GENERAL INFORMATION
COMPLETION™ is a highly effective water conditioning agent designed to be compatible with most pesticides. COMPLETION™ contains ammonium sulfate which is well proven as an uptake enhancer in herbicide tank mixes at the standard use rate. It is recommended that COMPLETION™ be used wherever a pest control product recommends the use of ammonium sulfate or where hard water is a concern for active ingredient performance.

- Minimizes antagonistic interaction between hard water ions and active pesticide ingredients
- Improves efficacy of tank mix actives
- Use as a replacement for dry or liquid AMS
- Proven to work at lower use rates
- Easier to handle, transport and store than dry AMS
- Blends quickly for reduced mixing and loading times
- No heavy bags that are sensitive to humid storage conditions
- Lowers pH of tank mix
- Reduces alkaline hydrolysis of pesticides sensitive to high pH

DIRECTIONS FOR USE
NOT FOR AQUATIC USE
COMPLETION™ does not contain oil or surfactant but may be used in conjunction with these products. Use only with pesticides that allow low pH conditions. Do not use with copper-containing actives. Follow the mixing procedure for the pesticide being used. While COMPLETION™ may be added at any time, it should be added after any wettable powders or other solid formulations have been thoroughly dispersed, for maximum efficacy and ease of dispersion.

At the highest use rates, COMPLETION™ has been shown to work as well as 8 ½ pounds of dry ammonium sulfate per 100 gallons of water in glyphosate tank mixes.

PRECAUTIONARY STATEMENT
Causes substantial but temporary eye injury. Harmful if swallowed, inhaled or absorbed through skin. Do not get on eyes, skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear protective eyewear (goggles or face shield), chemical resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID
Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.
