**PRECAUTIONARY STATEMENTS**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Eye contact may cause loss of vision. Inhaling the fumes results in burning of nose and throat. May be fatal if inhaled. Hazardous if absorbed through skin or swallowed. Keep container tightly closed when not in use. Use with adequate ventilation. Do not ship with foods, feeds, drugs, or clothing. Do not smoke, drink, or eat when handling this product. Do not breathe dust or spray mist. Do not get it in the eyes, on skin, or on clothing. Avoid prolonged or frequent skin contact. May cause allergic reactions in some individuals. Wear goggles with side shields, face shield or safety glasses, protective clothing and rubber gloves. Wear a mask or a respirator. Protect children and pets from contact with this product. Read and follow all directions and precautions on the label. Keep out of reach of children.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning or disposing of waste materials. Disposal in the environment may result in the spread of hazardous substances. Do not dispose of this product into lakes, streams, ponds, estuaries, oceans, or other public waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES). Every precautionary statement for a product must be in writing in plain language that is easily understood. Do not discontinue using this product until you have consulted with your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat hazardous gases and possible fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical residue. Do not add to water at a rate of 3% (360°F), or (360°F) high Alkalinity. High Alkalinity can cause scale formation. Do not use with or near metal, and do not use with or near metal, and do not use a metal to store this product.

Special Precautions: Please read before opening container. May result in serious personal injury requiring hospitalization. Related complications may lead to death.

Prevention of Physical Injury: This product emits a powerful bromine gas. Use container outdoors, or if opening indoors, open in a well-ventilated area, away from other chemicals. Hold away from face when opening to avoid breathing fumes. Filling with other chemicals may cause a violent and instantaneous chemical reaction. Do not add this product to water in a well-ventilated area, away from other chemicals. Hold away from face when opening to avoid breathing fumes. Filling with other chemicals may cause a violent and instantaneous chemical reaction. Do not add this product to water in a well-ventilated area, away from other chemicals.

Prevention of Property Damage: When in contact with other products used in spas, avoid mixing with chemicals such as chlorine, pH adjusters, or sanitizers. Do not mix with other chemicals unless specifically recommended by the manufacturer. Do not mix with other chemicals unless specifically recommended by the manufacturer.

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use of this product will help to keep your pool or hot tub water clear and free of algae. This product is an effective spa or hot tub water sanitizer. This product is effective in a wide pH range and, if used, is non-toxic. This product is best used in a spa with a floating bromine feeder.

**Sanitizer for Spas and Hot Tubs:** When using other products in conjunction with this product, follow the instructions on the product. MIX up to four different products together in the same bottle, use a bottle, or place a similar container. Crush one tablet into one gallon of water in the spa or hot tub and add sodium bromide, according to label instructions. For bromine feeder and adjust the dispensing levels according to the manufacturer's instructions. To introduce a bromine residual, add 0.5 pounds of sodium bromide, according to label instructions. Fill bromine feeder and adjust the dispensing levels, according to the manufacturer's instructions. To introduce a bromine residual, add 0.5 pounds of sodium bromide, according to label instructions. Fill bromine feeder and adjust the dispensing levels, according to the manufacturer's instructions. To introduce a bromine residual, add 0.5 pounds of sodium bromide, according to label instructions.

**SPA Gallon Calculator:**

Square or Rectangular: Length x Width x Average depth x 7.5 = Gallons Round or Oval: Length x Width x Average depth x 5.5 = Gallons

**BROMINE TABS For Spas**

Slow dissolving brominating tablets for Spas

**ACTIVE INGREDIENT:**

Bromochloro-5,5-Dimethylhydantoin .......................... 98%
Other Ingredients .............................................. 2%
Total .......................................................... 100%
Provides 6.4% available bromine, 29% available chlorine

**FIRST AID:**

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.

In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eyes.

In Skin: Rinse thoroughly with water for 15-20 minutes. If necessary, use soap and water to clean skin.

In Inhalation: Move the person to fresh air. If breathing is difficult, seek medical attention.

**KEEP OUT OF REACH OF CHILDREN**

DANGER: CORROSIVE AND STRONG OXIDIZER.

See additional precautions on back panel.
