virus, Influenza virus.

FOR DISINFECTING HARD, NON-POUROUS SURFACES AGAINSTavian INFLUENZA A VIRUS: For use in hospitals, hotels, motels, schools and other non-animal use sites, follow the INSTITUTIONAL DISINFECTANT DIRECTIONS.

KILLS H9N2, H7N9, AND H5N1 ON PRECLEANED ENVIRONMENTAL SURFACES OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soil or inanimate surfaces/objects with blood or body fluids and/or surfaces/object(s) likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 HIV-1 associated with AIDS, Hepatitis B virus (HBV) and Hepatitis C virus (HCV).

SPECIAL INSTRUCTIONS FOR CLAIMING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, and eye protection. Cleaning Procedure: Blood and other body fluids containing HIV-1, HBV & HCV must be thoroughly cleaned from hard, non-porous inanimate surfaces and objects before application of this product.

Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. Contact Time: For HIV leave hard, non-porous, inanimate surfaces wet for 2 minutes with 3 ounces of this product per 5 gallons of water (450 ppm active) use solution. This contact time will not control other common types of viruses and bacteria. For HBV and HCV leave hard, non-porous, inanimate surfaces wet for 10 minutes with 3 ounces of this product per 5 gallons of water (450 ppm active) use solution.

COMMERCIAL AND INSTITUTIONAL LAUNDRY USE
For residual bacteriostatic activity against gram-negative and/or gram-positive odor-causing bacteria, residual self-sanitizing activity against Klebsiella pneumoniae and Staphylococcus aureus, use this product as directed.

Initial Treatment: Use 10 ounces of this product (or equivalent use dilution) per 100 pounds of fabric, dry weight. Dilute the appropriate amount of this product in one to two gallons of water then add this solution to the wash wheel at the beginning of the final rinse cycle. A minimum rinse cycle time of 5 minutes is required.

Repeat Treatment: Follow Initial treatment directions and re-treat fabric after each washing or if odor persists.

LAUNDRY BACTERIOSTATIC FOR COMMERCIAL, INDUSTRIAL, AND NON-MEDICAL INSTITUTIONAL LAUNDRY APPLICATIONS: This product provides the fabric with residual bacteriostatic activity against odor-causing gram-negative and gram-positive bacteria when this product is added to the final rinse at a rate of 10 ounces per 100 lbs. of dry fabric. This product was evaluated against: Corynebacterium ammoniagenes, Klebsiella pneumoniae, Staphylococcus aureus.

PRESERVATION AGAINST MILDEW BY SOAKING: Use 10 ounces of this product per 100 pounds of fabric, dry weight. A minimum soaking time of 3 minutes is required.

LAUNDRY SANITIZING DIRECTIONS FOR USE: For sanitizing step, fill washer to low water level with minimum temperature water of 60°F. Using an appropriate disinfect, Quick San 10 into the sanitizing rinse step at the rate of 1 oz of this product per 1 gallon water to yield 700 ppm active quat (12 ounces per 100 lbs. of dry laundry) or equivalent use dilution. Treat the laundry for a minimum of 5 minutes at a maximum temperature of 60°F. Other laundry additives, such as fabric softeners, laundry soaps, starch and fragrances must be used per manufacturer's instructions in subsequent rinse cycles after the sanitizing rinse cycle. This product is used in the final, warm rinse cycle at a low water level. Dilute the appropriate amount of this product (12 ounces per 100 lbs. of dry laundry) to the wash in the final rinse, or disperse directly through automatic dispensing equipment. Run for a minimum of 3 minutes. Retreat as necessary. This product will not harm fabrics, DO NOT USE IN THE PRESENCE OF, OR MIX WITH OTHER CHEMICALS.

KILLS HIV-1 ON LAUNDRY IN COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL APPLICATIONS: This product provides virocidality activity against HIV-1 on fabrics with a 10-minute contact time followed by normal washing in detergent and rinsing at a rate of 12 ounces per 100 lbs. of dry laundry in water hardness of 400 ppm.
