PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER
Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful or fatal if swallowed or absorbed through skin. Do not ingest in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS
STRONG ODORIZING AGENT. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 84°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. NEVER add water to product. Always add product to large quantities of water. Use clean, dry utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Corrosion with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire or explosion.

IN CASE OF FIRE OR SMOKE: Call the fire department. Do not attempt to extinguish the fire without a self-contained breathing apparatus (SCBA). Do not put the fire out. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is the potential of a violent reaction.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use in accordance with directions and caution statements. This product is an effective concentrate to control bacteria in spa and hot tub water. Regular use of this product will sanitize the water and give brilliant water clarity. When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bucket or pool. Clean filter according to manufacturer’s instructions. Test pH and adjust to 7.2 – 7.6. Continuously run the circulation pump prior to applying this product. Do not enter the spa until the free chlorine residual has dropped below 3.0 ppm.

Routine Application: With circulation pump on, add 1 tablespoon or 1/4 ounce of this product for every 500 gallons of water. Regular additions will be necessary to maintain 1-2 ppm of free available chlorine at all times. Actual dosages of product required to maintain the desired free chlorine residual will vary with spa use and water temperature. Use a test kit frequently to determine and maintain the proper free chlorine residual.

Shock: Add 2 tablespoons or 1/2 ounce of this product to every 500 gallons of water. Maintain operation of your pump and filter. Spa water must be shocked at least once a week. Additional treatments may be necessary when the spa is being used frequently or when spa is being used by multiple people.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pest Control Storage: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Offer for recycling, if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physicians: Probable mucosal damage may contraindicate the use of gastric lavage.

KEEP OUT OF REACH OF CHILDREN
