ACTIVE INGREDIENT: 
Hypochlorous Acid ......... 0.046% 
OTHER INGREDIENTS: ...... 99.954% 
TOTAL: ...... 100.000%

Contains 500 ppm Free Available Chlorine (FAC)

FIRST AID 
Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center (NPIC) 1-800-858-7378 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

CAUTION

EcaFlo® Anolyte must be used within 30 days after being produced.

DATE PRODUCED:

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION APPLICATIONS

Hard Non-Porous Surface Disinfection: To Clean, Disinfect and Deodorize Hard, Non-Porous Surfaces: For heavily soiled areas, a preliminary cleaning is required. Apply, Wipe or Dip EcaFlo® Anolyte at 500 ppm FAC to hard, non-porous surfaces with a cloth, wipe, mop or sponge. Treated surfaces must remain wet for 10 minutes. Allow surfaces to air dry. Food contact surfaces such as counters and tables must be rinsed with potable water. Do not use on utensils, glasses or dishes.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical devices prior to sterilization or high-level disinfection.

Food Processing and Service Establishments: Before Using this product, food products and packaging materials must be removed from the area or carefully protected. (Food contact surfaces must be rinsed with clean, potable water).

Animal Premises: Remove all animals and feed from the premises, vehicles and enclosures. Remove litter, droppings and manure from the floors, walls and surfaces of barns, pens, stables, chutes and other facilities if fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean all surfaces with soap and/or detergent and rinse with water. Apply EcaFlo Anolyte at 500 ppm FAC. Saturate surfaces with solution for 10 minutes. Immerse all hurdles, ropes and other types of equipment used in handling and restraining animals as well as forks, shovels, and scrapers used for removing litter and manure. After application, ventilate buildings, coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, manure, troughs, automatic feeders, fountains and waterers with soap or detergent and rise with potable water before reuse.

EcaFlo® Anolyte cleans and disinfects: Ambulances, Central Service Areas, Full Care Nursing Homes, Critical Care Units, Emergency Rooms, Hospitals, Hospital Kitchens, Medical Clinics, Neonatal Nurseries, Patient Rooms and Bathrooms, Surgery Rooms, Air Planes, Cruise Lines, Trains, Correctional Facilities, Gymnasiums, Recreational Centers, Day Care Centers, Preschool Facilities, Schools, Motels, Dormitories, Bars, Butcher Shops, Food Processing Areas, Restaurants, Restrooms, Shower Rooms, Kennels, Pet Shops, Veterinary Equipment/Facilities/Surfaces,

1 Gallon (3.78 Liter)

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a closed dark plastic container from direct sunlight. Store container in a cool dry area.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Disposal: Refillable container. Refill this container with pesticide only. Do not re-use this container for any other purpose. Cleaning before refilling is the responsibility of the refiller. Cleaning the container before final disposal is the responsibility of the person disposing the container. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full of water. Agitate vigorously or recirculate water with the pump for two minutes. Dispose of rinse as pesticide waste. Repeat this rinsing procedure two more times. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.
