KEEP OUT OF REACH OF CHILDREN
CAUTION
(See back panel for additional Precautionary Statements & First Aid)

Net Contents: 32 FL.OZ. (946 ml)

LBL567GAL-32F
#567 PYRETHRIN & INSECTICIDAL
SOAP CONCENTRATE II

Net Contents: 32 FL.OZ. (946 ml)

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing.
Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### Personal Protective Equipment (PPE)

- Long-sleeved shirt
- Long pants
- Shocks and socks
- Chemical resistant gloves (such as those made out of Barrier Latex, Neoprene, Nitrile Rubber, or Neoprene Rubber, Perlon or Chloride, or Viton: Selection Category C)
- Goggles
- Respirator
- Mask

### USER SAFETY REQUIREMENTS

Follow the manufacturer’s instructions for cleansing/maintaining PPE. Do not wash such instructions for splashable use, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been saturated or heavily contaminated with the product’s concentration. Do not reuse them.

### USER SAFETY RECOMMENDATIONS

- Wash hands before eating, drinking, or using the toilet.
- Remove clothing/PPE immediately if product gets inside. Then wash thoroughly and put on clean clothing.

### If in eyes:

- Hold eyes open and flush long and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

### If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

### Environmental Hazards for Terrestrial Applications:

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through drift. The product has the potential for soil to reduce effectiveness after application. Proper drainage and soil will not wash off. Soil erosion can move treated soil from areas where it is concentrated. This product is highly toxic to bees exposed to direct treatment. Keep bees away from treated areas. Do not apply the product or allow it to drift to blooming crops or weeds while bees are actively visiting the treated area. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when dispersing equipment wash water or rainwater.

### Physical or Chemical Hazards:

Flammable. Keep away from heat and open flame.

### DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirement specific to your State or Tribe, consult the agency responsible for pesticide regulation.

### Agricultural Use Requirements

Use this product only in accordance with its labeling and the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses and handling agricultural pesticides. It contains requirements for training, decontamination, and emergency assistance. It also contains specific instructions and limitations pertaining to the use of personal protective equipment (PPE). The requirements in this box only apply to use of this product that are covered by the Worker Protection Standard. Do not apply a product that will contact workers or other persons, either directly or through drift. Only protect handlers in the area of application. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

### Non-Agricultural Use Requirements

Applicators and other handlers who handle this pesticide for any use NOT covered by the Worker Protection Standard (40 CFR Part 170)—in general, only agricultural plant uses are covered by the WPS—must wear clothing that avoids exposure of bare skin to product including long pants, long sleeves, shoes, and protective gloves. Goggles should be used for overhead exposure. Do not enter or allow others to enter until sprays have dried.

### Restrictions:

- Do not enter or allow others to enter until sprays have dried.
- Do not apply this product in a way that will contact workers or others, either directly or through drift. Only protect handlers in the area of application.
- Do not use water to the point of run-off or drip.
- Do not use in outdoor residential mixing systems.
- Do not make applications during rain.
- Do not cover exposed food and drinking water before application.
- Do not cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- Do not wash the treated area in the point of run-off.

**Spray Drift Management for Agricultural Crops**: Avoiding spray drift at the application site is the responsibility of the applicator and the grower. The interactions of many equipment and weather-related factors determine the potential for spray drift. The applicator and the grower are responsible for considering all these factors when making decisions. Do not apply at wind speeds greater than 10 mph at the application site. Do not apply any type of application in temperature or conditions specified for the time. Apply as a medium or coarse spray (NASP standard 25). Do not release spray at a height greater than 10 ft above the ground or crop canopy.

**Mixing Directions**: Make sure to mix-10% nonionic surfactant to a 90% water. Check compatibility of surfactant by pouring a jar test with appropriate amounts of product and water before mixing in spray tank. Do not use this product in water with pH values above 6.4 unless a buffer solution is added to the water. If necessary, water should be buffered to neutral (pH 7-7.2) before adding this product to spray tank. Mix one part concentrate to 20 parts water for 1-4 oz. concentrate per gallon at water. Use soft water whenever possible.
Application Directions: Always use fresh, mixed solution. This product can be applied with all types of hand or power sprayers. Read and carefully follow the instructions for the type of sprayer you use. Apply when (and only when) signs of the damage appear. This product kills pests through contact. Pests must be directly contacted at time of application in order to be effective. Consult as many pests as possible. Use caution on new tender foliage, and avoid spraying plants in full sun.

