For Organic Production

**ACTIVE INGREDIENTS:**
- Bacillus sphaericus

**Storing and Disposing:**
- Do not contaminate water, food or feed by storage or disposal.
- Pesticide Storage: Store in a cool, dry place.
- Pesticide Disposal: To avoid waste, use all material in the container by applying according to label directions. If residue cannot be avoided, after removing product to a waste disposal facility or pesticide disposal program (where such programs are available), contain runoff from the disposal procedure in a tank or pit and apply to waste disposal facilities as allowed by local authorities.
- Container Handling: Non-refillable container. Do not use as a refill container.

**Environmental Hazards:**
- Do not apply directly to treated, finished drinking water reservoirs or potable water supplies when the water is intended for human consumption.
- Do not contaminate water, food or feed by storage or disposal.

**Directions for Use:**
- For Organic Production.
- VectoMax FG is a selective microbial insecticide for use against mosquito larvae in a variety of habitats. VectoMax FG can be applied to areas that contain fish, other aquatic life, and plants. VectoMax FG can be applied to water to be used in contact with humans, pets, homes, livestock, birds, or wildlife. Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment and weather related factors determine the potential for spray drift. The applicator must consider all these factors when making decisions.

**Pesticide Disposal:**
- Non-refillable container. Do not reuse or refill this container. Completely empty bag into application according to label directions. If residue cannot be avoided, after removing product to a waste disposal facility by applying to waste disposal facilities as allowed by local authorities, or by burning, unless allowed by State and local ordinances.

**PESTICIDE STORAGE:**
- Place in a secure area, out of reach of children. Do not burn, unless allowed by State and local ordinances.

**PESTICIDE DISPOSAL:**
- Do not contaminate water, food or feed by storage or disposal.

**Other Similar Sites:**
- Stormwater/Drainage Systems: 5-20 lbs/acre
- Open end of bag
- Stormwater, sediment, seepage ponds, associated with fruit and vegetable processing.
- Tires stockpiled in dumps, landfills, recycling plants, and associated with fruit and vegetable processing.

**Stormwater/Drainage Systems:**
- 5-20 lbs/acre
- Stormwater, sediment, seepage ponds, associated with fruit and vegetable processing.

**Stormwater/Drainage Systems:**
- 5-20 lbs/acre
- Stormwater, sediment, seepage ponds, associated with fruit and vegetable processing.

**Movement Rates:**
- Water Bodies: 5-20 lbs/acre
- Tidal water, salt marshes, mangroves, estuaries
- Storm water, woodland pools, snow melt pools and livestock watering ponds and troughs
- Waste Tires: 5-20 lbs/acre

**Movement Rates:**
