Do not sell this product in individual containers holding less than 4 pounds of bait. It must be applied in tamper-resistant bait stations. Do not place bait near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used to USDA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not sell this product in individual containers holding less than 4 pounds of bait.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the nerve poison Bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of control, labored or gasping respiration, ataxia, loss of balance) or aspiration pneumonia, aggressive behavior, or convulsions, consult a veterinarian immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor.

**KILLS RATS, MICE, AND MEADOW VOLES**

Kills Anticoagulant Resistant Norway Rats, Roof Rats And House Mice

Norway rats, roof rats and house mice usually consume a toxic dose in a single night’s feeding, but it may take two or more days from the time of bait consumption for these rodents to die.

**PRODUCT USE**

This product is an acute-feeding poison. It is formulated with Bromethalin, a nerve poison that affects the central nervous system. It is effective against Norway rats, roof rats, house and meadow voles.

**DIRECTIONS FOR USE**

**APPLICATION DIRECTIONS**

1. Place bait stations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs or other predatory and scavenging mammals and birds.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs or other predatory and scavenging mammals and birds.
3. Apply 1 to 6 ounces of bait per placement (usually at intervals of 15 to 30 feet). Adjust the amount of bait applied to the level of rat feeding expected at each bait placement.

**TREATMENT FOR POISONING**

If an animal eats this bait, call a veterinarian at once. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

If an animal eats this bait, call a veterinarian at once. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SAFETY PRECAUTIONS**

**WARRANTY**

If an animal eats this bait, call a veterinarian at once. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**DO NOT USE**

Do not sell this product in individual containers holding less than 4 pounds of bait.

**CAUTION**

This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Rainfall also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Rainfall also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Keep away from children and domestic animals and pets. Do not get in eyes, on skin or on clothing. All handles (including application units) must wear long-sleeved shirt, long pants, shoes plus socks, and gloves. Any person who handles contaminated or unused bait following application of this product must wash gloves.

**USER SAFETY REQUIREMENTS**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.
