PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
CAUTION: Do not use in nurseries or rooms where infants, ill or aged persons are confined. Use 12 feet or more from exposed food or food handling or dispensing surfaces.
FIRST AID: IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER - Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call 1-800-222-1222, 24 hours, 7 days a week. NOTE TO PHYSICIAN: Contains petroleum distillates—vomiting may cause aspiration pneumonia.
PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Do not store near heat or open flame. Store in cool dry area away from children. CONTAINER DISPOSAL: Do Not Puncture or Incinerate! IF EMPTY: Offer for recycling, if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions.

KEEP OUT OF REACH OF CHILDREN
CAUTION:
See back panel for additional precautionary statements.
NET WT. 6.9 OZ. (196 GRAMS)
DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE IN Food service and preparation areas, food processing plants, restaurants, clubs, stores, supermarkets, bottling plants, warehouses, buildings, factories, offices, laboratories, lavatories, ships, planes (cargo areas), hotels, motels, hospitals, nursing homes, schools, day-care centers, funeral homes, kennels, farms, barns, stables, dairies, homes, milk and egg handling areas of dairies and chicken houses.

This product is engineered for use in automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 and/or 30 and/or 45 minutes. Within 24 hours the area is relatively free of house flies, mosquitoes, gnats, and small flying moths and with continued use reduces annoyance from them. Effectiveness of this product will be noticeable within one hour after the Dispenser is activated. Recommended use is for 24 hours: but if less than 24 hour use is required, the Dispenser should be set to start one hour before kill is desired and run one hour after kill is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and kill. Therefore, one unit per 6000 cubic feet of unobstructed space should be considered as an average with adjustments made depending on specific conditions at usage site. As with any method of insect kill, best results are achieved when sanitation and other positive insect prevention practices are followed. Do not use in aircraft cabins. It is suggested that the container be changed once a month.

OPERATION: Remove protective cap from top of can and insert can in dispenser. Suspend dispenser 7 feet from floor and at a point where wind flow will carry the particles throughout the room.

Contains no CFCs or other Ozone Depleting Substances. Federal regulations prohibit CFC propellants in aerosols.