Vegetables: Apply one gallon of mixed spray per 700 sq. ft. of plant surface area. (Bottle contains 3.325 gal.) Use as directed on asparagus, beans, broccoli, Brussels sprouts, cabbage, kale, and oriental vegetables, herbs, lettuce, eggplant, peppers, tomatoes, potatoes, cucumbers, melons, and asparagus to kill ASPERGUS BEETLES, BEAN BEETLES, CUCUMBER BEETLES, FUSA BEETLES, CATERPILLARS including CABBAGE LOOPERS, INVADED CABBAGEWORM, ARM WORMS, HORNWORMS, DIAMOND BACK MOTH, LARVAE, LEAF HOPPERS, PLANT BUGS, PSYLLIDS, APHIDS, SPIDER RED MITES, NEOMYRIA AND WHITELY. Use Restriction: Do not apply more than 10 times per season. Do not apply within 3 days except under extreme pest pressure. In case of extreme pest pressure, do not apply within 24 hours. Do not harvest until spray has dried.

Fruits and Nuts: Apply one gallon of mixed spray per 750 sq. ft. of plant surface area. (Bottle contains 3.325 gal.) Use as directed on apples, avocados, citrus (grapefruit, lemons, oranges, tangerines), peaches, pears, pluots, prunes, blackberries, logan berries, raspberries, strawberries, and grapes to kill APHIDS, BEETLES, FUSA BEETLES WHEY, ADULTS, CATERPILLARS (including NAVAL ORANGE WORM, BUNCHGRAPES, LEAFERS, COUGHLIN MOTH AND TENT CATERPILLARS), APHIDS, LEAFHOPPERS, PSYLLIDS, SCALE CRAWLERS AND SPIDER RED Mites. Use Restriction: Do not apply more than 10 times per season. Do not apply within 3 days except under extreme pest pressure. In case of extreme pest pressure, do not apply within 24 hours. Do not harvest until spray has dried.

Turfgrass and Lawns: Apply one gallon of mixed spray per 475 sq. ft. of treatment area. (Bottle contains 3.325 gal.) Use as directed on lawns and turf grass to kill CRUNCHY BUGS, LAWN MOTH, SOC WEDGEMOTH, ARM WORMS, TICS, CRANE FLY AND OTHER FLEAS. Use Restriction: Do not apply more than 1 time per day.

Ornamental Trees and Shrubs: Apply one gallon of mixed spray per 475 sq. ft. of treatment area. (Bottle contains 3.325 gal.) Use as directed on ornamental shrubs including azaleas, camellias, cedars, dis ere, rhododendrons, magnolias, and broad-leaved shade trees to kill APHIDS, BEETLES, CATERPILLARS including an OF MOTH, LAURVAE, TENT CATERPILLARS, WEEVERS, BACCHARIS AND LEAFERS, LACE BUGS, BOX, ELDER BUG, LEAFHOPPERS, PSYLLIDS, SAUERLS, SCALE, SPIDER RED MITES, MEALWORMS, THrips, and WHOLLY APHIDS. Use Restriction: Do not apply more than 1 time per day.

Flowers: Apply one gallon of mixed spray per 475 sq. ft. of treatment area. (Bottle contains 3.325 gal.) Use as directed on oleander, clematis, chrysanthemums, geraniums, margaritas, petunias, and roses to kill APHIDS, BEETLES including FUSA BEETLES AND JAPANESE BEETLES, CATERPILLARS, PLANT BUGS AND WHITELY. Use Restriction: Do not apply more than 1 time per day. Important: Do not spray blossoms or parsley open flower buds. Do not use on bleeding heart or gardenias. Test on foliage and impurities to test for sensitivity.

Homestead: Spray mixed spray evenly, completely coating plant surfaces where insects are feeding or resting. Do not direct plants to the point of a wind or drip. Use as directed on houseplants to kill APHIDS, CATERPILLARS, SPIDER RED Mites, NEOMYRIA AND WHITELY, THrips, SCALES and WHITELY. Deeply as necessary. Do not use on Crown of Thorns, jade plant or delicate ferns. Important: Test on foliage and impurities for visual sensitivity.
