MULTI-PURPOSE DISINFECTANT CLEANER

* Kills Pandemic 2009 H1N1 Influenza A virus, formerly called swine flu

Disinfectant Cleaner - Fungicide - Deodorizer - Voricide - * Mildewstat - Non-Food Contact Sanitizer

For use in Hospitals, Nursing homes, Institutional, Industrial

ACTIVE INGREDIENTS:
- **Alcohol (C2H5OH)** 60%, 30%, 15%, 5%, 3% 4.5%
- **Diethanol Ammonium Chloride** 4.5%

INERT INGREDIENTS:
- **Disodium Phosphate** 60%, 30%
- **Triethanol Ammonium Chloride** 3%

TOTAL: 100%

KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO
See side panel for additional precautionary statements

FIRST AID

If SWALLOWED: Call your poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If IN EYES: Flush eyes open and then rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.

If INHALED: Move person to fresh air. If person is not breathing, call 911 or do an artificial respiration. Do not give artificial respiration if mouth has mud, or if mouth is health care provider.

If UNCONSCIOUS: See 911. If not an emergency, call your local poison control center or doctor for further treatment advice.

NOT TO PHYSICIAN: Possible muscular damage may cause the muscle of the chest to bulge.

Net Contents: 1 Gallon (US) 3.78 L

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes instantaneous eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame. Do not mix with oxidizers, anionic soaps and detergents.

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions) AND NON-MEDICAL FACILITIES (Schools, Restaurants, Food Services, Salons, Farms, Beverage, Food Processing Plants and Other Non-Medical Facilities): This product is effective against:
- Escherichia coli, Klebsiella pneumoniae, Listeria monocytogenes, Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Staphylococcus aureus MRSA, Streptococcus pyogenes.

VIRUCIDAL PERFORMANCE: This product is effective against:
- Avian Influenza A H5N1 virus, Hepatitis B virus, Hepatitis C virus, Herpes Simplex virus type 1 & 2 (HSV), Influenza A (H1N1) virus, Influenza A H7N9 virus, Norovirus (Norwalk-like virus) and Calicivirus. This product has passed the World Health Organization's Guidelines for Disinfectants for Use on Inanimate Environmental Surfaces containing both Hepatitis B virus and Human enteric adenovirus (HEV) Surrogates for human Hepatitis C virus, Hepatitis B virus, Avian Influenza A H9N2 virus, Avian Influenza A H7N9 virus, Influenza A H7N7 virus, Influenza A (H7N9), Influenza A (H5N2), Influenza A (H5N1), Influenza A (H9N2), Influenza A (H7N2), Influenza A (H7N9).

ANIMAL PREMISE VIRUCIDAL PERFORMANCE: This product is effective against:
- Avian Influenza A H5N1 virus, Avian Influenza A H7N9 virus, Influenza A (H7N9), Influenza A (H9N2), Influenza A (H9N2), Influenza A (H5N2), Influenza A (H5N1), Influenza A (H7N2), Influenza A (H7N9).

FUNGICIDAL PERFORMANCE: This product is effective against:
- Cryptococcus neoformans.

BACTERICIDAL PERFORMANCE: This product is effective against:
- Staphylococcus aureus.

MICROBIAL PERFORMANCE: This product is effective against:
- Aspergillus niger.
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Before using this product, food products and packaging materials must be removed from the room or carefully protected. Do not use this product to clean or disinfect utensils, glassware, dishes or interior surfaces of appliances.

Prior to use of this product, cover or remove all food and packaging material before disinfection and remove all animals and food from areas to be treated, animals, transportation vehicles, and enclosures. Remove all litter, droppings and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other vessels of equipment and fixtures occupied or traversed by poultry or other animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water. Do not use in milking stables, milking parlors or milk houses.

DISINFECTION/VIRUCIDAL/FUNGICIDAL/MOULD AND MILDEW PERFORMANCE IN INSTITUTIONS AND NON-MEDICAL FACILITIES: Mix 1 ounce of this product to 1 gallon of water (or equivalent use dilution)

NON-FOOD CONTACT SANITIZING PERFORMANCE: Mix 1 ounce of this product to 1 gallon of water (703 ppm active) (or equivalent use dilution). Treated surfaces must remain wet for 1 minute.

For heavily soiled areas, a preliminary cleaning is required. Apply use solution to hard non-porous surfaces with a brush, cloth mop, sponge, auto scrubber, mechanical spray device, coarse pump or trigger spray device or by immersion soak to thoroughly wet surfaces. For sprayer applications, spray 6-8 inches from surface. Do not breathe spray.

Immerse all hallers and other types of equipment used in handling and restraining animals, as well as forrias, shovels, and saws used for removing litter and manure in the use solution. After application, ventilate buildings, coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, troughs, automatic feeders, fountains and waterers and other treated equipment which can contact food or water with soap or detergent, and rinse with potable water before reuse.

Rinse with brush, cloth mop, or sponge. Treated surfaces must remain wet for 10 minutes. Wipe up excess liquid and allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Rinse all treated surfaces that come in contact with feed such as countertops, appliances, tables and shelves with potable water before reuse. Change cloth, sponge or towels frequently to avoid redeposition of soil. Pressure a fresh solution at least daily or more often if use solution becomes visibly dirty.

FOR DISINFECTING HARD, NON-POROUS SURFACES AGAINST AVIAN INFLUENZA A H5N1, H5N2, INFLUENZA A H1N1 VIRUS: For use in hospitals, hotels, motels, schools, animal premises, and other non-animal use sites. See the DISINFECTION/VIRUCIDAL/FUNGICIDAL/MOULD AND MILDEW PERFORMANCE IN INSTITUTIONS AND NON-MEDICAL FACILITIES directions.

HOSPITAL/HEALTH CARE/INSTITUTIONAL

This product is not to be a used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

*KILLS HIV, HCV AND HBV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of high non-porous surfaces/objects with blood or body fluids and in which the surfaces/ objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus (Type 1 HIV-1), Hepatitis B virus (HBV) and Hepatitis C virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HCV AND HBV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.** Personal Protection: Clean up must already be done wearing protective latex gloves, gowns, masks and eye protection. Cleaning Procedure: Blood and body fluids must be thoroughly cleaned from hard non-porous surfaces and objects before application of this product. Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. Contact Time: For HIV only, leave hard nonporous surfaces wet for 2 minutes. For all other viruses and bacteria, leave hard nonporous surfaces wet for 10 minutes. The 2 minute contact time will not control other common types of viruses and bacteria listed on this label.

GENERAL CLEANER AND/OR DEODORIZER DIRECTIONS: Apply use solution of 1–2 ounces of this product per 1 gallon of water to surfaces. Wipe up excess and allow to air dry. For heavy-duty use, mix 2 ounces of this product per 1 gallon of water to clean surfaces.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. PCESTicide STORAge: Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. PESTicide DIsposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or container is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. CONTAINER HANDLING: Non-Refillable Container. Do not reuse or refill this container. Wrap empty container and put in trash or offer for recycling.
