STOP. READ ENTIRE LABEL BEFORE EACH USE

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. SHAKES WELL BEFORE USING. Do not allow contact with treated surfaces until spray has dried. When using product, do not allow spray to contact food or water supplies.

GENERAL CLOTHING INSTRUCTIONS: This product must not be applied to clothing while it is being worn. Under no circumstances should live skin or clothing on the body be treated. • For protection against ticks (including those that may carry Lyme disease), chiggers and mosquitos, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin and utilize the following primary preventive measures: Avoid wetting in areas where the pests are found, wear appropriate protective clothing (light-colored, long-sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

INITIAL TREATMENT INSTRUCTIONS: • Select a well-ventilated area protected from wind and lay out the clothing to be treated (see complete outfit: shirt, pants, and shoes). • Hold container about 6 inches from surface of the clothing and spray with a slow, sweeping motion to lightly moisten the entire surface of the fabric. • Continue spraying over entire outfit until a total treatment time of 60 seconds has elapsed and the outer surface of the fabric is moist enough to cause a slight color change or darker. Pay special attention to creases, pant cuffs, and shoe cuffs. • Turn the clothing over and treat the other side as described in Steps 2 and 3. • Hang the treated clothing and allow to dry for at least two hours (four hours under humid conditions before useing). • G. These ounces will treat one complete outfit. Do not exceed recommended spraying time.

INSTRUCTION TO PERMIT TENTS, SLEEPING BAGS, AND BACKPACKING: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and lay out the article to be treated. Hold container upright about 6 inches from surface of the article and spray with a slow, sweeping motion to lightly moisten the surface of the fabric. Continue spraying over entire article until the outer surface of the article is moist enough to cause a light color change or darker. Turn the article over and treat the other side as described above. Hang the treated articles and allow to dry for at least two hours (four hours when under humid conditions) before useing.

RE-TREATMENT INSTRUCTIONS: This product contains an active ingredient that actually binds to the fabric being treated, providing residual protection, which lasts a minimum of two weeks. Hang it up during several machine washings. DO NOT RE-TREAT CLOTHING MORE THAN ONCE EVERY TWO WEEKS. LAUNDER CLOTHING AT LEAST ONCE BEFORE RE-TREATING.

For re-treatment, follow instructions for initial treatment.

STORAGE AND DISPOSAL
Storage: Store in a cool, dry area, inaccessible to children and away from heat or open flame.
Disposal: Do not put or incinerate if empty. Place in trash or offer for recycling if available. If partly filled Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS
Hazard to Reptiles and Domestic Animals.
CAUTION: Causes moderate eye irritation. Harsh if inhaled through the skin. Avoid contact with face, eyes or skin. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.

FIRST AID: • IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing. • IF ON SKIN: Rinse skin immediately with plenty of water for 15-20 minutes. • Call a Poison Control Center or doctor for further treatment advice. Have the product container with you when calling a Poison Control Center or doctor or going for treatment.

Physical or Chemical Hazards: Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 120°F may cause bursting.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
