STORAGE AND DISPOSAL
Do not store near heat or open flame. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. This statement was developed by WSDA, since burning plastic containers is illegal in Washington (as well as other states).
