KILLS RATS, MICE & MEADOW VOLES*
Kills Warfarin Resistant Norway Rats And House Mice

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panels for First Aid and additional precautionary statements.

ACTIVE INGREDIENT:
Brodifacoum (CAS #56073-10-0): .................. 0.0025%
OTHER INGREDIENTS†: .......................... 99.9975%
†Contains Denatonium Benzoate TOTAL 100.0000%

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat
CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets.
All handlers (including applicators) must wear shoes plus socks, and gloves. Anyone who retrieves carcasses or unused bait following application of this product must wear gloves.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate. In areas prone to vandalism, do not use in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas where livestock might eat carcasses or unused bait following application of this product must wear gloves.

KILLS RATS, MICE & MEADOW VOLES:
Norway rats, roof rats, and house mice may consume a lethal dose in one night's feeding with first dead rodents appearing five or six days after feeding begins.

ACTIVE INGREDIENT: Brodifacoum (CAS #56073-10-0): 0.0025%
OTHER INGREDIENTS: Total 99.9975%

Keep out of reach of children.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Do not contaminate water, food or feed by storage or disposal. Place only in original container in a cool, dry place inaccessible to children. For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁ at doses of 2–5 mg/kg. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

Directions for Use
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read this Label: Read the entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

Important: Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:
1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in temporary-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching or manipulating compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, or un consumed bait as specified on this label.

Bait stations are mandatory for outdoor, above-ground use. Temper-resistant bait stations must be used wherever children, pets, non-target mammals, and birds may have access to the bait placement location.

Use Restrictions: This product may only be used to control the following rodent pests: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodontomys humilis), Golden mouse (Ochrotomys nuttalli), Polynesian rat (Rattus exulans), Meadow vole (Microtus pennsylvanicus), White-throated woodrat (Neotoma albigula), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma micropus). This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations.

Warranty: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
