AQUACAR™ SUMP BUDDY™ PRO Water Treatment Microbiocide

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide dispensing unit will release its contents over approximately four weeks.

Prior to use, the dispensing unit must be opened, exposing the dispensing membrane at the bottom of the AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide container. The fresh water intake port at the top of the unit must also be opened prior to use. The dispensing unit will not operate properly if these steps are not performed.

INDUSTRIAL RECIRCULATING COOLING WATER SYSTEMS

For control of bacteria, fungi, and algae. AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide dispensing units are best used in the basin of the cooling water system.

Note: Do not use less than one unit per 5,000 gallons of water in the system. Do not exceed a usage rate of 5 dispensing units per 1,000 gallons.

For minimally contaminated systems:

- Use 1 unit per 1,000 gallons of water in the system.
- Use two units per 1,000 gallons of water in the system. Use a second AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide dispensing unit every 4 weeks for systems less than 1,000 gallons of water in the system.

For moderately contaminated systems:

- Use two units per 1,000 gallons of water in the system. Use a second AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide dispensing unit every 4 weeks for systems less than 1,000 gallons of water in the system.

For heavily contaminated systems:

- Use two units per 1,000 gallons of water in the system. Use a second AQUACAR SUMP BUDDY Pro Water Treatment Microbiocide dispensing unit every 4 weeks for systems less than 1,000 gallons of water in the system.
