VETO II™
DISINFECTANT TOILET BOWL CLEANER
For Hospital, Institutional and Industrial Use • Clings to Surfaces • Does Not Damage Porcelain • Quickly Eliminates Rust, Lime and Urine Deposits • Removes Stains and Hard Water Deposits

ACTIVE INGREDIENTS:
Dekside (Dichloroisocyanuric Acid) ........................................... 0.04%
Alcohol (C4-C12 Chain Length) ........................................... 0.04%
DISSOLVES, CLEAN & DEODORIZES, *VIRICIDAL

INERT INGREDIENTS: .......................................................... 25.0%
TOTAL: .............................................................................. 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER • PELIGRO

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after first 5 minutes, and continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

IF INHALED: Remove person to fresh air. If not breathing, call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable maximal damage may not be due to the use of gastric lavage.

PRECAUTORIARY STATEMENTS
HARAZDOS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Keep out of reach of children. Carrots cause irreversible eye damage and skin burns. Harmful if swallowed. Harmful if absorbed through the skin or inhaled. Avoid breathing spray mist. Do not get in eyes, skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. GENERAL PRECAUTIONS AND RESTRICTIONS: Do not mix with chlorine bleach, ammonia cleaners or other household chemicals.

ENVIRONMENTAL HAZARD
This pesticide is toxic to fish, aquatic invertebrates, birds, and shrimp. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewers without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS
Do not mix with acidifiers, acid soaps and detergents. NEVER USE WITH CHLORINE PRODUCTS. Can react to give chlorine gas. If this occurs, flush toilet to remove chemicals and leave the area. Do not return for half an hour. Ventilate if possible. Never use or mix with other cleaners or chemicals. Do not use on any surface that can be damaged by acidic materials. Many surfaces are not resistant to acid.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces. For all surfaces, test on a small area before use.

Disinfectant Performance: Using AOAC (American Otolaryngological Association) protocol for germs under Good Laboratory Practices (GMP), a 5% solution and a 10 minute contact time on the product killed the following:

- E. coli
- S. aureus
- S. typhi
- Staphylococcus aureus
- E. coli

Virocidal Performance: This product was evaluated in the presence of 5% serum with a 10 minute contact time and found to be effective against the following viruses on hard, non-porous, environmental surfaces of toilets and urinals:

- Human rhinovirus
- Human norovirus

To Disinfect Toilet Bowls: Remove water from bowl. Apply 1 to 2 ounces of bowl cleaner onto bowl. Clean the entire unit, especially under rim, after toilet seats are removed. Allow surface to remain wet for 10 minutes. Flush and rinse bowl with clean water. A preliminary cleaning step is required for the removal of heavy soil prior to disinfection.

To Clean and Disinfect Urinals: Remove gross filth and heavy soil deposits. Apply 1 to 2 ounces of this product directly to urinal surfaces including water outlets area for general cleaning. Then pour an additional 1 ounce of product on urinal. Scrub entire unit, especially under rim at water outlets, with applicator. Remove screw trap to bencket drain and apply 1 ounce directly on edge and into drain. Wait 10 minutes, flush and reapply.

To Remove Stubborn Stains, Parsue Lime deposits on Toilets: Apply 1 to 2 ounces of this product directly on stain. Let it remain at least 15 minutes. Scrub then flush. Repeat if necessary.

- **KILLS HIV ON PRECLEANED ENVIRONMENTAL TOILET BOWLS/URINALS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare setting or other settings in which there is an expected likelihood of soiling of ananimate toilet bowls/urinals with body fluids and in which the toilet bowls/urinals likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) associated with AIDS.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON TOILET BOWLS/URINALS (S1-01) WITH A BODY FLUID (B1) IN CONTACT WITH AN ANIMATE MATERIAL**

Posttreatment barrier: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye covering.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from toilet bowls and urinals before application of the disinfectant. Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave surface wet for 10 minutes with undiluted solution. Remove gross film prior to disinfection. Empty toilet bowl or urinal and apply solution of 1 to 2 ounces of this product to exposed surfaces including under the rim, with a cloth, mop, sponge or sprayer. Brush or scrub thoroughly and allow to stand for 10 minutes and flush.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Open bottles are prohibited. Pour only in the original container. Do not reuse the original container unless it has been thoroughly cleaned. Do not reuse empty containers. If a leaky container must be used, mark the container with the following information:

- **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixtures or residues is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Agricultural Services Representative at the nearest EPA Regional Office for guidance. CONTAINER HANDLING DISPOSAL: Non-refillable container. Do not reuse this container to hold materials other than pesticides or diluted pesticides. After emptying and cleaning, it may be allowable to temporarily hold unused or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Offer for recycling if available or purchase and dispose in a sanitary landfill, or by other procedures approved by state and local authorities. If inactive cannot be used, follow pesticide disposal instructions. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state and federal regulations.

WASHOUT REMOVAL INSTRUCTIONS: Top removal (or equivalent) promptly after emptying. Top rinse as follows. Fill the container 1/4 full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for waste disposal. Repeat this procedure two more times.

PELIGRO: SI NO PUEDAS LEER EN INGLES, PREGUNTA A UN SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.
